

# DICHOTOMOUS KEY

## Identifying Freshwater Fish

A dichotomous key is a tool you can use to identify a wide variety of things in the natural world, like trees! This tool provides a series of two choices that will lead you to the correct identification of an unknown organism or object. Today you are going to use a dichotomous key to closely examine and identify a set of freshwater fish based on your observations and determine the correct name of the fish specimens you are given.
