Mathematics, 2011 *Rising Star, Setting Sun* John T Shaw, 2018-05-01 After winning the presidency by a razor thin victory on November 8, 1960 over Richard Nixon, Dwight D. Eisenhower's former vice president John F. Kennedy became the thirty fifth president of the United States. But beneath the stately veneers of both Ike and JFK there was a complex and consequential rivalry. In *Rising Star Setting Sun* John T Shaw focuses on the intense ten week transition between JFK's electoral victory and his inauguration on January 20, 1961. In just over two months America would transition into a new age and nowhere was it more marked than in the generational and personal difference between these two men and their dueling visions for the country they led. The former general espoused frugality, prudence and stewardship. The young political wunderkind embodied dramatic themes and sweeping social change. Extensively researched and eloquently written, Shaw paints a vivid picture of what Time called a turning point in the twentieth century as Americans today find themselves poised on the cusp of another watershed moment in our nation's

Vietnam: Asia's Rising Star Brook Taylor, Sam Korsmoe, 2023-10-15 The drivers behind the world's most exciting growth story. For more than 25 years Vietnam has been one of the most dynamic countries in the world in terms of GDP growth, trade, investment and other business metrics. The key question is whether or not the country can continue this growth for another 25 years. If it can, Vietnam will become a high income country like South Korea and Taiwan, the original Tiger Economies of Asia. Engaging in conversations about Vietnam's future is challenging. Locals are often too focused on the present while foreigners are caught up in legacy and political issues of the past. Many observers also focus on the short term, a specific economic metric or inevitably Vietnam's political system without considering the big picture or recognizing long term trends. The authors researched and analyzed a broad range of drivers to assess a possible future for Vietnam and Vietnam. Asia's Rising Star is the result of these efforts. What Others Are Saying Vietnam. Asia's Rising Star should be read by anyone with an interest in Vietnam and anyone else with an interest in the future of Asia. Carlyle A. Thayer, professor emeritus, University of New South Wales, Canberra.
