Lösungsorientiertes Coaching in der Praxis Bill O'Connell, Helen Williams, Stephen Palmer, 2014-06-26 Lösungsorientierte Skills für Coaches Dieser Band bietet einen Überblick über Techniken und Skills des lösungsorientierten Coachings Die Autoren führen Erkenntnisse aus der Literatur und eigene Erfahrungen zusammen und reflektieren, auf welche Rolle Ethik im Coaching spielt Besonderheiten des Gruppen und Team Coachings oder die Beziehung zwischen Coach und Coachee Fallbeispiele Arbeitsblätter Praxistipps und Fragen zur vertiefenden Reflexion und Diskussion führen direkt in die Praxis Die vorgestellten Methoden lassen sich leicht umsetzen und sind für fast alle Coaching Settings geeignet Das Buch wendet sich an erfahrene Coaches und an Führungskräfte, die eine bessere Coaching Kultur in ihrem Unternehmen etablieren wollen aber auch an Coaches, die noch ganz am Anfang ihres Weges stehen *Introduction to Strategic Public Relations* Janis T. Page, Lawrence J. Parnell, 2017-11-30 Winner of the 2019 Textbook Academic Authors Association's The Most Promising New Textbook Award How can public relations play a more active role in the betterment of society Introduction to Strategic Public Relations Digital Global and Socially Responsible Communication prepares you for success in today's fast-changing PR environment Recognizing that developments in technology, business, and culture require a fresh approach Janis T. Page and Lawrence Parnell have written a practical introductory text that aligns these shifts with the body of knowledge from which the discipline of public relations was built Because the practice of public relations is rooted in credibility, the authors believe that you must become ethical and socially responsible communicators more concerned with building trust and respect with diverse communities than with creating throwaway content The authors balance this approach with a focus on communication theory, history, process, and practice and on understanding how these apply to strategic public relations planning as well as on learning how to create a believable and persuasive message Key Features Chapter opening Scenarios capture your attention by discussing current PR challenges such as the Wells Fargo cross-selling VW emissions cover-up and P&G's Like a Girl campaign and thus frame the chapter content and encourage active reading At the end of the chapter you explore various aspects of socially responsible communication to solve the PR challenge Socially Responsible Case Studies in each chapter illustrate the key responsibilities of a modern public relations professional such as media relations, crisis communications, employee communications, applied communications, research, and corporate and government-specific communications Each case features problem-solving questions to encourage critical thinking Social Responsibility in Action boxes feature short, specific social responsibility cases such as Universal's NoFoodWasted, Nespresso in South Sudan, and Merck's collaboration with AIDS activists to highlight best practices and effective tactics showing the link between sound public relations strategy and meaningful social responsibility programs Insight boxes spark classroom discussion on particularly important or unique topics in each chapter Personality Profile boxes will inspire you with stories from PR veterans and rising stars such as the U.S. CEO of Burson Marsteller, the Chief Communication Officer of the United Nations Foundation, and the Executive VP at HavasPR **Categoricity** John T. Baldwin, 2009 Modern model theory began with

Morley's categoricity theorem A countable first order theory that has a unique up to isomorphism model in one uncountable cardinal is categorical in cardinality if and only if the same holds in all uncountable cardinals Over the last 35 years Shelah made great strides in extending this result to infinitary logic where the basic tool of compactness fails He invented the notion of an Abstract Elementary Class to give a unifying semantic account of theories in first order infinitary logic and with some generalized quantifiers Zilber developed similar techniques of infinitary model theory to study complex exponentiation This book provides the first unified and systematic exposition of this work The many examples stretch from pure model theory to module theory and covers of Abelian varieties Assuming only a first course in model theory the book expounds eventual categoricity results for classes with amalgamation and categoricity in excellent classes Such crucial tools as Ehrenfeucht Mostowski models Galois types tameness omitting types theorems multi dimensional amalgamation atomic types good sets weak diamonds and excellent classes are developed completely and methodically The occasional reliance on extensions of basic set theory is clearly laid out The book concludes with a set of open problems Book Jacket
