Bibliography of Nigeria Nduntuei O. Ita, 2019-05-23 First published in 1971 this major bibliography devoted to Africa's most populous country Nigeria is therefore a timely contribution which must be welcomed by all. The Bibliography of Nigeria contains over 5 400 entries in archaeology all branches of anthropology linguistic and relevant historical and sociological studies. Many of the entries carry indicative or informative annotations which have greatly enhanced the usefulness of the work. The history and culture of Africa constitutes a rich area of study and research which is attracting an ever increasing number of scholars the world over. The new impetus which African studies is receiving in the major centre of learning today has added urgency to the long neglected problem of bibliographical control of the vast literature. The dearth of bibliographies in the field of African studies has been a main source of frustration to all those working in this area. The book is divided into two parts. Part one deals with Nigeria as a whole and lists general works or those concerned with several regions or several ethnic groups. Part two is devoted to the various ethnic groups. An analytical table of contents a comprehensive ethnic index an author index and an index of Islamic studies together with generous cross referencing ensure ready and easy location of individual entries.
