McDermott, Peter Burke, 2015-10-01 This volume provides the first comparative survey of the relations

between the two most active book worlds in Eurasia between 1450 and 1850 Prominent scholars in book history explore different approaches to publishing printing and book culture They discuss the extent of technology transfer and book distribution between the two regions and show how much book historians of East Asia and Europe can learn from one another by raising new questions exploring remarkable similarities and differences in these regions production distribution and consumption of books The chapters in turn show different ways of writing transnational comparative history Whereas recent problems confronting research on European books can instruct researchers on East Asian book production so can the privileged role of noncommercial publications in the East Asian textual record highlight for historians of the European book the singular contribution of commercial printing and market demands to the making of the European printed record Likewise although production growth was accompanied in both regions by a wider distribution of books woodblock technology s simplicity and mobility allowed for a shift in China of its production and distribution sites farther down the hierarchy of urban sites than was common in Europe And the different demands and consumption practices within these two regions expanding markets led to different genre preferences and uses as well as to the growth of distinctive female readerships A substantial introduction pulls the work together and the volume ends with an essay that considers how these historical developments shape the present book worlds of Eurasia This splendid volume offers expert new insight into the ways of producing financing distributing and reading printed books in early modern Europe and East Asia This is comparative history at its best which leaves us with a better understanding of each context and of the challenges common to book cultures across space and time Ann Blair author of Too Much to Know Managing Scholarly Information before the Modern Age and professor of history Harvard University This engrossing account of the history of the book by leading specialists on the European and East Asian publishing worlds takes stock of what we know and how much we still need to know about the places that books had in the lives of our early modern forebears Each chapter is masterful state of the field coverage of its subject and together they set a new standard for future studies of the book East and West Timothy Brook author of The Troubled Empire China in the Yuan and Ming Dynasties Historical Dictionaries and Historical Dictionary Research Julie Coleman, Anne

McDermott, 2012-10-24 This volume is a collection of papers from the 1st International Conference on Historical Lexicography and Lexicology at the University of Leicester in 2002 The purpose of the conference was to bring together scholars and academics from around the world working as scholars and editors on historical dictionaries or as practising lexicographers The papers are accordingly arranged in two sections reflecting the distinction between those individuals working on the historical development of dictionaries and those considering the lexicological problems and challenges facing the lexicographer in attempting to represent as fully and justly as possible historical forms of the English language

Ashgate Critical Essays on Early English Lexicographers Anne C. McDermott, 2017-03-02 The eighteenth century is renowned for the publication of Samuel Johnson s A Dictionary of the English Language which reference sources still call the

first English dictionary This collection demonstrates the inaccuracy of that claim but its tenacity in the public mind testifies to how decisively Johnson formed our sense of what a dictionary is The essays and articles in this volume examine the already flourishing tradition of English lexicography from which Johnson drew as represented by Kersey Bailey and Martin as well as the flourishing contemporary trade in encyclopedic technical pronunciation and bilingual lexicons

Word Studies in the Renaissance Gabriele Stein, 2017-09-15 The book examines the work of Renaissance lexicographers such as John Palsgrave Claudius Hollyband Richard Huloet and Peter Levins with particular

focus on the author at work the struggles of these lexicographers to understand the semantic range of a word and to explain and transpose it into another language their assessment of different linguistic and cultural expressions and their morphological analyses and their efforts to find ways of structuring and presenting lexical information Gabriele Stein explores the influence of the works by Ambrogio Calepino Robert Estienne Hadrianus Junius and Conrad Gesner and the extent to which bi and multilingual dictionaries in the 16th century are often pan European in character she also provides the first in depth and richly illustrated discussion of the use of typographical resources to present the structure of lexical information

A History of Italian and English Bilingual Dictionaries Desmond O'Connor, 1990 *Sixteenth-Century English Dictionaries* John Considine, 2022-05-26 This is the first volume in the trilogy *Dictionaries in the English Speaking World 1500 1800* which will offer a new history of lexicography in and beyond the early modern British Isles The volume explores the dictionaries wordlists and glossaries that were compiled and read by speakers of English from the end of the Middle Ages to the year 1600 These include the first printed dictionaries in which English words were collected the dictionaries of Latin used by all educated English speakers from young children to Shakespeare to adult royalty the dictionaries of modern languages that gave English speakers access to the languages and cultures of continental Europe dictionaries and wordlists documenting other languages from Armenian to Malagasy to Welsh and a great variety of specialized English wordlists No unified history has ever surveyed this vast lively and culturally significant lexicographical output before The guiding principle of the book and the trilogy is that a story about dictionaries must also be a story about human beings John Considine offers a full and sympathetic account of those who compiled and used these works and those who supported them financially paying particular attention to records of dictionary use and its traces in surviving copies The volume will appeal to all those interested in the languages and literary cultures of the sixteenth century English speaking world

been a proliferation of exciting new work across many areas of children's literature and culture. Mapping this vibrant scholarship, the Second Edition of *Keywords for Children's Literature* presents original essays on essential terms and concepts in the field. Covering ideas from Aesthetics to Voice, an impressive multidisciplinary cast of scholars explores and expands on the vocabulary central to the study of children's literature. The second edition of this *Keywords* volume goes beyond disciplinary and national boundaries. Across fifty-nine print essays and nineteen online essays, it includes contributors from twelve countries and an international advisory board from over a dozen more. The fully revised and updated selection of critical writing, more than half of the essays are new to this edition, reflects an intentionally multinational perspective, taking into account non-English traditions and what childhood looks like in an age of globalization. All authors trace their keyword's uses and meanings from translation to poetry, taboo to diversity and trauma to nostalgia. The book's scope, clarity, and interdisciplinary play between concepts make this new edition of *Keywords for Children's Literature* essential reading for scholars and students alike.
