Essential Latin Vocabulary The 1425 Most Common Words Occurring In The Actual Writings Of Over 200 Latin Authors:

Essential Latin Vocabulary Mark Williams, 2013-02-28 This book is designed to help beginning and intermediate students master the vocabulary necessary to read real Latin with fluency and comprehension. It also serves as a resource for instructors and tutors. The text presents 1 425 words that allow a student to comprehend about 95 percent of all the vocabulary they will ever see in an actual Latin text. The terms found in the present book have been culled from statistical analyses of the works of more than two hundred authors in order to identify the core vocabulary. Were students to start out by learning the 25 most common words on this list an astonishing 29 percent of all the vocabulary ever needed would be at their command. If a student masters the 300 most frequent words in this list well over half of all the vocabulary necessary for fluent reading will be theirs. The goal of the book is to provide the student with the most efficient way to learn vocabulary. Chapters 1 and 2 in particular are designed for drill review and study. The first chapter draws together all words that share the same grammatical classification. For example all third declension neuter nouns are brought together in one place with their definitions. By listing the vocabulary in grammatical groups all the words that share a set of endings are assembled for the student vocabulary and endings thus reinforce each other. Furthermore each list of terms is broken down into groups of five words for ease in drawing up vocabulary lists to work with. Within the grammatical lists each part of speech is preceded by an account of how the terms within are distributed. A student thus quickly learns that while there are 413 verbs that need to be mastered well over one third of these 157 are found in the third conjugation while only about one per cent 21 will be found in the fourth conjugation. With such information independent students or instructors can prioritize their study and assignments more appropriately. In the second chapter large parts of the vocabulary with their attendant definitions are regrouped by topics. A student who wishes therefore to focus on nature human emotions or military issues will find such vocabulary conveniently grouped together. Chapter three lists the vocabulary terms from the most frequently occurring words to the least frequent. Students or instructors who wish to lean more heavily on the most or least frequently occurring terms within their drills and studies can thus consult this frequency list. After the frequency list the fourth chapter presents an alphabetical index of the terms. Two final chapters close the text. The first is a list of endings and paradigms for nouns adjectives and verbs. Complete paradigms and endings are given for review. The final chapter provides the student with an additional one hundred words that are uniquely common in the Latin of the Middle Ages. These one hundred words if added to the mix would give the student a Mediaeval vocabulary that would match the efficiency of the Classical vocabulary that is the main focus of the book. For the effort of learning an additional one hundred words another 1 000 years of Latin texts open up before the student. As a whole then this book offers the vocabulary that forms the core of one thousand seven hundred years of Latin literature. If the goal is to learn to read Latin with joy and ease then the vocabulary terms in this book are one

of the major keys to success By learning these terms a student's vocabulary should be ready to tackle the Latin of any era from the Classical period to the Renaissance

hope that by constant thumbing of the lexicon the student may gradually acquire the command of a certain vocabulary In fact
in many quarters any attempt to teach vocabulary itself has been frowned upon as a waste of mental energy But experience

in schools and Vergil s Aeneid books I VI Statistics are given of the number of times every word occurs and a selection of 2000
words has been made comprising with few exceptions the words of most frequent occurrence arranged so that they can be

taught at the rate of so many per year The total number of words in this list is 4650 Of these 849 occur in all three authors 368 are found in Caesar and Cicero only 38 5 in Caesar and Vergil 363 in Cicero and Vergil while 508 belong wholly to Caesar 546 to Cicero to Vergil 1347 words occur but once divided thus 261 in Caesar 329 in Cicero 757 in Vergil 691 words occur twice 97 in Caesar only 120 in Cicero 330 in Vergil the remainder divided between two authors 373 words occur three times 277 four times leaving 1954 words which occur five times or more The total number of word occurrences is of which the words occurring less than five times 49 56 make up less than seven per cent About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
