Enhancing Teaching and Learning With Socratic Educational Strategies: Emerging Research and Opportunities Giuseffi, Frank G., 2022-02-04 Traditionally understood as an ancient teaching method conceived by the philosopher Socrates scholars in education have boldly explored the definitions philosophical underpinnings assumptions and uses of Socratic dialogue in various learning situations and educational settings Despite its ancient origins the Socratic Method has an impact on contemporary leadership critical thinking skills e learning adult education and social emotional learning Enhancing Teaching and Learning With Socratic Educational Strategies Emerging Research and Opportunities presents scholarly work philosophical investigations educational claims and the latest empirical research on the process and outcome of the Socratic Method in educational contexts It delves deeply into the instructional strategy uncovering its practical impact in educational contexts and its philosophical and societal consequences in the modern world Covering topics such as female voice maieutic instruction and teacher preparation this book is an essential resource for philosophers educational administration educators researchers pre service teachers academicians and government programs A Multidimensional Perspective on Corruption in Africa Sunday Bobai Agang, Chris Jones, Pregala Pillay, 2019-11-15 This book brings together a number of African anti corruption policy makers from across different academic disciplines religions and generations It engages in processes of economic social and political transformation to eliminate poverty and inequity through individual and institutional means Through historical and contemporary perspectives on authority structures institutionalised myths beliefs and rituals of authority the volume explores how to correctly mobilise and influence citizens behaviour and attitudes towards accountability transparency and probity all of which are key to strengthening national integrity systems all over Africa and are needed for equity and sustainable development The book strongly advocates that corruption is everybody's business All the chapters in some way commemorate the inaugural anti corruption year of the African Union in 2018 by interrogating how mechanisms to eliminate inequity and poverty can be built in Africa *The Informal Economy* Ioana Horodnic, Peter Rodgers, Colin Williams, Legha Momtazian, 2017-09-22 During much of the twentieth century informal employment and entrepreneurship was commonly depicted as a residue from a previous era Its continuing presence was seen to be a sign of backwardness whilst the formal economy represented progress In recent decades however numerous studies have revealed not only that informal employment is extensive and persistent but also that it is growing relative to formal employment in many populations Whilst in the developing world the informal economy is often found to be the mainstream economy nevertheless in the developed world too informality is currently still estimated to account for notable per cent of GDP The Informal

Economy Exploring Drivers and Practices intends to engage with these issues providing a much need contextualised approach to explain the persistence and growth of forms of informal economic practices and entrepreneurial activities in the twenty first century Using a diverse range of empirical case studies from Europe Africa North Africa and Asia this book unpacks the different varieties of forms of informal work and entrepreneurship and provides a critical analysis of existing theorisations used to explain such phenomena This book s aim is to examine the nature and persistence of informal work and entrepreneurship across a variety of empirical settings from within the developed world the developing world and within transformation economies within post socialist spaces Given its worldwide interdisciplinary and multidisciplinary approach and recent interest in the informal economies by a number of disciplines and organisations this book will be of vital reading to those operating in the fields of Economics political economy and management Human and economic geography and Economic anthropology and sociology as well as development studies

Cultural Understanding of Soils Nikola Patzel,Sabine Grunwald,Eric C. Brevik,Christian Feller,2023-09-22 Cultural understandings of soil are diverse and often ambiguous Cultural framing of soils is common worldwide and is highly consequential The implications of what place the earth has in people s world view and everyday life can be in line with or in conflict with natural conditions with scientific views or with agricultural practices The main assumption underlying this work is that soil is inescapably perceived in a cultural context by any human This gives emergence to different significant webs of meaning influenced by religious spiritual or secular myths and by a wide range of beliefs values and ideas that people hold in all societies These patterns and their dynamics inform the human soil relationship and how soils are cared for protected or degraded Therefore there is need to deal inter culturally with different sources and types of knowledge and experience regarding soil a need to cultivate soil awareness and situationally appropriate care through inter and intra cultural dialogues and learning This project focuses on the human and intangible dimensions of soil To serve this aim the International Union of Soil Sciences IUSS founded a working group on Cultural Patterns of Soil Understanding that has resulted in this book which presents studies from almost all continents written by soil scientists and experts from other disciplines A major objective of this project is to promote intercultural literacy that gives readers the opportunity to appreciate soil across disciplinary and cultural boundaries in an increasingly globalized world

Conceptual Economics: The Liaising Role In Politics And Social Sciences Kui-wai Li,2021-01-18 Given that there is no shortage of economic theories while economic problems are growing periodically Conceptual Economics boldly attempts to initiate a new approach by employing conceptual and intuitive tools to examine the intra relationship between microeconomics and macroeconomics as well as the inter relationship between economic analysis and other social science studies especially the relationship with political science The few intuitive ideas include the separation between ex ante situations and ex post outcomes the difference between endowment differences and unequal outcomes and the role of economics as a vehicle in the delivery of numerous social and political activities The discussion

extends to cover an analysis on human values and concludes with a recommendation on the functionality of civic capitalism. With intuition and analytical reasoning within economics and with other social sciences, Conceptual Economics can become a new branch in economic study where scholars, analysts, and intellectuals could think outside the box by liaising a wider economic perspective and/or amalgamating non-economic aspects into their analysis. This shall provide a new dimension to solving human economic problems and possibly areas of intellectuality. *Creative Morality* Don MacNiven, 2023-04-21

Creative Morality is a philosophical study of moral dilemmas. Western moral thought has relied on two basic ethical perspectives: Utilitarianism and Kantianism to resolve dilemmas. MacNiven argues that no real progress can be made with modern moral problems unless these traditions are coherently synthesised. The book deals with diverse topics such as academic honesty, medical confidentiality, terrorism, and euthanasia, and the hypothetical dilemmas used are based on real-life situations so that theory might be tested against reality. Yet the solutions are not definitive because, as MacNiven demonstrates, creativity is an intrinsic characteristic of moral thought. *Christianity: A Brief Survey* Michael D. Robinson, 2022-05-13

Christianity is a way of life centered on the person, life, teaching, death, and resurrection of Jesus the Christ. As a religious way of life, Christianity is multifaceted, involving numerous beliefs and practices. This book explores many of the varied facets of the Christian faith, including its foundations in the story of Israel, the person of Jesus, the early Christian community, and the sacred text called the Bible. In turn, Robinson's book examines Christianity's core doctrines, ethical norms, and worship practices, rounding out the study by considering four key contemporary challenges faced by Christian believers: namely, the problem of evil, the relationship of Christianity to other religions and to science, and the role of women in church and society. Among the strengths of this book is that it addresses these multiple features of Christianity in a single volume; it is aptly titled *Christianity: A Brief Survey*. *The Fourth Civilization, Volume Two* Rick Sutcliffe, 2024-12-05

The Fourth Civilization: Technology, Society, and Ethics stimulates its readers to consider the ethical and societal consequences of technologies they already use and others that will become ubiquitous. Its discussions and provocative questions integrate history, science, technology, and ethical and religious beliefs, examining the past and present and preparing for the future. Social changes always follow the adoption of new technologies. The plow drove the transition from hunter-gatherer to agrarian society, and the steam engine began the Industrial Revolution. Computing technology now ushers in an Information Age. What does ethical decision-making look like in a time of rapid transition and beyond? What will society be like once things stabilize in a Fourth Civilization, if indeed they will? How will robots, artificial intelligence, factory automation, and self-driving vehicles affect daily life and work? Discussions about ideas were not common in an era of specialist technicians. They are becoming necessary and routine in a fast-changing and more broadly integrative world, and this book attempts to practice what it preaches. Let it inform, provoke, and become a part of New Renaissance literature, inspiring its readers to become ethically informed New Renaissance people in the Fourth Civilization information age. *Covid-19 and the Dialectics of*

Global Pandemics in Africa Munyaradzi Mawere, Bernard Chazovachii, 2021-10-01 The prevalence of global pandemics has been timeless and universal In 1918 the Spanish Flu grounded Spain and her neighbours In 1997 2014 and 2020 the Ebola virus wreaked havoc in West Africa in the same manner that polio had ravaged the globe Since 2019 the Coronavirus has forced most economies onto a downward spiral Despite concerted global attempts at observing World Health Organization guidelines the Coronavirus has been changing peoples lives forcing most economies onto their knees endangering lives and livelihoods making a mockery of global medicine and causing the widespread despair and helplessness that has come to be known as the new normal Unlike the other pandemics the mayhem complexities and dialectics caused by Covid 19 have been matchless requiring a systematic study and necessitating a volume like this one The volume s 16 well researched chapters argue that despite Covid 19 s enormous lessons and predictions about even greater future pandemics humanity can ill afford to relent in its determination to conquer the pandemic in the same way that human resolve has defeated past pandemic As such the volume provides hope and direction to the global community on how best to deal with Covid 19 and pandemics of similar or even higher magnitude in the future

Biomedical Ethics (Volume 4 Part 2) Shiva Nath Prasad, Avinash Kumar Srivastava, Kumkum Sinha, 2018-01-01 The present book seeks and undertakes very clearly to deliberate and explain primarily what Bio Ethics is and what are the various dimensions of Bio Ethical discipline both as philosophy and science Some of the most glaringly contro versial Bio Ethical issues hover round it are like Euthanasia Abortion Cloning Female Foeticide Surrogacy Doctor Patient Relationship Bio technology and Ageing in its East West Perspectives which raise a storm over a cup of tea some such unwieldy questions not only of ethics morality but also pose questions of individual and social morality responsibility accountability liability liberty etc about the kind quality and sanctity of life one wishes to live that cannot be forcibly silenced arbitrarily without proper logic of conviction consistency transparency and openness which if not answered would result into social disquiet disequilibrium and anarchy

Epistemologies and Ethics in Adult Education and Lifelong Learning Richard G. Bagnall, Steven Hodge, 2022-02-17 This book presents and advocates for a framework of competing epistemologies and conceptions of ethics

as a way of understanding modernist lifelong learning These epistemologies are grounded in a recognition of the normative nature of knowledge that informs lifelong learning each being framed by a different account of the sort of knowledge that is most valued and therefore foregrounded in lifelong learning policy provision and engagement informed by the epistemology Each epistemology is also characterised by its constituent conception of ethics Four such epistemologies and conceptions of ethics are here recognised as having been important in the lifelong learning movement to date disciplinary developmental emancipatory and design The authors argue that assumptions about knowledge and moral positions constitute a powerful but not well understood feature of such arguments awareness of these assumptions and positions could serve to powerfully advance the overall understanding of what is at stake in lifelong learning and adult education at all levels Bioethics in Canada, Third Edition Carol Collier, Rachel Haliburton, 2021-03-25 Now in its third edition Bioethics in Canada A Philosophical Introduction offers a comprehensive overview of the philosophical historical and medical concepts shaping contemporary debates on biomedical issues The text opens with an introduction to moral theory and bioethical principles followed by application of these theories and principles to real world ethical conflicts involving abortion distributive justice genetics reproductive technology and other vital topics A landmark case opens each chapter illuminating the many issues involved in these debates as well as the philosophical assumptions that shape them Thoroughly updated to reflect recent political medical and cultural changes this third edition features new sections on Medical Assistance in Dying MAiD the moral philosophy of liberalism in bioethics the Mad movement CRISPR and gene editing and expanded content on mental health rural and remote communities and codes of conduct and codes of ethics Accessibly written with newly added case studies in the health care workplace this text is an insightful resource for courses in the disciplines of philosophy health studies medicine and nursing providing a strong ethical foundation in an ever changing field *Ontologized Ethics* Elvis Imafidon, John Ayotunde Isola Bewaji, 2013-11-21 *Ontologized Ethics* New Essays in African Meta Ethics examines an often neglected meta ethical issue in African philosophical discourse the extent to which one's orientation of being or idea of what is as an individual or as a group of persons does or should determine one's concept of the good To what extent is ethics or our idea of what is permissible or impermissible grounded on ideas of what fundamentally exists or what it means to be The aim of this collection of essays with emphasis on an African philosophical context will be to establish more firmly and vigorously whether there is an intrinsic link between ontology and morality that is whether and if so how the proper norms for human actions can be explained and validated once we make lucid ideas about metaphysical topics such as human nature community relationality and spirituality The essays included in this volume focus rigorously on ethical issues such as communalism adultery environmental ethics and bioethics with the primary aim of showing whether the link between such issues and metaphysical beliefs is trivial or intrinsic
