**Data-Driven Decision Making in**

**Entrepreneurship** Nikki Blacksmith, Maureen E. McCusker, 2024-04-02 Since the beginning of the 21st century there has been an explosion in startup organizations Together these organizations have been valued at over 3 trillion In 2019 alone nearly 300 billion of venture capital was invested globally Global Startup Ecosystem Report 2020 Simultaneously an explosion in high volume and high velocity of big data is rapidly changing how organizations function Gone are the days when organizations can make decisions solely on intuition logic or experience Some have gone as far as to say that data is the most valuable currency and resource available to businesses and startups are no exception However startups do differ from their larger counterparts and corporations in three distinct ways 1 they tend to have fewer resources time and specialized training

to devote to data analytics 2 they are part of a unique entrepreneurial ecosystem with unique needs 3 scholarship and academic research on human capital data analytics in startups is lacking Existing entrepreneurship research is primarily conducted in business schools There needs to be more integration of industrial organizational psychology and entrepreneurship This book was designed to do just that to demonstrate how organizational psychology with a focus on human capital data and analytics can advance the science and practice of entrepreneurship This book is purposefully designed to address the unique idiosyncrasies of the science research and practice of startups and the entrepreneurial ecosystem Each chapter takes a science practice perspective highlighting a specific human capital management topic e g learning and development team effectiveness human capital due diligence and discusses how leveraging data can help enhance decision making The volume is grounded in sound theory and practice of organizational psychology entrepreneurship and management It is divided into three parts 1 human capital assessment and development for startups 2 understanding startup situations environments and support systems and 3 measuring startup level performance

**Entrepreneurship in Emerging Economies** Jerzy Cieřlik,2016-12-10 In this book the author investigates the role of entrepreneurship in the socio economic development of emerging economies highlighting its vital part in implementing development programs and policy initiatives In search of efficient ways to stimulate entrepreneurial activities Entrepreneurship in Emerging Economies reviews recent academic research and accumulated policy implementation experiences to identify measures and instruments which can be adopted within emerging countries institutional context Particular attention is given to three issues which have dominated the debate on the macroeconomic impact of entrepreneurship at the turn of the twenty first century job creation innovation and international trade and economic cooperation In the final chapter the author offers a holistic model of entrepreneurship policy to address the particular needs of emerging economies encompassing entrepreneurship policy favourable institutional environments and pragmatic principles for implementing selective policy measures Annals of Entrepreneurship Education and Pedagogy \_ 2014 Michael H. Morris,2014-10-31 A sizable gap exists between the ample demands for and growing supply of entrepreneurship education and our understanding of how to best approach the teaching and learning of entrepreneurship To help close this gap the United States Association for Entrepreneurship in Action Eric W. Liguori,Mark Tonelli,2021-01-29 This book offers an in depth examination of six exemplar student run ventures These ventures actual businesses that students enroll in as a course and run themselves are changing the ways in which students learn by offering valuable hands on experience Many universities around the US have some form of student run venture operating on campus but how learning is reinforced and integrated into the classroom varies widely as does the meaningfulness of the overall student experience The struggle is most universities operate these ventures as one offs disconnected from formal academic instruction and as a side project that never gets full faculty or student attention **The Entrepreneurial Shift** Robert R. Locke,Katja E. Schöne,2004-09-09 This

is a provocative and intelligent study of how high technology entrepreneurial developments have affected management education in the wider business context Responding to the growth of new technology businesses American business schools fostered entrepreneurship studies Not wishing to be left behind entrepreneurially in the Information Age France and Germany followed with their own innovative education programmes And The Czech Republic like other emerging economies has been caught up belatedly in this education ferment Original and containing new research data the book will appeal to academics students and practitioners

Entrepreneurship Education in Africa Alfred Mbeteh,Massimiliano M. Pellegrini,2022-08-01 Entrepreneurship Education in Africa breaks new ground in contextualizing modern entrepreneurship education in Africa with the authors presenting an in depth understanding of the unique competences in the region along with a related set of pedagogical approaches developing them further      **The Ethical Professor** Lorraine Eden,Kathy Lund Dean,Paul M Vaaler,2018-05-15 The purpose of The Ethical Professor is to provide a road map to some of the ethical dilemmas that doctoral students and newer faculty members are likely to face as they enter a career in academia the Academy Academic career paths appear to be quite standard transparent and achievable with dedicated and hard work Argued in this book however is that the road map to a successful academic career is not so easy There are ethical pitfalls along the way starting with entry into academia as a new PhD student These ethical dilemmas remain equally opaque as faculty progress in their careers The ethical pitfalls that plague each of the steps along the academic career path are often not visible to doctoral students and young faculty members nor are they well prepared to spot them Ethical issues are seldom discussed and little training is provided on how

to spot and handle these potential road blocks to a successful career in the academy Based on extant research and collective years of academic experience The Ethical Professor seeks to shorten the learning curve around common ethical pitfalls and issues by defining them sharing research and experiences about them and offering a discussion framework for continued learning and reflection This innovative new volume will be key reading for doctoral students and junior faculty members in social science departments in colleges and universities as well as managers undertaking an MBA Due to the increasing complexity of managing academic institutions more seasoned professors administrators and college deans and presidents will also benefit from the research presented here

*Ethics in Small and Medium Sized Enterprises* Laura Spence, Mollie Painter-Morland, 2010-10-01 This book is the first of its kind a global overview of extant research on ethics in small and medium sized enterprises While vast amounts of corporate money government policy and media time are directed at the social and ethical activities of large corporations small businesses don't generally attract the spotlight This is wildly inappropriate however since upward of 90% of private businesses are small or medium sized This book goes some way to helping us understand the social and ethical contribution of this majority organizational form The first section of the book is a global round up of research on ethics in small and medium sized enterprises from major regions of the world In the second section smaller scale research projects from a variety of countries present both empirical and theoretical advances in the area Anyone with an interest in ethics and small and medium sized enterprises should find this an inspiring book which paves the way for future research

**Business Ethics** Gael McDonald, 2015 Business Ethics introduces students to ethical issues and decision making in a variety of contemporary contexts The book addresses corporate social responsibility stakeholder management and sustainability It develops an awareness of the many ways in which ethical considerations can manifest in commercial domains thereby helping prepare students for their professional careers
