Penguin English Library Evelina Fanny Burney, Frances Burney, 2012-06-26 This is the story of a young woman's education in the ways of the world in 18th century England. Commentary notes and a reading group guide is included.

Frances Burney's "Evelina" Svetlana Kochkina, 2023-04-12 *Evelina* the first novel by Frances Burney published in 1778 enjoys lasting popularity among the reading public. Tracing its publication history through 174 editions, adaptations and reprints, many of them newly discovered and identified, this book demonstrates how the novel's material embodiment in the form of the printed book has been reshaped by its publishers recasting its content for new generations of readers. Four main chapters vividly describe how during 240 years *Evelina* a popular novel of manners metamorphosed without any significant alterations to its text into a Regency rambling text, a romantic novel for *lecteurs d'licats*, a cheap imprint for circulating libraries, a yellow back, a book with a certain aesthetic cachet, a Christmas gift book, finally becoming an integral part of the established literary canon in annotated scholarly editions. This book also focuses on the remodelling and transformation of the paratext in this novel written by a woman author by the heavily male dominated publishing industry. Shorter *Entr'acte* sections discuss and describe alterations in the forms of Burney's name and the title of her work, the omission and renaming of her authorial prefaces and the redeployment of the publisher's prefatorial apparatus to support particular editions throughout almost two and a half centuries of the novel's existence. Illustrated with reproductions of covers, frontispieces and title pages, the book also provides an illuminating insight into the role of *Evelina*'s visual representation in its history as a marketable commodity, highlighting the existence of editions targeting various segments of the book market from the upper middle class to mass readership. The first comprehensive and fully updated bibliography of English and translated editions, adaptations and reprints of *Evelina* published in 13 languages and scripts appears in an appendix.

A Short History of English Literature Harry Blamires, 2020-09-23 This book guides through some six centuries of English literature beginning with Chaucer's time and goes on to analyse the background, interconnections and major achievements of individual writers in each period. It is useful to the student of English literature and to the general reader.

Emma Jane Austen, 2012-07-26 With an essay by David Lodge, *I never have been in love, it is not my way or my nature, and I do not think I ever shall*. Beautiful, clever, rich and single, Emma Woodhouse is perfectly content with her life and sees no need for either love or marriage. Nothing, however, delights her more than interfering in the romantic lives of others. But when she ignores the warnings of her good friend Mr Knightley and attempts to arrange a suitable match for her protégée Harriet Smith, her carefully laid plans soon unravel and have consequences that she never expected. With its imperfect but charming heroine and its witty and subtle exploration of relationships, *Emma* is often seen as Jane Austen's most flawless work. The Penguin English Library, 100 paperbacks of the best fiction written in English from the eighteenth century and the very first novels to the beginning of the First World War.

Fiction Monika Fludernik, 2003-12-16 Monika Fludernik presents a detailed analysis of free indirect discourse as it relates to narrative theory and the crucial problematic of how speech and thought are represented in fiction Building on the insights of Ann Banfield's *Unspeakable Sentences* Fludernik radically extends Banfield's model to accommodate evidence from conversational narrative non-fictional prose and literary works from Chaucer to the present Fludernik's model subsumes earlier insights into the forms and functions of quotation and aligns them with discourse strategies observable in the oral language Drawing on a vast range of literature she provides an invaluable resource for researchers in the field and introduces English readers to extensive work on the subject in German as well as comparing the free indirect discourse features of German French and English This study effectively repositions the whole area between literature and linguistics opening up a new set of questions in narrative theory

Evelina Frances Burney, 2002-04-18 Lord Orville did me the honour to hand me to the coach talking all the way of the honour I had done him O these fashionable people Frances Burney's first and most enduringly popular novel is a vivid satirical and seductive account of the pleasures and dangers of fashionable life in late eighteenth century London As she describes her heroine's entry into society womanhood and inevitably love Burney exposes the vulnerability of female innocence in an image conscious and often cruel world where social snobbery and sexual aggression are played out in the public arenas of pleasure gardens theatre visits and balls But Evelina's innocence also makes her a shrewd commentator on the excesses and absurdities of manners and social ambitions as well as attracting the attention of the eminently eligible Lord Orville Evelina comic and shrewd is at once a guide to fashionable London a satirical attack on the new consumerism an investigation of women's position in the late eighteenth century and a love story The new introduction and full notes to this edition help make this richness all the more readily available to a modern reader

The Complete Tradesman Nancy Cox, 2016-12-05 *The Complete Tradesman* redresses the relative paucity of studies on the history of retailing before 1800 Based upon extensive research into diverse trade sources Cox takes issue with the surprisingly resilient stereotype of the dull and out of date shopkeeper in the early modern period showing that the retailing sector was well adapted to the social and economic needs of the day and quick to exploit new opportunities Chapters cover not only distribution shop design customer relations and networks between tradesmen but also attitudes to retailing official controls and the response to novelty By throwing light on subjects hitherto overlooked and challenging existing whiggish preoccupations with progress towards modern retailing systems this study signals a new approach to the history of retailing The focus is placed on assessing how

far tradesmen especially shopkeepers satisfied and stimulated contemporary desires for consumer goods *Adel und Bürgertum im englischen Roman des 18. Jahrhunderts* Detlev Janik,1987 *The Exalted Heroine and the Triumph of Order* K. G. Hall,1993 The first part of this study provides background information to the eighteenth century English novel and includes discussion of the relationship between literature and ideology literary realism the fiction reading purchasing public and authorial intention and technique The second focuses on seven diverse yet representative novels of the period paying particular attention to the presentation of class women and religion in the works examined Whilst no grand theory is proposed the writer seeks to utilise an approach derived from sociological and Marxist thought and to employ it as a practical mode of criticism Although some familiarity with the novels is assumed in the individual analyses of each work the first part of the study should be of interest to anyone curious about eighteenth century fiction and the more general issues considered
