The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance Dieter Heinzig, 2015-06-18 Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China's relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions

Cheung, 2012-10-31 China's combination of authoritarian rule and a market oriented economy has proven simultaneously appealing and a source of domestic discontent This essay collection balances policy analysis with detailed investigation of escalating popular unrest to anticipate the future of Chinese governance society *Red Dragon Rising* Edward Timperlake, William C. Triplett, II, 2002-03-27 Annotation This book illuminates the Chinese People's Liberation Army's activities and the threat they pose to America **The Rise of Communist China** Schools Council (Great Britain). History 13-16 Project, 1977 **Translations on Communist China** United States. Joint Publications Research Service, 1966 *China's rise and Japan's Malaysia policy* (UM Press) Kazuyuki Katayama, 2013-01-01 China emerges as a rising power Japan seems to be declining It is the first time in 150 years since the Opium War and First Sino Japanese War in the 19th century that Japan faces a strong China Japan enjoyed a leading role in Asia for the last century but is now required to respond to China's rising influence correctly and wisely by mobilizing its total powers and attractiveness This book analyzes Japan's past and current status vis vis China's in Malaysia The book compares influences of Japan and China as comprehensively as possible from multi dimensions including political security economic cultural and other soft power aspects It finally recommends a restructuring of Japan's foreign policy towards Malaysia in order to create a solid platform for future Japan Malaysia relations while China's emergence is one of the greatest common diplomatic challenges in our times *The Rise of Communist China* Great Britain. Schools Council. History 13-16 Project, Schools Council History 13-16 Project Staff, 1979 *Frontier Passages* Xiaoyuan Liu, 2004 In this pathbreaking book Xiaoyuan Liu establishes the ways in which the history of the Chinese Communist Party was from the Yan'an period onward intertwined with the ethnopolitics of the Chinese periphery As a Han dominated party the CCP had to adapt to an inhospitable political environment particularly among the Hui Muslims of northwest China and the Mongols of Inner Mongolia Based on a careful examination of CCP and Soviet Comintern documents only recently available Liu's study shows why the CCP found itself unable to follow the Russian Bolshevik precedent by inciting separatism among the non Han peoples as a stratagem for gaining national power Rather than swallowing Marxist Leninist dogma on the nationalities question the CCP took a position closer to that of the Kuomintang stressing the inclusiveness of the Han dominated Chinese nation Zhonghua Minzu **The Global Rise of China and Asia** Abdul Razak Baginda, 2022-02-08 This book posits an alternative narrative to China's rise by focusing on its impact on Asia China's rapid rise as a multidimensional power is felt in all corners of the world and poses a direct challenge to the supremacy of the United States which has held the status of a primary superpower ever since the end of the Cold War For the most part Asian countries want to avoid being dragged into this great power rivalry preferring to adopt a more balanced and pragmatic approach While a recognition of China's greatness does not necessarily place states in a subservient position the author argues that the most prudent approach for Asian nations is to

avoid being caught in the middle of the US China rivalry as this allows them to derive benefits from both sides
