Entrepreneurial Genius The Power Of Passion:

Entrepreneurial Genius Gene N. Landrum, 2003-09 Professor Landrum begins with biographical overviews of a dozen of the most interesting and powerful entrepreneurs of recent vintage. He identifies their unique eccentricities and then shows the personality traits that they all have in common. These are the attributes that constitute the genius of the great entrepreneur. To enable you to compare your personality attributes with those of the great entrepreneurs who have achieved billionaire status, Professor Landrum has included in this book a self-assessment exercise. Book jacket *Empowerment : the Competitive Edge in Sports, Business & Life* Gene N. Landrum, 2006 In *Empowerment The Competitive Edge in Sports Business Life*, high-profile personality Dr. Gene Landrum presents in a self-help format the 13 winning behaviors modeled by the 13 greatest athletes of the modern era. Landrum's research into the lives of the great entrepreneurs and athletes, supported by a growing body of evidence, suggests that eminence, whether in business or sports, derives not from genetic superiority but from winning behaviors and learned emotional dispositions. With a delightful blend of gifted storytelling and intellectual scholarship, Dr. Landrum has created a book that melds the recent discoveries in psychology and brain research with the dramatic performances of the world's greatest athletes. Charismatic athletes such as Michael Jordan, Lance Armstrong, Martina Navratilova, and Tiger Woods are analyzed in psycho-biographical profiles that focus on the underlying motivations and behaviors of these preeminent personalities rather than on what they achieved. In this respect, and in its connection to the recent research in brain function and psychology, Dr. Landrum's work is unprecedented in the extant literature on athletes and athletic technique. Amazon.com *Paranoia & Power* Gene N. Landrum, 2007-11-01 A self-help work on the inhibiting inner fears that either motivate or debilitate. As a pundit once said, "Hesitate and you are lost." Why do most people hesitate? Fear. The fear of not being good enough or the fear that comes from thinking too much. We are afraid of those things we don't understand, but the true visionaries jump right into those fears and they magically disappear. Fear was the fuel of the passions of Elvis. In the case of director Steven Spielberg, he had a deep-seated fear of the dark. The only time he wasn't afraid was when in a theater where he escaped into the fantasy of make-believe. What did that have to do with his accumulating two billion dollars? Plenty. As he told the media when he was in his twenties, he would get sort of nauseous, stage fright, and his insecurities were the fuel for his stories. With examples ranging from Judy Garland to Bob Dylan, Madonna to Jack Nicholson, this book shows how fear can be the catalyst for ending up in the penthouse or the poorhouse, depending on how we deal with it. **Behind the Curtain of Power** Rune Olsø, 2021-05-19 Behind the Curtain of Power: How Karl Rove, David Axelrod, Roger Ailes, James Carville, Dick Morris, and Lee Atwater Won the Toughest Race in the World and Changed America. By Rune Olsø. We all know the names of the last US presidents, but who were the masterminds that catapulted them into the highest echelon of power? Go behind the scenes for an honest look at the way a handful of exceptional political operatives manipulated, cajoled, and maneuvered their way through the political battlefield of presidential elections. Syndrome--The Magic of Myth in The Pursuit of Power Gene N. Landrum,2005 The Positive Mental Moxie of Myth for Personal Growth Joseph Campbell defined a myth as a life shaping image a metaphor that creates a hero out of those who heed it Author Dr Gene Landrum takes Campbell s definition one step further by offering a variety of motivational techniques that will propel you to heroic success Dr Landrum describes the superman syndrome as a series of common behaviors that permit an otherwise average person to rise above the norm He points out that some of the world s most renowned visionaries Catherine the Great Walt Disney and Ian Fleming did not conform to tradition because they modeled their behavior on heroic ideals and mythical mentors Learn how to transform your life from ordinary to extraordinary by focusing on several key ideas Chasing money is entropic and the path to the poorhouse Happiness is a side effect of being never trying Romance only comes to those not trying to find romance Anxiety is a by product of unrealistic expectations Breakdown leads to breakthrough Being stupid is the pathway to being smart Do you have the Superman Syndrome Test yourself to find out
