Developing Leadership Character Ivey Business Journal:

Developing Leadership Character Mary Crossan, Gerard Seijts, Jeffrey Gandz, 2015-12-22 This book focuses on the element of leadership that has largely been neglected in the literature character. Often thought to be a subjective construct, the book demonstrates the concrete behaviors associated with different character dimensions in order to illustrate how these behaviors can be developed and character strengthened. Based on research involving over 300 senior leaders from different industries, sectors, and countries, Crossan, Seijts, and Gandz developed a model for leadership character that focuses on eleven dimensions. The book begins by setting the context for the focus on character in business, asking what character is and whether it can be learned, developed, molded, or changed. Next, the book focuses on each dimension of leadership character in turn, exploring its elements and the ways in which it can be applied in a business setting. The book concludes with a summary of the key insights, an exploration of the interactions between the character dimensions, and a call to the reader to reflect on how to develop one's own and others' leadership character. Bridging theory and management practice, *Developing Leadership Character* will interest students and practitioners alike. Readers will benefit not only from a new, robust theoretical framework for leadership character but will also learn how character can be developed further. [Building Leadership Character](#)

Amy Newman, 2018-03-28 Extending beyond traditional leadership books to offer readers a path for developing their own character, this compelling new text uses a storytelling approach and real-world cases to explore different dimensions of leadership character. Gerard Seijts, Karen MacMillan, 2017-09-19 Recent financial crises and other high-profile mismanagement cases have brought a spotlight to the quality of leader character in the business sector. *Leadership in Practice* is the first book to provide an authoritative collection of cases to engage students interested in the importance of the character of business leaders. The authors have compiled a collection of cutting-edge cases and readings, situating them within a theoretical landscape so students are familiarized with the concepts as they move through the text. The cases cover a wide range of successful businesses from the NFL to Apple and include notable controversies such as those surrounding Enron and Volkswagen. Alongside exclusive interviews and insights into the value of leadership character at individual, team, organizational, and societal levels, the book includes learning objectives and discussion questions to facilitate lively debate and interaction in the classroom. This volume will be a valuable supplement for students and instructors in any leadership class as well as researchers and practitioners interested in exploring case studies that illuminate the nature of leadership in a business.

appear to parallel major behaviors traits functions experiences and actions ascribed to Moses especially in the first five books of the Hebrew Bible Anyone can view Moses through the lens of a particular religion whether shared or not and still learn considerably from the experience One will find Moses depicted as heroic charismatic and certainly empathic Yet Moses also shows transactional transformational and visionary leadership qualities Hence Religion and Contemporary Management discerns why Moses represents such an important model of effective leadership for contemporary times **Global Sport**
