This timely, thoughtful and comprehensive text directly meets this need. The first 6-12 English language arts methods text to be aligned with the Standards, this book also addresses their limitations: formalist assumptions about literacy learning; limited attention to media/digital literacies; lack of attention to critical literacies; and questionable assumptions about linking standards and text complexity to specific grade levels. Specific examples of teachers using the literacy practices critical engagement curriculum framework in their classrooms shows how these limitations can be surpassed. Features: Moves the CCSS framework into a view that literacy is a contextualized social practice; Challenges simplistic models that homogenize adolescent learners; Adds the important element of critical literacy to English language arts classrooms; Provides specific examples of teachers in action.
