## Dictionary Of Ila Usage:

**A Dictionary of Ila Usage, 1860-1960** Dennis G. Fowler, 2000 This book is based on material collected by missionaries at Kasenga Mission in Zambia Edwin Smith began in 1901 to note each new Ila word together with illustrative sentences dictated by his Ila informants Later missionaries continued this practice so that in 1959 the author found a mass of over 12 000 items already collected As the largest body of Ila ever assembled the dictionary offers much of interest in several fields The language has a consistent agglutinative structure of great sophistication logical as Latin flexible as Greek The speakers reveal not merely the preoccupations of daily existence in Ila villages a century ago but an outlook both sensitive and wryly humorous Feared in battle fearful of spirits revering God hunters of lion and buffalo polygamous romantic ribald in men s company but highly proper in women s tender towards children with a high regard for the arts of hospitality conversation and love the Baila spring with verve from these pages Appendices list nearly 2 000 synonyms 276 proverbs 164 metaphors 216 customs 400 trees with their medicinal uses 290 plants 150 birds and grammatical tables AfrikanerInnen in

Deutschland und schwarze Deutsche Marianne Bechhaus-Gerst, Reinhard Klein-Arendt, 2004 **Hausa Urban Art and Its Social Background** Friedrich W. Schwerdtfeger, 2007 When I started my investigation of decorated houses in the walled city of Zaria in late 1976 it was above all to record the rapidly disappearing external wall decorations Hence the survey was perceived as a rescue operation to collect as many photographs and drawings as possible before these decorations disappeared altogether and also to record vital information about them from compound heads living in decorated houses and from the master craftsmen who created them During an introductory stock taking survey we listed nearly one thousand decorated houses When I concluded the survey in 1985 the material collected included 75 recorded life stories of craftsmen When I finally completed the manuscript of this book hardly any of the old traditional external wall decorations had survived It was obvious that traditional wall decoration had become a thing of the past no longer relevant to the younger generation of compound heads in the city of Zaria and indeed in most other traditional towns in northern Nigeria From the introduction

de Luna, Jeffrey B. Fleisher, 2018-06-27 This volume proposes a supplemental approach to interdisciplinary historical reconstructions that draw on archaeological and linguistic data The introduction lays out the supplemental approach situating it in the broader context of similar interdisciplinary research methods in other world regions Reflecting the arguments of the volume and its goal to document the process rather than the outcome of interdisciplinary collaboration the volume is organized into two two chapter case studies Within each case study the non specialist develops an historical interpretation using their own research findings and published data from the other discipline This chapter is followed by critical commentary from the specialist a dialogue clarifying the commentary and specialists methods and a second short historical interpretation that deploys insights from the supplemental approach The conclusion reflects on the challenges of disciplinary conventions to interdisciplinary research and the contribution of the supplemental approach to efforts to know the history of oral societies in Africa and beyond Dictionary of the Alabama Language Cora Sylestine, Heather K.

Hardy, Timothy Montler, 1993-05-01 The Alabama language a member of the Muskogean language family is spoken today by the several hundred inhabitants of the Alabama Coushatta Indian Reservation in Polk County Texas This dictionary of Alabama was begun over fifty years ago by tribe member Cora Sylestine She was aided after 1980 by linguists Heather K Hardy and Timothy Montler who completed work on the dictionary after her death This state of the art analytical dictionary contains over 8 000 entries of roots stems and compounds in the Alabama English section Each entry contains precise definitions full grammatical analyses agreement and other part of speech classifications variant pronunciations example sentences and extensive cross references to stem entries The Alabama English section is followed by a thorough English Alabama finder list that functions as a full index to the definitions in the Alabama English section **The Contested**

**Floodplain** Tobias Haller, 2012-12-27 The Contested Floodplain tells the story of institutional changes in the management of common pool resources pasture wildlife and fisheries among Ila and Balundwe agro pastoralists and Batwa fishermen in the Kafue Flats in southern Zambia It explains how and why a once rich floodplain area managed under local common property regimes becomes a poor man s place and a degraded resource area Based on social anthropological field research the book explains how well working institutions in the past regulating communal access to resources have turned into state property and open access or privatization As a basis for analysis the author uses Elinor Ostrom s design principles for well working institutions and the approach of the New Institutionalism by Jean Ensminger The latter approach focuses on external factors and change in relative prices It explains how local actors face changing bargaining power and use different ideologies to legitimize and shape resource use regulations The study focuses on the historic developments taking place since pre colonial and colonial times up to today Haller shows how the commons had been well regulated by local institutions in the past often embedded in religious belief systems He then explains the transformation from common property to state property since colonial times When the state is unable to provide well functioning institutions due to a lack in financial income it contributes

to de facto open access and degradation of the commons The Zambian copper based economy has faced crisis since 1975 and many Zambians have to look for economic alternatives and find ways to profit from the lack of state control a paradox of the present absent state And while the state is absent external actors use the ideology of citizenship to justify free use of resources during conflicts with local people Also within Zambian communities floodplain resources are highly contested which is illustrated through conflicts over a proposed irrigation scheme in the area The different actors and interest groups use ideologies such as citizenship vs being indigenous ethnic identity vs class conflict and modernity vs traditional way of life to legitimize land claims
