Developing Communities For The Future 4th Edition:

Practical and Political Approaches to Recontextualizing Social Work Boulet, Jacques, Hawkins, Linette, 2021-02-19

Currently there is an enduring and changing meaning of social work in a world where new crises are being confronted and new opportunities are arriving in the evolving context of social work and the related disciplines. There is a question on how to manage the transformation of social work both productively and creatively during this global shift. Practitioners and educators can experience a tragic disorientation when confronted by the diversity and depth of these crises endured and can face doubts about their role in social work throughout all these changes and difficult situations. Alternatives to this disorientation, a comfort with uncertainty and a capability to take risks need to urgently be developed on a professional and personal level for success in the evolving field. Through historical lens and a review of policies and value based approaches the recontextualization of social work can be explored. Practical and Political Approaches to Recontextualizing Social Work explores practical and political ways in which social work practice has been reconstructed. Chapters identify this recontextualization of social work and how it is changing, adapting and transforming the profession along with providing the potential implications for the profession. This book grants insight on the reconstruction of social work on the personal and interpersonal level, case work and also on those intending to impact social work on the local/global environment level in all dimensions: politically, economically, socially and ecologically. In addition, the book includes a shift from the present short term and micro personal view to a future and much broader and encompassing perspective and practice vision. This book is essential for social workers, practitioners, policymakers, government officials, researchers, academicians and students who want to learn more about the recontextualizing of modern social work in a shifting global environment.

Politics, Power and Community Development Rosie Meade, Mae Shaw, Sarah Banks, 2016-01-13. Presenting unique and critical reflections on international policy and practice, this book addresses the global dominance of neoliberalism. It examines the extent to which community development practitioners, activists and programmes can challenge, critique, engage with or resist its influence.

Human Rights and Social Work Jim Ife, Karen Soldatić, Linda Briskman, 2022-07-12. Human Rights and Social Work Towards Rights Based Practice helps students and practitioners understand how human rights concepts underpin the social work profession and inform their practice. This book examines the three generations of human rights and the systems of oppression that prevent citizens from participating in society as equals. It explores a range of topics from ethics and ethical social work practice to deductive and inductive approaches to human rights and global and local human rights discourses. The language, processes, structures and theories of social work that are fundamental to the profession are also discussed. This edition features case studies exploring current events, movements and human rights crises including the Black Lives Matter movement, the Northern Territory Emergency Response and homelessness among LGBTIQ young people. This edition is accompanied by online resources for both students and instructors. Human Rights and Social Work is an indispensable guide.

for social work students and practitioners

Theorising the Practice of Community Development Peter

Westoby, 2016-02-17 Based on 25 years of community development practice six of which have been lived in South Africa Peter Westoby's ground breaking monograph moves away from dominant normative accounts of community development to provide an appreciative and critical analysis of concrete examples of community development theory and practice By examining community development stories as experienced on the ground Westoby is able to show how the poor are organising themselves using various forms of community development as well as demonstrating how the state and non state actors are attempting to organise engage or accompany the poor through community development The book also breaks new ground in theorising the practice of community development drawing inductively from the stories analysed The diversity of South African contexts and the proliferation of different kinds of community practice make this a hugely difficult task Despite this Westoby argues it is one worth undertaking given the seriousness of the challenges facing the poor and progressive social change agents within South Africa In this undertaking Westoby draws upon a unique analytical framework to help illuminate current community development policy and programme challenges along with practice dilemmas and wisdom
