Disciplining Democracy Development Discourse And Good Governance In Africa:

Disciplining Democracy Rita Abrahamsen, 2000-12 Examines contemporary development theory and discourse and explores its relationship to processes of democratization in sub Saharan Africa Focuses on the emergence and implementation of the good governance discourse Draws on examples from four countries to demonstrate the impact of structural adjustment on economic and social conditions and describes the activities of democracy movements opposed to adjustment programmes Concludes that the good governance agenda has been largely unsuccessful in promoting stable multi party democracies in Africa

Class Struggle and Resistance in Africa Leo Zeilig, 2016-12-05 This collection of essays and interviews studies class struggle and social empowerment on the African continent

Good Governance in Nigeria Portia Roelofs, 2023-04-20 Drawing on original fieldwork in Nigeria Portia Roelofs argues for an innovative re conceptualisation of good governance Contributing to debates around technocracy populism and the survival of democracy amidst conditions of inequality and mistrust Roelofs offers a new account of what it means for leaders to be accountable and transparent Centred on the rise of the Lagos Model in the Yoruba south west this book places the voices of roadside traders and small time market leaders alongside those of local government officials political godfathers and technocrats In doing so it theorises socially embedded good governance Roelofs demonstrates the value of fieldwork for political theory and the associated possibilities for decolonising the study of politics Challenging the long held assumptions of the World Bank and other international institutions that African political systems are pathologically dysfunctional Roelofs demonstrates that politics in Nigeria has much to teach us about good governance

Politik der Beherrschung Dorothea Gädeke, 2017-12-12 Sollten wir in anderen Teilen der Welt Prozesse der Demokratisierung aktiv fördern Mit dem Ende des Kalten Krieges schien sich die liberale Demokratie weltweit durchzusetzen Etablierte Demokratien versuchten diesen Prozess zu unterstützen Doch seit Beginn des neuen Jahrtausends regt sich Widerstand zunehmend wird der Vorwurf des Imperialismus erhoben Dorothea Gädeke formuliert in ihrem originellen Buch erstmals normative Grundlagen und Grenzen externer Demokratieförderung Sie entwickelt eine kritische republikanische Theorie der Gerechtigkeit und zeigt warum die Praxis externer Demokratieförderung eine Politik der Beherrschung konstituiert und wie sie überwunden werden kann

In the Shadow of Good Governance Gerhard Anders, 2009-10-26 In the Shadow of Good Governance traces the implementation of the good governance agenda in Malawi from the loan documents signed by the representatives of the government and the Bretton Woods institutions to the individual experiences of civil servants who responded in unforeseen ways to the reform measures Ethnographic evidence gathered in government offices neighbourhoods and the private homes of civil servants living in Malawi's urban and peri urban areas undermines the common perception of a disconnect between state institutions and society in Africa Instead the book presents a comprehensive analysis of civil servants attempts to negotiate the effects of civil service reform and economic crisis at the turn of the 21st century

Democratic Reform in Africa Muna Ndulo, 2006 This

work examines the interrelationship between governance and poverty alleviation in Africa and the impact of democratic reform on this relationship. There has been a new approach to the question of governance in Africa on the part of the international community. Economic aid and other forms of financial assistance are conditional on good governance. African states themselves in the New Partnership for African Development (NEPAD) have recognized good governance as a precondition to development. They have devised standards for economic and political governance. Democratic reform in Africa has been slow, difficult, and at times painful. Nevertheless, sufficient time has passed to begin to assess what progress, if any, Africa has made in addressing the need for the consolidation of democratic reform and the resolution of considerable developmental challenges.

MUNA NDULO is Professor of Law at Cornell University, North America. Ohio U Press **The Real Politics of the Horn of Africa** Alex de Waal, 2015-10-19. The Real Politics of the Horn of Africa delves into the business of politics in the turbulent war-torn countries of north-east Africa. It is a contemporary history of how politicians, generals, and insurgents bargain over money and power and use of war to achieve their goals. Drawing on a thirty-year career in Sudan, Ethiopia, Eritrea, and Somalia, including experience as a participant in high-level peace talks, Alex de Waal provides a unique and compelling account of how these countries' leaders run their governments, conduct their business, fight their wars, and occasionally make peace. De Waal shows how leaders operate on a business model, securing funds for their political budgets, which they use to rent the provisional allegiances of army officers, militia commanders, tribal chiefs, and party officials at the going rate. This political marketplace is eroding the institutions of government and reversing statebuilding, and it is fuelled in large part by oil exports, aid funds, and western military assistance for counterterrorism and peacekeeping. The Real Politics of the Horn of Africa is a sharp and disturbing book with profound implications for international relations, development, and peacemaking in the Horn of Africa and beyond.

The Politics of the Right Leo Panitch, Greg Albo, 2015-12-22. Today the Left faces new challenges from political forces amassing on the radical right. The 52nd volume of the Socialist Register presents a serious calibration and a careful political mapping of these forces. It addresses pivotal questions on the reordering of the new right. These essays, very broad in terms of themes and places, speak to the global challenges the new right poses for the left at this historical moment. What is the nature of the right's populism, nationalism, and militarism? What is the social base and organizational strength and range of far-right political forces? To what extent are they influencing mainstream parties and opinion? How have they penetrated state institutions? What role do state security services and police forces play? Does our political situation today require comparison with 1930s Fascism? How should the left respond to defend democratic and human rights?

Twenty Years of Studying Democratization

Aurel Croissant, Jeffrey Haynes, 2015-06-05 Democratization emerged at a time of epochal change in global politics the twin impacts of the end of the Soviet Union and the speeding up and deepening of globalisation in the early 1990s meant a whole new ball game in terms of global political developments The journal's first issue appeared in early 1994 Over time the editorial position has been consistently to focus on the third wave of democracy and its aftermath The third wave is the most recent exemplar of a long term historical trend towards more democratically viable regimes and away from authoritarian systems and leaders In short the journal wants to promote a better understanding of democratization defined as the way democratic norms institutions and practices evolve and are disseminated both within and across national and cultural boundaries Over the years the many excellent articles that we have featured in the journal have shared our focus on democratization viewed as a process The journal has sought and continues to seek to build on the enduring scholarly and of course popular interest in democracy how and why it emerges develops and becomes consolidated Our emphasis over the last 20 years has been contemporary and the approach comparative with a strong desire to be both topical and authoritative We include special reference to democratization in the developing world and in post communist societies In sum just as 20 years ago the journal today aims to encourage debate on the many aspects of democratization that are of interest to policy makers administrators and journalists aid and development personnel those involved in education and perhaps above all the tens of millions of ordinary people around the world who do not yet enjoy the benefits of living under democratic rule The two dozen articles collected in this virtual special issue are emphatic proof of the power of the written word to induce debate uncertainty and ultimately progress towards better forms of politics focused on the achievement of the democratic aspirations of men and women everywhere

A New Paradigm of the African State

M. Muiu, G. Martin, 2009-01-05 Offers a historical multidisciplinary perspective on African political systems and institutions ranging from Antiquity Egypt Kush and Axum to the present with particular focus on their destruction through successive exogenous processes including the Atlantic slave trade imperialism colonialism and neo colonialism or globalization

Nationalism and National Projects in Southern Africa

Ndlovu-Gatsheni, Sabelo J., Ndlovu, Finex, 2013 Despite the fact that nationalism and its national projects have in recent years been severely criticised by postcolonial theorists for being fundamentalist and essentialist by feminists for being patriarchal and exclusive by global financial institutions for being antagonistic to development and globalisation by Pan Africanists for being anticontinental unity and by those Africans born after decolonisation for being irrelevant Sabelo J

Ndlovu Gatsheni and Finex Ndhlovu's book convincingly argues that nationalism has defied its death and displayed remarkable resilience and resonance. Since the end of the Cold War, what has been poignant has been the enduring contest tensions and contradictions between the growth of various forms of transnationalism on the one hand and a resurgence of territorial as well as other narrow and xenophobic forms of nationalism on the other. In this important book, Ndlovu Gatsheni and Ndhlovu provide new critical reflections on nationalism and its national projects in southern Africa, covering South Africa, Zimbabwe, and the Democratic Republic of Congo (DRC), a member of SADC. The national question is interrogated from different disciplinary vantage points to reveal how it impinges on contemporary challenges of nation building, development, devolution of power, language questions, and citizenship on the one hand, and ethnicity, nativism, and xenophobia on the other.

Konturen der neuen Welt(un)ordnung Georg Kohler, Urs Marti, 2008-08-22. Die Gegenwart ist mit der Aufgabe konfrontiert, vor dem Hintergrund des Streits über Nutzen und Nachteil der Globalisierung von Produktion, Handel und Investition die Möglichkeiten politischen Handelns und politischer Verfassung neu zu beurteilen. Die Ordnung der Welt nimmt neue Konturen an, und dieser Transformationsvorgang erhöht Spekulationen jeder Art. Die einzelnen Beiträge untersuchen aus philosophischer und juristischer Perspektive die Transformation der Souveränität, internationale Verrechtlichungstendenzen, Kriterien globaler sozialer Gerechtigkeit sowie die Herausbildung berstaatlicher Verfassungsformen. **Good Governance**

in the Middle East Oil Monarchies Martin Hetherington, Tom Pierre Najem, 2003-09-02. The concept of good governance is of increasing importance and is used by international organizations to ensure reasonable conformity to high standards in states which participate in the global trading regime and other international activities. This book examines the concept of good governance and how it is applied in the states of the Gulf Cooperation Council. These states are particularly important because of their strategic location and massive oil wealth. Moreover, as monarchies in most cases without powerful democratic representative bodies and as Islamic countries with a different outlook from countries of the West, Western standards of good governance may need to be modified in order for them to be implemented effectively. The International Relations of Sub-Saharan Africa Ian Taylor, 2010-04-01. This title examines Sub-Saharan Africa's relations with states such as the US, India, China, the EU, and Britain, as well as with non-state actors. The International Relations of Sub-Saharan Africa is an in-depth examination of Africa's place in global politics. The book provides a comprehensive and critical appraisal of the ways in which peace, prosperity, and democracy are being advanced or restricted by the activities of the great powers in Africa, including non-state actors, as well as who benefits from these policies and who does not. The book is a needed comparative study of the role of great powers and new actors such as China and India in Africa within the wider context of neo-liberal hegemony. It fills a gap in the literature and will be of interest to any student of the continent. Its focus on external actors contributes to providing a fuller picture of Africa's place in the global political economy and how the continent interacts with the rest of the world. This is an essential work for anyone researching issues in international relations, comparative foreign

policies and African politics Peacebuilding Paradigms Henry F. Carey, 2020-12-17 Peacebuilding is explained by combining interpretive frameworks paradigms that have evolved from the subfields of international relations and comparative politics **Nachhaltigkeit in der Entwicklungszusammenarbeit** Julian König, Johannes Thema, 2011-04-11 Fünf Jahre bevor die Millennium Development Goals 2015 erreicht werden sollen sind angesichts der Probleme der entwickelten Staaten durch die Finanz und Wirtschaftskrise nachhaltige Entwicklungsperspektiven für den globalen Süden in den Hintergrund getreten Doch gerade jetzt in dieser globalen Umbruchphase ist das Thema nachhaltige Entwicklung von herausragender Relevanz Der vorliegende Band analysiert die Bedeutung und die Facetten der ökologischen sozialen und ökonomischen Nachhaltigkeit zeigt strukturelle Herausforderungen für eine nachhaltige Entwicklung auf und diskutiert deren Förderung durch internationale Zusammenarbeit Dabei nehmen sich Experten Wissenschaftler und Praktiker aus der Entwicklungszusammenarbeit aus verschiedenen Blickwinkeln einzelnen Aspekten des komplexen Themenfelds an Auf diese Weise befasst sich der Sammelband mit den wichtigsten Konzepten und dringendsten strukturellen Problemen aktueller Entwicklungspolitik Development's Displacements Peter Vandergeest, Pablo Idahosa, Pablo S. Bose, 2010-10-01 As multilateral agencies social movements and state authorities worldwide struggle to cope with the effects of large scale development projects such as dam building mining oil extraction forest plantations and nature conservation the problem of displacement remains unresolved The crisis of development refugees those forced to relocate not by wars or political conflicts but rather because of development policies programs and projects is becoming increasingly prevalent across the globe While existing studies on development induced displacement have focused on issues such as resettlement and compensation for those displaced this volume seeks to address displacement as a broad and multilayered phenomenon A series of illustrative case studies drawn from around the globe provide causal accounts of why and how displacement occurs what its effects on communities ecosystems and economies look like and the normative or ethical positions held by key actors involved Contributors offer economic political and cultural analyses as well as extensive ethnographic field research to present a picture of displacement that illustrates the depth and the breadth of the issue **Reconstructing the Third Wave of Democracy** Rita Kiki Edozie, 2008-12-12 Since the 1990s trends in African politics require the realization that the public policy practice and the theoretical analysis of democracy and democratization are becoming increasingly important tenets for understanding the contemporary political science of the region Reconstructing the Third Wave of Democracy explains these new political processes and ideas Author Rita Kiki Edozie identifies factors that Africans have encountered since the foundation of the modern African state and presents a critical analysis of African politics through the lenses of post colonial discourse by uniquely employing the ideas of democratic theory to guide an analysis of the Continent's democratic development and performance Edozie presents an intra regional comparative analysis of democratic politics in Africa in ways that few books on the same subject do for the continent Her methodology for examining democracy in Africa reveals the
