because of the delay in time For fear of dads rebuke Hong Mao quietly got up at midnight to help the seedlings grow more quickly by pulling them upward When Hong Mao s dad came back home he saw all of the seedlings lying down in the field with their roots exposed in the air He knew that Hong Mao had done this Dad asked Hong Mao why he had made this mess and wanted him to admit his fault Hong Mao did not acknowledge his mistake but instead said that this had been the hares fault Lately no hares had come to hit their heads against the tree trunk and so he had to wait patiently for them had it not been for the hares fault he would have remembered his task and would not have pulled the seedlings upward and would not have been criticized by dad Hong Mao s dad was so angry that he slapped Hong Mao s face Hong Mao did not cry Instead he decided that he would leave home to visit various scenic spots and make a living wandering from place to place In his adventurous journey Hong Mao experienced more than a few strange affairs met many interesting people and animals and learned a lot about the world In the end his trip turned the naughty boy into a good one The Chinese language has become a popular subject to study in recent years However because it is not an alphabetic language and is quite different from other languages it is not very easy to learn Are there any knacks to quicken the learning process The answer is YES The key to success lies in learning Chinese idioms Chinese idioms are not just a play on words they are the heart and soul of the language There are roughly one thousand very popular idioms in Chinese and among them about half are most frequently in use Many of them are very vivid and interesting Learning Chinese idioms can greatly increase readers interest and thus raise the speed of Chinese learning This story about a boy s adventures connects a series of 366 most frequently used Chinese idioms Through reading and remembering this interesting story readers will be able to learn Chinese efficiently An idiom a day kicks the Chinese learning difficulty away For understanding Chinese idioms readers should read THE KEY OF THIS BOOK first and then use the notes that were inserted into the story This book may function as a combination of a storybook and a textbook with the story in the main body and the text in the notes Readers can enjoy the story while they learn Chinese idioms at the same time and on the same page Many books in Chinese have characters in only one form either the simplified form or the standardized form i e the traditional form or the original complex form but this book has both forms Many books in Chinese have only one kind of phonetic notation which is the Chinese phonetic alphabet or Chinese Pinying notation mandarin pronunciations with four tones but this book has both Chinese mandarin pronunciations with four tones and English pronunciations For readers convenience the author has summarized all idioms mentioned in the story and placed them at the end of this book For people whose focus is not on learning Chinese Hong Mao s st      Natural Language Processing – IJCNLP 2004 Keh-Yih Su,Jun'ichi Tsujii,Jong-Hyeok Lee,Oi Yee Kwong,2005-01-25 This book constitutes the thoroughly refereed post proceedings of the First International Joint Conference on Natural Language Processing IJCNLP 2004 held in Hainan Island China in March 2004 The 84 revised full papers presented in this volume were carefully selected during two rounds of reviewing and improvement from 211 papers submitted The papers are organized in topical sections on
