The SAGE Handbook of Diplomacy Costas M. in East Asia Jan Melissen, Yul Sohn, 2016-04-08 Set against the backdrop of tensions in East Asia this book analyzes how East Asia's new middle powers and emerging powers employ public diplomacy as a key element of their foreign policy strategy and in so doing influence regional power dynamics The volume brings together contributions from an international and influential group of scholars who are leading debates on public diplomacy within East Asia Where the study of public diplomacy has so far focused primarily on the West the essays in this book highlight the distinct strategies of East Asian powers and demonstrate that understanding public diplomacy requires studying its strategies and practices outside as much as within the Western world A focus on public diplomacy likewise gives us a more varied picture of state to state relations in East Asia

Institutionalizing East Asia Alice D. Ba, Cheng-Chwee Kuik, Sueo Sudo, 2016-03-10 Institutional activities have remarkably transformed East Asia a region once known for the absence of regionalism and regime building efforts Yet the dynamics of this Asian institutionalization have remained an understudied area of research This book offers one of the first scholarly attempts to clarify what constitutes institutionalization in East Asia and to systematically trace the origins discern the features and analyze the prospects of ongoing institutionalization processes in the world's most dynamic region Institutionalizing East Asia comprises eight essays grouped thematically into three sections Part I considers East and Southeast Asia as focal points of inter state exchanges and traces the institutionalization of inter state cooperation first among the Southeast Asian states and then among those of the wider East Asia Part II examines the institutionalization of regional collaboration in four domains economy security natural disaster relief and ethnic conflict management Part III discusses the institutionalization dynamics at the sub regional and inter regional levels The essays in this book offer a useful source of reference for scholars and researchers specializing in East Asia regional architecture and institution building in international relations They will also be of interest to postgraduate and research students interested in ASEAN the drivers and limits of international cooperation as well as the role of regional multilateralism in the Asia Pacific region

Defence Diplomacy in the Long War Patrick Blannin, 2017-08-28 One of the most dominant security issues of the twenty-first century has been the US-led battle against transnational terrorism, the aptly named Long War. Over the past fifteen years, the Long War has been examined using multiple perspectives. However, one central mechanism is missing in current Long War analyses: defence diplomacy. Defence diplomacy enhances the diplomatic and security capacity of a state, providing the only link between executive office and the ministries of foreign affairs and defence, two vital institutions in the Long War. Using a case study of US defence diplomacy in Afghanistan from 2001 to 2014, the paper argues simply that the practice of defence diplomacy far outweighs current theories on what it is, how it works, and why it matters. The paper aims to generate a more nuanced understanding of defence diplomacy as well as identify it as a key component of the US CT/COIN strategy to achieve their Long War policy objectives.

Defence Diplomacy Daniel H. Katz, 2020-02-19 This book analyzes examples of strategic engagement in order to identify the factors which contribute to the success or failure of defence diplomacy in preventing interstate conflict. For more than a century, nations have engaged in defence diplomacy to cultivate mutual understanding and mitigate conflict. A subset of defence diplomacy is strategic engagement, defined as peacetime defence diplomacy between nations that are actual or potential adversaries. This book analyzes three cases of strategic engagement in order to elucidate the factors which contribute to the success or failure of this diplomacy in preventing conflict. It uses an inductive framework to compare strategic engagement in the following cases: Anglo-German defence diplomacy prior to World War I; US-Soviet defence diplomacy during the Cold War; and post-Cold War US-China defence diplomacy. Based upon archival literature and personal interview research, the book argues that defence diplomacy can mitigate the risk of interstate conflict between potential adversaries. The lessons learned from this book can be employed to discern the significant elements conducive to achieving a successful outcome of strategic engagement and averting conflict or even war. This book will be of much interest to students of defence studies, diplomacy studies, foreign policy, and international relations.

Public Diplomacy in Vietnam Vu Lam, 2022-08-12 This book explores how Vietnam's leadership conceptualises and conducts public diplomacy (PD) and offers a comparative analysis with regional powers. Drawing on social constructivism as its theoretical framework, it investigates the rationale behind an authoritarian regime's implementation of public diplomacy to contribute to a better understanding of the broader framework of foreign domestic policy. This theoretical and practical exploration of Vietnam's PD in cases of cultural diplomacy, South China Sea diplomacy, and online activism situates it in the general academic and theoretical discussion on soft power. Key variables to the

conceptualisation and conduct of Vietnam's PD namely national interest national identity and changing information technologies especially the Internet and social media are also thoroughly investigated With crosscutting themes ranging from politics and international relations to communication studies it will appeal to students and scholars of identity politics populism and nationalism Global Media and Public Diplomacy in Sino-Western Relations Jia Gao, Catherine Ingram, Pookong Kee, 2016-07-22 Many researchers and China observers would agree that understanding how China pursues global communication is critical for assessing its growing soft power While soft power as a concept has in many ways become almost inextricably linked with the PRC's People's Republic of China international diplomacy of the twenty first century the specific role of global media within soft power diplomacy and the corresponding influence of Western mediated public diplomacy within China is a lacuna that has remained largely unexplored Moreover the different Chinese and Western perspectives on the influence of global media and public diplomacy on Sino Western relations and the changing role of global media on this crucial aspect of international politics have not yet been critically examined This volume presents a broad social science audience with recent innovative scholarship and research findings on global media and public diplomacy concerning Sino Western relations It focuses on the implicit nexus between global media and public diplomacy and their actual utilisation in and impact on the shifting relationships between China and the West Special attention is given to the changing nature of globalised media in both China and Western nations and how globalised media is influencing shaping and changing international politics The contributions delve deeply into both theory and practice and focus especially upon the analysis of several key aspects of the issue from both Chinese and Western perspectives This combination of approaches distinguishes the volume from most other published works on the topic and greatly enriches our knowledge base in this important contemporary field **Culinary Nationalism in Asia** Michelle T. King, 2019-07-11 With culinary nationalism defined as a process in flux as opposed to the limited concept of national cuisine the contributors of this book call for explicit critical comparisons of cases of culinary nationalism among Asian regions with the intention of recognizing patterns of modern culinary development As a result the formation of modern cuisine is revealed to be a process that takes place around the world in different forms and periods and not exclusive to current Eurocentric models Key themes include the historical legacies of imperialism colonialism nationalism the Cold War and global capitalism in Asian cuisines internal culinary boundaries between genders ethnicities social classes religious groups and perceived traditions modernities and global contexts of Asian cuisines as both nationalist and internationalist enterprises and Asia itself as a vibrant culinary imaginary The book which includes a foreword from Krishnendu Ray and an afterword from James L Watson sets out a fresh agenda for thinking about future food studies scholarship The Encyclopedia of Diplomacy, 4 Volume Set Gordon Martel, 2018-04-30 The Encyclopedia of Diplomacy is a complete and authoritative 4 volume compendium of the most important events people and terms associated with diplomacy and international relations from ancient times to the present from a global perspective

Diplomatic Style and Foreign Policy Jeffrey Robertson,2016-05-20 The book explores diplomatic style and its use as a means to provide analytical insight into a state s foreign policy with a specific focus on South Korea Diplomatic style attracts scant attention from scholars It is dismissed as irrelevant in the context of diplomacy s universalism misconstrued as a component of foreign policy alluded to perfunctorily amidst broader considerations of foreign policy or wholly absented from discussions in which it should comprise an important component In contrast to these views practitioners maintain a faith like confidence in diplomatic style They assume it plays an important role in providing analytical insight giving them advantage over scholars in the analysis of foreign policy This book explores diplomatic style and its use as a means to provide analytical insight into foreign policy using South Korea as a case study It determines that style remains important to diplomatic practitioners and provides analytical insight into a state s foreign policy by highlighting phenomena of policy relevance which narrows the range of information an analyst must cover The book demonstrates how South Korea s diplomatic style which has a tendency towards emotionalism and is affected by status generational change cosmopolitanism and estrangement from international society can be a guide to understanding South Korea s contemporary foreign policy This book will be of much interest to students of diplomacy studies foreign policy Asian politics and International Relations in general

Diplomacy, Communication, and Peace William Maley,2020-11-15 This book is composed of interconnected essays which reflect on challenging new issues related to diplomacy communication and peace This book begins by drawing out some of the challenges for diplomacy that arise from modern theories of semantics and of strategic communication as well as those posed by the need for secrecy and by the activities of agents of influence It then proceeds to examine important issues in contemporary diplomacy including refugee diplomacy humanitarian diplomacy sovereignty norms and consular activities It concludes with an exploration of dilemmas that confront attempts to promote peace through multilateral means such as the limitations of peacemaking diplomacy the difficulty of promoting democratic governance and the problems associated with dealing with morally repugnant actors The book is grounded in the conception of diplomacy as a social practice with multiple players and recognises that the state has

many different elements and that state actors live in worlds shaped not just by their relations with other states but also by their own complex domestic politics This book will be of much interest to students of diplomacy foreign policy and International Relations China's Globalization and the Belt and Road Initiative Jean A. This book provides a novel theoretical framework to understand EU China diplomatic relations. The existing scholarly literature on EU China relations is characterised by a dichotomous distinction between material and ideational factors and overemphasises the interest versus value motif undergirding EU China relations. The diplomacy and future direction of the relationship seem as opaque as their extent remains incalculably complex. This book takes us beyond binary motives by introducing a novel theoretical model of diplomatic relationship building that brings to the fore the more nuanced and latent factors to make sense of EU China diplomatic relationship building. The new theory captures the relational nature of diplomatic relationship building by integrating the social layer of intentions in understanding international diplomacy. This study further sheds light on the opportunities and challenges in enhancing EU China relations through a comparative in depth investigation of the processes, practices and politics of EU China climate change and agricultural trade relations over the past two decades. The book draws on a rich collection of original data encompassing over 100 interviews with stakeholders of EU China relations conducted from 2015-2023, strengthened by participant observation at EU and Chinese institutional headquarters and in diplomatic fora that has taken place over the past ten years. Enriching these data are newly disclosed official minutes and documentation regarding EU China negotiations and cooperation. This book will be of much interest to students of diplomacy studies, Chinese politics, EU politics and international relations in general.

China's Public Diplomacy Ingrid d'Hooghe, 2015-01-08

In China's Public Diplomacy, author Ingrid d'Hooghe contributes to our understanding of what constitutes and shapes a country's public diplomacy and what factors undermine or contribute to its success. China invests heavily in policies aimed at improving its image, guarding itself against international criticism and advancing its domestic and international agenda. This volume explores how the Chinese government seeks to develop a distinct Chinese approach to public diplomacy, one that suits the country's culture and authoritarian system. Based on in depth case studies, it provides a thorough analysis of this approach, which is characterized by a long term vision, a dominant role for the government, an inseparable and complementary domestic dimension, and a high level of interconnectedness with China's overall foreign policy and diplomacy.

I William Zartman: A Pioneer in Conflict Management and Area Studies

I. William Zartman, 2019-05-13

The work draws on wide ranging area analysis to develop inductively new concepts and approaches for further use in explanation and application. Divided into two parts, it begins with analysis of revolution and socio-political unrest, followed by models of ethnic conflict and elite circulation in developing societies. It presents the cultural dialectic present in Islam. It then lays out the patterns of mediation and negotiation in managing and resolving conflict, culminating with an analysis of intractables. Part two on governance lays out the nature of world order, cooperation and conciliation. It then turns to the challenges of identity, ideology and interest, with some specific attention to the nature of borders and borderlands and focuses on governance as conflict management and as negotiation. This book encompasses a new analysis of a neglected part of International Relations: the prevention and management of conflict. The book confronts

sources and patterns of contentious politics with systems and methods of governance The book lays out a comprehensive conceptualization of the process of conflict management and negotiation including questions of when as well as how
