**The Politics of the Dreamscape** Seth Rogoff, 2021-08-25 This book traces the intersection of dreams and power in order to analyze the complex ways representations of dreams and paradigms of dream interpretation reinforce and challenge authoritarian hierarchical structures The book puts forward the concept of the dreamscape as a pre representational space that contains anarchistic attributes including its instability or chaotic nature and the lack of a stable or core selfhood and identity in its subjects The book situates this concept of the dreamscape through an analysis of the Daoist notions of the transformation of things and hundun chaos and the biblical concept of tehom the deep Using this conceptual framework this book analyzes paradigmatic moments of dream interpretation along a spectrum from radical anarchist assertions of the primal dreamscape to authoritarian dream texts that seek to reify identity define and establish hierarchy and support coercive relationships between unequal subjects The book's key figures include William Blake Robert Frost Jacob and Joseph from Genesis Sigmund Freud Carl Jung Jean Rhys Franz Kafka and the neurobiologist J Allan Hobson **Toward Robert**

**Frost** Judith Oster, 1994-02-01 Every poem Robert Frost declared is an epitome of the great predicament a figure of the will braving alien entanglements This study considers what Frost meant by those entanglements how he braved them in his poetry and how he invited his readers to do the same In the process it contributes significantly to a new critical awareness of Frost as a complex artist who anticipated postmodernism a poet who invoked literary traditions and conventions frequently to set himself in tension with them Using the insights of reader response theory Judith Oster explains how Frost appeals to readers with his apparent accessibility and then because of the openness of his poetry's possibilities engages them in the process of constructing meaning Frost's poems she demonstrates teach the reader how they should be read at the same time they resist closure and definitive reading The reader's acts of encountering and constructing the poems parallel Frost's own encounters and acts of construction Commenting at length on a number of individual poems Oster ranges in her discussion from the ways in which the poet dramatizes the inadequacy of the self alone to the manner in which he reads the Book of Genesis or the writing of Emerson Oster illuminates finally the central conflict in Frost his need to be read well against his fear of being read his need to share his creation against his fear of its appropriation by others **The Robert Frost**

**Encyclopedia** Nancy L. Tuten, John Zubizarreta, 2000-12-30 Often thought of as the quintessential poet of New England Robert Frost is one of the most widely read American poets of the 20th century He was a master of poetic form and imagery his works seemed to capture the spirit of America and he became so emblematic of his country that he read his work at

President Kennedy's inauguration and traveled to Israel, Greece, and the Soviet Union as an emissary of the U.S. State Department. While many readers think of him as the personification of New England, he was born in San Francisco, published his first book of poetry in England, matured as a poet while abroad, taught for several years at the University of Michigan, and spent many of his winters in Florida. This reference helps illuminate the hidden complexities of his life and work. Included in this volume are hundreds of alphabetically arranged entries on Frost's life and writings. Each of his collected poems is treated in a separate entry, and the book additionally includes entries on such topics as his public speeches, various colleges and universities with which he was associated, the honors that he won, his biographers, films about him, poets and others whom he knew, and similar items. Each entry is written by an expert contributor and closes with a brief bibliography. The volume also provides a chronology and concludes with a general bibliography of major studies.

The Poetry of Robert Frost and William Carlos Williams Harihar Rath, 2003. This book fulfills the difficult task of quickening and elucidating, fortifying and enlarging the poetry of two important poets of our time, Robert Frost and William Carlos Williams. It puts their creative act under scrutiny by the common parameter of a critical canon, aiming to place them as poets at a vantage point where the idea of man speaking out on behalf of man can find its true and free expression. Written in a lucid style and with a content that remain a landmark in American studies, by an Indian academic, the book does also privilege a deeper understanding of American poetry in general while problematizing its inherent opposition between the egocentric as against the theocentric, man without history as against history without man, the antinomian as against the orthodox, personality as against culture, and the adamic as against the mythic.

*Bloom's how to Write about Robert Frost* Michael Robert Little, 2010. Known for his poetic transformation of New England and nature, Robert Frost has retained his position through the years as one of the essential American poets of the 20th century. His classic works including *The Road Not Taken*, *Stopping by Woods on a Snowy Evening*, and *The Death of the Hired Man* are explored in this volume and will lead students and readers to a more nuanced understanding of the work of this verse master. Suggestions for writing an effective paper about Frost will encourage students' critical thinking skills.

On the Sonnets of Robert Frost H.A. Maxson, 2005-08-22. The sonnet is the strictest form I have behaved in and only then by pretending it wasn't a sonnet. Frost once wrote to Louis Untermeyer: Frost wrote his sonnets in couplets, triplets, and terza rima; frequently he combined elements of the Italian and English forms. His genius was in incorporating diverse styles, renewing reader interest in the form while retaining its accessibility. Several of the sonnets discussed are generally recognized as among the finest poems written in the twentieth century. This is the first work to examine all the 37 poems published that are based on the poet's own prose writings on the subject, defined as true sonnets. It also provides a discussion of why some Frost works commonly accepted as sonnets do not meet his own criteria. Of course, the book provides content analyses of the sonnets with discussions of the various structures used.

Robert Frost's Poetry of Rural Life George Monteiro, 2015-03-11. Wise old Vergil says in one of his *Georgics*: Praise

large farms stick to small ones Robert Frost said Twenty acres are just about enough Frost started out as a school teacher living the rural life of a would be farmer and later turned to farming full time when he bought a place of his own After a sojourn in England where his first two books were published to critical acclaim he returned to New England acquired a new farm and became a rustic for much of the rest of his life Frost claimed that all of his poetry was farm poetry His deep admiration for Virgil's Georgics or poems of rural life inspired the creation of his own New England georgics his answer to the haughty 20th century modernism that seemed certain to define the future of Western poetry Like the West Running Brook in his poem of the same name Frost's poetry can be seen as an embodiment of contrariness

**Singularity and Transnational Poetics** Birgit Mara Kaiser, 2014-12-05 Over the past decade singularity has been a prominent term in a broad range of fields ranging from philosophy to literary and cultural studies to science and technology studies This volume intervenes in this broad discussion of singularity and its various implications proposing to explore the term for its specific potential in the study of literature Singularity and Transnational Poetics brings together scholars working in the fields of literary and cultural studies translation studies and transnational literatures The volume's central concern is to explore singularity as a conceptual tool for the comparative study of contemporary literatures beyond national frameworks and by implication as a tool to analyze human existence Contributors explore how singularity might move our conceptions of cultural identity from prevailing frameworks of self other toward the premises of being as singular plural Through a close reading of transnational literatures from Ireland Germany the Netherlands France and South Africa this collection offers a new approach to reading literature that will challenge a reader's established notions of identity individuality communicability and social cohesion

**Robert Frost and the New England Renaissance** George Monteiro, 2014-10-17 A poem is best read in the light of all the other poems ever written So said Robert Frost in instructing readers on how to achieve poetic literacy George Monteiro's newest book follows that dictum to enhance our understanding of Frost's most valuable poems by demonstrating the ways in which they circulate among the constellations of great poems and essays of the New England Renaissance Monteiro reads Frost's own poetry not against all the other poems ever written but in the light of poems and essays by his precursors particularly Emerson Thoreau and Dickinson Familiar poems such as Mending Wall After Apple Picking Birches Stopping by Woods on a Snowy Evening The Road Not Taken and Mowing as well as lesser known poems such as The Draft Horse The Ax Helve The Bonfire Dust of Snow A Cabin in the Clearing The Cocoon and Pod of the Milkweed are renewed by fresh and original readings that show why and how these poems pay tribute to their distinguished sources Frost's insistence that Emerson and Thoreau were the giants of nineteenth century American letters is confirmed by the many poems variously influenced that derive from them His attitude toward Emily Dickinson however was more complex and sometimes less generous In his twenties he molded his poetry after hers But later after he joined the faculty of Amherst College he found her to be less a benefactor than a competitor Monteiro tells a two stranded tale of attraction imitation and

homage countered by competition denigration and grudging acceptance of Dickinson's greatness as a woman poet In a daring move he composes out of Frost's own words and phrases the talk on Emily Dickinson that Frost was never invited to give In showing how Frost's work converses with that of his predecessors Monteiro gives us a new Frost whose poetry is seen as the culmination of an intensely felt New England literary experience      **After "After Apple-Picking"** Daniel Louis Master,1977      *Rhetorical Investigations* Walter Jost,2004 Jost juxtaposes problems and questions in philosophy and literature using rhetoric as the middle term and common ground between them      **The Art of Robert Frost** Tim Kendall,2012-05-29 Offers detailed accounts of sixty five poems that span Frost's writing career and assesses the particular nature of the poet's style discussing how it changes over time and relates to the works of contemporary poets and movements      **Writing Anthropologists, Sounding Primitives** A. Elisabeth Reichel,2021-08 Writing Anthropologists Sounding Primitives re-examines the poetry and scholarship of three of the foremost figures in the twentieth century history of U S American anthropology Edward Sapir Margaret Mead and Ruth Benedict While they are widely renowned for their contributions to Franz Boas's early twentieth century school of cultural relativism what is far less known is their shared interest in probing the representational potential of different media and forms of writing This dimension of their work is manifest in Sapir's critical writing on music and literature and Mead's groundbreaking work with photography and film Sapir Mead and Benedict together also wrote more than one thousand poems which in turn negotiate their own media status and rivalry with other forms of representation A Elisabeth Reichel presents the first sustained study of the published and unpublished poetry of Sapir Mead and Benedict charting this largely unexplored body of work and relevant selections of the writers scholarship In addition to its expansion of early twentieth century literary canons Writing Anthropologists Sounding Primitives contributes to current debates about the relations between different media sign systems and modes of sense perception in literature and other media Reichel offers a unique contribution to the history of anthropology by synthesizing and applying insights from the history of writing sound studies and intermediality studies to poetry and scholarship produced by noted early twentieth century U S American cultural anthropologists Access the OA edition [here](#)
