Shostakovich in Dialogue Judith Kuhn, 2010 A thorough examination of Shostakovich's string quartets is long overdue Although they can justifiably lay claim to being the most significant and frequently performed twentieth century oeuvre for that ensemble there has been no systematic English language study of the entire cycle Judith Kuhn's book begins such a study undertaken with the belief that despite a growing awareness of the universality of Shostakovich's music much remains to be learned from the historical context and an examination of the music's language Much of the controversy about Shostakovich's music has been related to questions of meaning Kuhn examines each quartet in turn looking first at its historical and biographical context with special attention to the cultural questions being discussed at the time of its writing She then surveys the work's reception history and follows with a critical discussion of the quartet's architectural and harmonic features Using the new tools of Sonata Theory Kuhn provides a fresh analytical approach to Shostakovich's music giving valuable and detailed insights into the quartets showing how the composer's mastery of form has enabled these works to be heard as active participants in the Soviet and Western cultural discourses of their time while remaining compelling and relevant to twenty first century listeners

India and the Silk Roads Jagjeet Lally,2021-12-23 India s caravan trade with central Asia was at the heart of the complex web of routes making up the Silk Roads But what was the fate of these overland connections in the ages of sail and steam Jagjeet Lally sets out to answer this question by bringing the world of caravan trade to life a world of merchants mercenaries pastoralists and pilgrims but also of kings bureaucrats and their subjects in the countryside and towns The livelihoods of these figures did not become obsolete with the advent of modern technologies and the consequent emergence of new global networks Terrestrial routes remained critically important not only handling flows of goods and money but also fostering networks of trade in credit secret intelligence and fighting power With the waning of the Mughal Empire during the eighteenth century new Indian kingdoms and their rulers came to the fore drawing their power and prosperity from resources brought by caravan trade The encroachment of British and Russian imperialism into this commercial arena in the nineteenth century gave new significance to some people and flows while steadily undermining others India and the Silk Roads is a global history of a continental interior the first to comprehensively examine the textual and material traces of caravan trade in the age of empires By showing how no single ruler could control the nebulous yet durable networks of this trading world which had its own internal dynamics even as it evolved in step with global transformations Lally forces us to rethink the history of globalisation and re evaluate our fixation with empires and states as the building blocks of historical analysis It is a narrative resonating with our own times as China s Belt and Road Initiative brings terrestrial forms of connectivity back to the fore transforming life across Eurasia once again

Atlas of World Art Oxford University Press, 2004. The Atlas of World Art maps the cumulative traces of humankind's artistic activity and demonstrates the importance of physical and political geography for the history of the world's art. This stunning volume is the first to treat the art of the whole world from prehistory to present day and to show the importance of natural and social factors in shaping artistic activity. The Atlas is divided into seven parts, each devoted to a specific time period:

- Art of the Hunter-Gatherer 50 000 - 5 000 BCE
- Art Agriculture and Urbanization 5 000 - 500 BCE
- Art War and Empire 500 BCE - 600 CE
- Art Religion and Empire 600 - 1500
- Art Exploitation and Display 1500 - 1800
- Art Industry and Science 1800 - 1900
- Art Competition and Identity 1900 - 2000

Each section opens with a helpful timeline for that period, bringing together important dates from across various cultures. Within each section, the spreads are organized by four broad geographic regions: the Americas, Europe, Africa, and Asia, and the Pacific. With dramatic full-color maps as well as commentaries and illustrations, the Atlas of World Art is an authoritative, comprehensive, and elegant volume.

Gender Politics in Central Asia Christa Hämmerle, 2008. In Zentralasien: Kasachstan, Kirgisien, Tadschikistan, Turkmenien und Usbekistan führte der nach dem Ende des Sozialismus eingeleitete Umbau in eine politische, ökonomische und kulturelle Krise. Die geschlechtsspezifischen Implikationen dieses Übergangs sind schwerwiegend. Sie manifestieren sich vor allem als Einkommensverluste sowie im Verschwinden von Arbeitsplätzen und sozialer Sicherheit. Zusehends werden Arbeitslosigkeit und Armut feminisiert, patriarchalische Strukturen und Gewalt werden virulent. Die Beiträge dieses Bandes sammeln Material über die Situation in den zentralasiatischen Staaten, um es aus der Geschlechterperspektive und vor dem Hintergrund der Erfahrungen von Frauen und Frauenorganisationen vor Ort zu analysieren. Die durchweg englischsprachigen Beiträge setzen die aktuellen Lebenssituationen von Frauen in politische, soziale, ökonomische und kulturelle Kontexte und liefern darüber hinaus stets mit historischer Perspektive grundlegende Informationen und Daten.

The international public has taken a while to notice the specific problems of Central Asia and its significance for Europe, both politically and as a subject of research, in contrast to its immediate attention to the post-communist states in Central, Eastern, and South Eastern Europe. The origins of this book go back to a project on gender politics in Central Asia intended to both collect material on the situation in the countries of Central Asia with regard to

organisations and women's own experiences and to analyse the findings from a gender perspective. At the same time the project was intended to stimulate research on the region and to bring the Central Asian states into the discussions that are currently going on in women's and gender studies. The eight contributions to this book deal with gender politics in Central Asia and in doing so put women's current life situations into political, social, economic and cultural contexts. Each essay focuses on some special issue but beyond this specific focus the essays provide basic information and data on the state in question, demographic and economic structures or political and ideological conditions.
