Methods & Theories of Art History Third Edition Anne D'Alleva, Michael Cothren, 2021-08-05 This book is an accessible introduction to the critical theories used in analysing art. It covers a broad range of approaches presenting individual arguments, controversies and divergent perspectives. This edition has been updated to reflect recent scholarship in contemporary art and has been broken down into smaller sections for greater accessibility. The book ends with a new conclusion that focuses on the way the study of art is informed by theory.

The Athenaeum, 1846 **The Discovery of Chinese Literature (Wenxue)** Laiming Yu, 2023-09-15 This book traces the origin and evolution of two Chinese characters: *wenxue* (literature). By using the methods of conceptual history and historical and cultural semantics, and by taking the evolution and changes of the concept of these two characters and their interpretations in the West as a window, it re-examines the contemporary morphology of concept evolution in the historical context of concept generation and development to discover the historical and cultural connotations hidden behind the characters, so as to embark on a vivid journey to explore the history of literary thought, discipline and culture. The entire book is woven with the concept of literature at its core. Following the author's analysis and interpretation, an interlocking and orderly network of description of ancient and modern Chinese and foreign unfolds. In this context, the chapters are progressive and mutually responsive, forming an organic whole which is connected at the beginning and the end. For those readers who are trying to understand how Chinese *wenxue* evolved from one of the four disciplines of Confucius into a modern discipline and concept, this book will provide the most detailed in depth and vivid historical picture.
