literature played a key role in the formation of the legal justification for imperialism As the English colonial enterprise developed the existing legal tradition of common law no longer solved the moral dilemmas of the new world order in which England had become instead of a victim of Catholic enemies an aggressive force with its own overseas territories Writers of romance fiction employed narrative strategies in order to resolve this difficulty and in the process provided a legal basis for English imperialism Brian Lockey analyses works by such authors as Shakespeare Spenser and Sidney in the light of these

legal discourses and uncovers new contexts for the genre of romance Scholars of early modern literature as well as those interested in the history of law as the British Empire emerged will learn much from this insightful and ambitious study

Censorship and Conflict in Seventeenth-Century England Randy Robertson, 2011-04-30 Censorship profoundly affected early modern writing Censorship and Conflict in Seventeenth Century England offers a detailed picture of early modern censorship and investigates the pressures that censorship exerted on seventeenth century authors printers and publishers In the 1600s Britain witnessed a civil war the judicial execution of a king the restoration of his son and an unremitting struggle among crown parliament and people for sovereignty and the right to define liberty and property This battle sometimes subtle sometimes bloody entailed a struggle for the control of language and representation Robertson offers a richly detailed study of this censorship contest and of the craft that writers employed to outflank the licensers He argues that for most parties victory not diplomacy or consensus was the ultimate goal This book differs from most recent works in analyzing both the mechanics of early modern censorship and the poetics that the licensing system produced the forms and pressures of self censorship Among the issues that Robertson addresses in this book are the workings of the licensing machinery the designs of art and obliquity under a regime of censorship and the involutions of authorship attendant on anonymity Vagrancy, Homelessness, and English Renaissance Literature Linda Woodbridge, 2001 Woodbridge shows that the prevailing image of the vagrant poor in Renaissance England sturdy comical resourceful rogues who were adept at living on the fringes of society was essentially a literary fabrication pressed into the service of specific social and political agendas **A Dictionary of Biblical Tradition in English Literature** David Lyle Jeffrey, 1992 Over 15 years in the making an unprecedented one volume reference work Many of today's students and teachers of literature lacking a familiarity with the Bible are largely ignorant of how Biblical tradition has influenced and infused English literature through the centuries An invaluable research tool Contains nearly 800 encyclopedic articles written by a distinguished international roster of 190 contributors Three detailed annotated bibliographies Cross references throughout ENGLISH LITERATURE ADVANCING THROUGH HISTORY 4 - The Eighteenth Century Petru Golban, 2022-12-28 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble

Coldiron, 2016-12-05 Bringing to light new material about early print early modern gender discourses and cultural contact between France and England in the revolutionary first phase of English print culture this book focuses on a dozen or so of the many early Renaissance verse translations about women marriage sex and gender relations Anne Coldiron here analyzes such works as the Interlocucion the Beaute of Women the Fyftene Joyes of Maryage and the Complaintes of the Too Soone and Too Late Maryed as well as the printed translations of writings of Christine de Pizan Her selections identify an insufficiently discussed strand of English poetry in that they are non elite non courtly and non romance writings on women's issues She investigates the specific effects of translation on this alternative strand of poetry showing how some French poems remain stable in the conversion others subtly change emphasis in their new context but some are completely transformed Coldiron also emphasizes the formal and presentational dimensions of the early modern poetic book assessing the striking differences the printers paratexts and visual presentation strategies make to the meaning and value of the poems A series of appendices presents the author's transcriptions of the texts that are otherwise inaccessible never having been edited in modern times

Emotional Practice in Old English Literature Alice Jorgensen, 2024 An examination of how emotions were practised and performed through Old English texts Scholarship is increasingly interested in investigating concepts of emotion found in Old English literature This study takes the next step arguing that both heroic and religious texts were vehicles for emotional practice that is for doing things with emotion Using case studies from heroic

poetry Beowulf The Battle of Brunanburh and The Battle of Maldon religious poetry Christ I and Christ III and homilies selections from the Vercelli Book Blickling Homilies and the works of Wulfstan it shows via detailed close readings that texts could be used to act out emotional styles manage the emotions arising from specific events and negotiate relationships both within social groups and with God Meanwhile a chapter on the Old English Boethius explores how the control of unruly emotions is theorized as the transfer of attachment from the things of this world to the things of the divine Overall the volume offers new angles on the social functions of genres and questions of reception and performance and it gives insight into how early medieval people used emotions to relate to their world temporal and eternal Negotiating Conflict and Controversy in the Early Modern Book World Alexander Samuel Wilkinson, Graeme Kemp, 2019-06-24 The early modern European book world was confronted with many crises and controversies Some conflicts were of such monumental scale that they wrought significant reconfigurations of the trade Others were more quotidian in nature evidence of the intensely competitive and at times predatory nature of the industry How publishing negotiated and responded to the various crises conflicts and disputes of the age is explored by the rich and varied interdisciplinary contributions in this volume To succeed in the business of books printers and publishers needed to seize the advantage in the often complex environments in which they operated What was required was determination resilience and inventiveness even in the most challenging of times

Birds and Other Creatures in Renaissance Literature Rebecca Ann Bach, 2017-08-07 This book explores how humans in the Renaissance lived with attended to and considered the minds feelings and sociality of other creatures It examines how Renaissance literature and natural history display an unequal creaturely world all creatures were categorized hierarchically However post Cartesian readings of Shakespeare and other Renaissance literature have misunderstood Renaissance hierarchical creaturely relations including human relations Using critical animal studies work and new materialist theory Bach argues that attending closely to creatures and objects in texts by Shakespeare and other writers exposes this unequal world and the use and abuse of creatures including people The book also adds significantly to animal studies by showing how central bird sociality and voices were to Renaissance human culture with many believing that birds were superior to some humans in song caregiving and companionship Bach shows how Descartes a central figure in the transition to modern ideas about creatures lived isolated from humans and other creatures and denied ancient knowledge about other creatures minds especially bird minds As significantly Bach shows how and why Descartes ideas appealed to human grandiosity Asking how Renaissance categorizations of creatures differ so much from modern classifications and why those modern classifications have shaped so much animal studies work this book offers significant new readings of Shakespeare s and other Renaissance texts It will contribute to a range of fields including Renaissance literature history animal studies new materialism and the environmental humanities **ÖABT - İNGİLİZCE ÖĞRETMENLİĞİ - Konu Anlatımı** Komisyon, The Battle of the Classics Eric Adler, 2020-09-04 These are troubling days for the humanities In response a recent proliferation of works

defending the humanities has emerged But taken together what are these works really saying and how persuasive do they prove The Battle of the Classics demonstrates the crucial downsides of contemporary apologetics for the humanities and presents in its place a historically informed case for a different approach to rescuing the humanistic disciplines in higher education It reopens the passionate debates about the classics that took place in late nineteenth and early twentieth century America as a springboard for crafting a novel foundation for the humanistic tradition Eric Adler demonstrates that current defenses of the humanities rely on the humanistic disciplines as inculcators of certain poorly defined skills such as critical thinking It criticizes this conventional approach contending that humanists cannot hope to save their disciplines without arguing in favor of particular humanities content As the uninspired defenses of the classical humanities in the late nineteenth century prove instrumental apologetics are bound to fail All the same the book shows that proponents of the Great Books favor a curriculum that is too intellectually narrow for the twenty first century The Battle of the Classics thus lays out a substance based approach to undergraduate education that will revive the humanities even as it steers clear of overreliance on the Western canon The book envisions a global humanities based on the examination of masterworks from manifold cultures as the heart of an intellectually and morally sound education

Rome in Australia: The Papacy and Conflict in the Australian Catholic Missions, 1834-1884 (set 2 volumes) Christopher Dowd, 2008-07-30 The founding of the Catholic missions in Australia coincided with the defining drift of power and prestige within the nineteenth century Church This was a period of chronic dissension among Australia's Catholic communities powerfully drawn by the ultramontane impulse and political manoeuvring to refer their problems to the Pope Roman bureaucratic control exercised through the Sacred Congregation de Propaganda Fide was the single most important factor in the resolution of these problems and consequently in the determinative shaping of the colonial Australian Church Based on extensive archival research this study explores issues of process politics and personality in the formulation of papal policy towards a part of the world that could not be more distant from Rome

Lying in Early Modern English Culture Andrew Hadfield, 2017-09-01

Lying in Early Modern English Culture is a major study of ideas of truth and falsehood in early modern England from the advent of the Reformation to the aftermath of the failed Gunpowder Plot The period is characterised by panic and chaos when few had any idea how religious cultural and social life would develop after the traumatic division of Christendom While many saw the need for a secular power to define the truth others declared that their allegiances belonged elsewhere Accordingly there was a constant battle between competing authorities for the right to declare what was the truth and so label opponents as liars Issues of truth and lying were therefore a constant feature of everyday life and determined ideas of individual identity politics speech sex marriage and social behaviour as well as philosophy and religion This book is a cultural history of truth and lying from the 1530s to the 1610s showing how lying needs to be understood in action as well as in

theory Unlike most histories of lying it concentrates on a series of particular events reading them in terms of academic theories and more popular notions of lying The book covers a wide range of material such as the trials of Ann Boleyn and Thomas More the divorce of Frances Howard and the murder of Anthony James by Annis and George Dell works of literature such as Othello The Faerie Queene A Mirror for Magistrates and The Unfortunate Traveller works of popular culture such as the herring pamphlet of 1597 and major writings by Castiglione Montaigne Erasmus Luther and Tyndale
