The Color Revolution Regina Lee Blaszczyk, 2012-09-07

A history of color and commerce from haute couture to automobile showrooms to interior design. When the fashion industry declares that lime green is the new black or instructs us to think pink, it is not the result of a backroom deal forged by a secretive cabal of fashion journalists, designers, manufacturers, and the editor of *Vogue*. It is the latest development of a color revolution that has been unfolding for more than a century. In this book, the award-winning historian Regina Lee Blaszczyk traces the relationship of color and commerce from haute couture to automobile showrooms to interior design, describing the often unrecognized role of the color profession in consumer culture. Blaszczyk examines the evolution of the color profession from 1850 to 1970, telling the stories of innovators who managed the color cornucopia that modern artificial dyes and pigments made possible. These color stylists, color forecasters, and color engineers helped corporations understand the art of illusion and the psychology of color. Blaszczyk describes the strategic burst of color that took place in the 1920s when General Motors introduced a bright blue sedan to compete with Ford's all-black Model T and when housewares became available in a range of brilliant hues. She explains the process of color forecasting, not a conspiracy to

manipulate hapless consumers but a careful reading of cultural trends and consumer taste And she shows how color information flowed from the fashion houses of Paris to textile mills in New Jersey Today professional colorists are part of design management teams at such global corporations as Hilton Disney and Toyota The Color Revolution tells the history of how colorists help industry capture the hearts and dollars of consumers **Fashion and Art** Adam Geczy,Vicki Karaminas,2013-08-15 For at least two centuries fashion and art have maintained a competitive love hate relationship Both fashion and art construct imaginary worlds and use a language of style to invigorate beliefs perceptions and ideas Until now the crossovers of fashion and art have received only scattered treatment and suffered from a dearth of theorization As an attempt to theorize the area this collection of new and updated essays is the most well rounded and authoritative to date Some of the world s foremost scholars in the field are assembled here to explore the art fashion nexus in numerous ways from aesthetics and performance to masquerade and media Original and inspiring this book will not only secure art fashion as a discrete area of study but also suggest new critical pathways for exploring their continuing cross pollination Fashion and Art is essential reading for students and scholars of fashion art history and theory cultural studies and related fields **The Best Art in the World** Noah Becker,Michael Maizels,2025-08-12 Founded in 2005 Whitehot Magazine has become one of the leading channels for contemporary art criticism Since its inception Whitehot has published thousands of reviews covering art from the United States East Asia the Middle East Africa and South America with key pieces authored by critical luminaries including Anthony Haden Guest Donald Kuspit and Phoebe Hoban The magazine is also uniquely independent in its editorial voice Unlike other large art world publications Whitehot is owned and managed by its founding editor rather than by a media holding company On the occasion of its upcoming 20th anniversary founder Noah Becker and contributor Michael Maizels have compiled a critical anthology of the magazine s writings The selected articles not only encapsulate the storied history of Whitehot but also provide a significant window into the evolution of art practice and art criticism since the turn of the Millennium **Art + Fashion** E.P.
