Directing The Choral Music Program:

Directing the Choral Music Program Kenneth Harold Phillips, 2016 Now in its second edition *Directing the Choral Music Program* is a comprehensive introduction to developing and managing choral music programs for elementary high school and adult levels Broad in scope and practical in orientation this text is structured around three basic units the administrative process rehearsal and performance planning and choral techniques *Choral Music* Avery T. Sharp, James Michael Floyd, 2011 This is an annotated bibliography to books recordings videos and websites on choral music This book will serve as an excellent tool for librarians researchers and scholars in sorting through the massive amount of new material that has appeared since publication of the previous edition *Choral Music* James Michael Floyd, Avery T. Sharp, 2019-05-23 *Choral Music A Research and Information Guide Third Edition* offers a comprehensive guide to the literature on choral music in the Western tradition Clearly annotated bibliographic entries guide readers to resources on key topics within choral music individual choral composers regional and sacred choral traditions choral techniques choral music education genre studies and more providing an essential reference for researchers and practitioners Covering monographs bibliographies selected dissertations reference works journals electronic databases and websites this research guide makes it easy to locate relevant sources Comprehensive indices of authors titles and subjects keep the volume user friendly The new edition has been brought up to date with entries encompassing the latest scholarship and updated references and annotations throughout capturing the continued growth of literature on choral music since the publication of the second edition *Becoming a Choral Music Teacher* Patrice Madura Ward-Steinman, 2010-04-26 This textbook prepares Music Education and Choral Conducting majors to be effective middle school and high school choral music teachers It fully integrates the choral field experience for hands on learning and reflection and allows the student to observe and teach the book's principles It covers the essentials of vocal development auditions literature rehearsals classroom management and practical matters **Praxis: Singen mit Kindern und Jugendlichen** Helmut Schaumberger, 2022 Das Singen mit Kindern und Jugendlichen hat in den letzten Jahren eine vielbeachtete Renaissance erfahren Entsprechend groß ist die Nachfrage nach Materialien Best Practice Beispielen sowie Forschungsarbeiten in diesem Feld Der vorliegende Band enthält Beiträge renommierter Praktikerinnen und Praktiker sowie Forscher und greift folgende Themen auf Stimmspielgeschichten Arbeit mit Stimmwechslern Arrangieren Entwicklung sozialer Kompetenzen personale Kompetenzen von Kinder und Jugendchorleiterinnen leiten humanitäre Singprojekte Erlebnis Kirchenmusik Singen in Zeiten von COVID 19 *Choral Conducting and the Construction of Meaning* Liz Garnett, 2017-07-05 It is a truism in teaching choral conducting that the director should look like s/he wishes the choir to sound The conductor's physical demeanour has a direct effect on how the choir sings at a level that is largely unconscious and involuntary It is also a matter of simple observation that different choral traditions exhibit not only different styles of vocal production and delivery but also different gestural vocabularies which are shared not only between conductors within

that tradition but also with the singers It is as possible to distinguish a gospel choir from a barbershop chorus or a cathedral choir by visual cues alone as it is simply by listening But how can these forms of physical communication be explained Do they belong to a pre cultural realm of primate social bonding or do they rely on the context and conventions of a particular choral culture Is body language an inherent part of musical performance styles or does it come afterwards in response to music At a practical level to what extent can a practitioner from one tradition mandate an approach as good practice and to what extent can another refuse it on the grounds that we don't do it that way This book explores these questions at both theoretical and practical levels It examines textual and ethnographic sources and draws on theories from critical musicology and nonverbal communication studies to analyse them By comparing a variety of choral traditions it investigates the extent to which the connections between conductor demeanour and choral sound operate at a general level and in what ways they are constructed within a specific idiom Its findings will be of interest both to those engaged in the study of music as a cultural practice and to practitioners involved in a choral conducting context that increasingly demands fluency in a variety of styles
