

# Example COSHH risk assessment - Warehouse

Important reminder:-

This example risk assessment shows the kind of approach a small business might take. Use it as a guide to think through some of the hazards in your business and the steps you need to take to control the risks. Please note that it is not a generic risk assessment that you can just put your company name on and adopt wholesale without any thought. This would not satisfy the law - and would not be effective in protecting people.

Every business is different - you need to think through the hazards and controls required in your business for yourself.

Company name: Wholesale warehouse Department:		Date assessment made: Date discussed with employees:				
Step 1 Substance	Step 2	Step 3		Step 4 Action		
		What's the hazard?	What harm, and who?	What are you doing already?	What improvements do you need?	Who   When   Check
Battery acid for electrical picker trucks - skin contact and breathing in mist	Burns from acid, lung irritation from mist					
	Maintenance worker - liquid	Rubber apron, gauntlets, eye protection for acid handling	Spill containment and clean-up kit			
	Night-watchman - mist from charging batteries overnight	restrict access	Roof louvers open during & 30 minutes after charging			
Breathing in fog from pest control	Unknown - contractor uses
