systematischen Überblick über das Phänomen extremer sozialer Rückzug junger Menschen das in Japan unter dem Begriff Hikikomori bekannt ist Dieser Begriff bezeichnet die langfristige Selbstisolation junger Menschen vor der Gesellschaft ohne dass vorrangig eine psychische Erkrankung vorliegt Die Person im sozialen Rückzug wird zumeist allerdings ohne einen direkten Kontakt durch ihre Familie versorgt Das Buchprojekt nähert sich dem Thema umfassend aus einer interdisziplinären Sicht Dabei geraten nicht nur das Individuum selbst sondern das gesamte Familiensystem sowie die es umgebenden kulturellen und gesellschaftlichen Bedingungen in den Blick Vor dem Hintergrund einiger Fallbeispiele wird diskutiert ob der Rückzug von jungen Menschen aus der Gesellschaft auch in Deutschland sinnvoll mit dem Phänomen Hikikomori beschrieben werden kann Denn während in Japan seit den 1990 Jahren auch auf staatlicher Ebene vielfältige unterstützende Präventionen und Interventionsformen entwickelt wurden fallen in Deutschland junge Menschen im extremen sozialen Rückzug und ihre Angehörigen bislang durch fast alle Raster

### **The Aesthetic Politics of Far-right Environmentalism** Imogen

Richards, 2025-08-31 This book offers a groundbreaking exploration of the complex relationships between aesthetics politics and environmental concerns within far right movements Drawing on critical theory and insights from Walter Benjamin Jacques Rancière and others it examines how both institutional far right political parties and extra institutional extremist actors manipulate environmental narratives to advance their distinct political agendas Its unique approach features a comparative analysis of far right individuals and organisations investigating how they use image media to promote ethnonationalist and authoritarian responses to environmental degradation including the adverse effects of climate change Spanning recent historical and contemporary contexts the book provides a nuanced account of how eco fascist and other far right political ecologies are embedded within broader far right ideologies It critically analyses various dimensions of this alignment including the romanticisation of nature as national identity the instrumentalisation of ecological crises to justify authoritarian anti immigration and other forms of social control and the use of conservation rhetoric as a facade for nativist policies It offers a broad overview of how images and other visual media are used for propaganda This book will be of interest to policymakers scholars activists and practitioners

### Global Heating and the Australian Far Right Imogen

Richards, Gearóid Brinn, Callum Jones, 2023-12-01 Global Heating and the Australian Far Right examines the environmental politics of far right actors and movements in Australia exploring their broader political context and responses to climate change The book traces the development of far right pseudo environmentalism and territorial politics from colonial genocide and Australian nationalism to extreme right political violence Through a critical analysis of news and social media it reveals how denialist and resignatory attitudes towards climate change operate alongside extreme right accelerationism in a wider Australian political context characterised by reactionary fossil fuel politics and neoliberal New Right climate change agendas The authors scrutinise the manipulation of environmental politics by contemporary Australian far and extreme right actors in cross national online media They also assess the political ideological context of the contemporary far right addressing

intergovernmental approaches to security threats connected to the far right and climate change and the emergence of radical environmentalist traditions in New Catastrophism literature The conclusion synthesises key insights analysing the mainstreaming of ethnonationalist and authoritarian responses to global heating and potential future trajectories of far right movements exploiting the climate crisis It also emphasises the necessity for radical political alternatives to counter the far right s exploitation of climate change This book will be of interest to researchers of climate change the far right neoliberal capitalism extremism and Australian politics *Challenging McWorld* Tony Clarke, Canadian Centre for Policy Alternatives, Sarah Dopp, 2005

**Teaching Design** Meredith Davis, 2017-07-11 An Expertly Written Guidebook to Teaching Design at All Levels Teaching Design provides a practical foundation for teaching about and through design The exploding interest in design and design thinking calls for qualified faculty members who are well prepared for a variety of institutional settings and content areas While designers know their disciplines they frequently lack experience in constructing responsive curricula and pedagogies for rapidly evolving professions And while K 12 educators are trained for the classroom their ability to transform teaching and learning through design is limited by a shortfall in professional literature Davis s extensive experience in education offers a detailed path for the development of curricula The book addresses writing objectives and learning outcomes that succeed in the counting and measuring culture of institutions but also meet the demands of a twenty first century education An inventory of pedagogical strategies suggests approaches to learning that serve both college professors and K 12 teachers who want to actively engage students in critical and creative thinking Sections on assessment make the case for performance based activities that provide credible evidence of student learning Davis also discusses the nature of contemporary problems and teaching strategies that are well matched to growing complexity rapid technological change and increased demand for interdisciplinary engagement Examples in Teaching Design span the design disciplines and draw on Davis s experience in teaching seminars for college faculty graduate courses for design students seeking academic careers and workshops for K 12 teachers converting their classrooms into centers for innovation
