 Steffen Hertog,2011-04-27 In Princes Brokers and Bureaucrats the most thorough treatment of the political economy of
 Saudi Arabia to date Steffen Hertog uncovers an untold history of how the elite rivalries and whims of half a century ago
 have shaped today s Saudi state and are reflected in its policies Starting in the late 1990s Saudi Arabia embarked on an
 ambitious reform campaign to remedy its long term economic stagnation The results have been puzzling for both area
 specialists and political economists Saudi institutions have not failed across the board as theorists of the rentier state would
 predict nor have they achieved the all encompassing modernization the regime has touted Instead the kingdom has witnessed
 a bewildering m lrange of thorough failures and surprising successes Hertog argues that it is traits peculiar to the Saudi state
 that make sense of its uneven capacities Oil rents since World War II have shaped Saudi state institutions in ways that are far
 from uniform Oil money has given regime elites unusual leeway for various institutional experiments in different parts of the
 state in some cases creating massive rent seeking networks deeply interwoven with local society in others large but passive
 bureaucracies in yet others insulated islands of remarkable efficiency This process has fragmented the Saudi state into an
 uncoordinated set of vertically divided fiefdoms Case studies of foreign investment reform labor market nationalization and
 WTO accession reveal how this oil funded apparatus enables swift and successful policy making in some policy areas but
 produces coordination and regulation failures in others make , Indian economic condition worst , then Zimbabwe ,
