

ESOTERIC EGYPT

The background of the book cover is a deep blue night sky filled with stars and faint, glowing constellations. In the foreground, there are golden, stylized figures of Egyptian deities. On the left, a large figure with a ram's head (Amun) is shown in profile, facing right. On the right, a figure with a falcon head (Horus) is shown in profile, facing left. Both figures have their arms raised in a gesture of adoration or offering. The overall style is reminiscent of ancient Egyptian art, with a focus on symbolic representation.

Awakening Higher Consciousness Lloyd M. Dickie, Paul R. Boudreau, 2015-04-23 Explains the relevance of ancient myths to the awakening to higher states of consciousness and enlivened experience of the world Shows how higher consciousness can arise within each of us by following the guidance found in ancient myths Reveals how myths influence our personal development without our awareness through their influence on our core values and culture Examines ancient Sumerian Egyptian Babylonian and Hebrew myths such as the Epic of Gilgamesh and the story of Osiris and Isis In this study of ancient Sumerian Egyptian Babylonian and Hebrew myths authors Lloyd M Dickie and Paul R Boudreau show that many classic myths contain instructions for awakening higher consciousness allowing access to enlivened experience of the world and awareness of the divine within and around us Inspired by the work of R A Schwaller de Lubicz the authors deeply examine creation myths and well known ancient myths from Mesopotamia and Egypt such as the Epic of Gilgamesh and the story of Osiris and Isis They reveal that these myths are not behavioral morality tales but actual delineations of how a higher order can arise within each of us The authors explain how these stories teach us to distinguish the heaven within from the earth

within us to find the essential part of our being that provides a link with our higher powers Spending more than a year onsite in Egypt to personally connect with the myths the authors explain how ancient storytellers intentionally chose myths as a vehicle for teachings because story has a seed like capacity to implant itself in the unconscious and influence development without the individual being aware of it By crafting these sacred narratives the ancient Sumerians and Egyptians provide tools to awaken to the presence of higher consciousness as well as a road map for the individual to come into conscious alignment with the perpetual unfolding of the universe [The Lost World of Cham](#) David Hatcher Childress,2017-01-25 David Childress popular author and star of the History Channel s show Ancient Aliens brings us the incredible story of the Cham Egyptian Hindu Buddhist seafarers who ruled a realm that was as big as the Pacific Ocean The mysterious Cham or Champa peoples of Southeast Asia formed a megalith building seagoing empire that extended into Indonesia Fiji Tonga Micronesia and beyond a transoceanic power that reached Mexico the American Southwest and South America The Champa maintained many ports in what is today Vietnam Cambodia and Indonesia particularly on the islands of Sulawesi Sumatra and Java and their ships plied the Indian Ocean and the Pacific bringing Chinese African and Indian traders to far off lands including Olmec ports on the Pacific Coast of Central America Statues in Vietnam of the Champa show men and women distinctly African in appearance and the Champa royalty were known to consist of nearly every racial group They had iron tools and built megalithic cities of finely cut basalt and granite such as the city of My Son in central Vietnam Its construction is identical to that at Tiwanaku in South America Topics include Who Were the Champa Cham and Khem The Egyptian Influence on Cham The Search for Metals Trans Pacific Voyaging The Basalt City of Nan Madol Elephants and Buddhists in North America The Cham and the Olmecs The Cham in Colombia The Cham and Lake Titicaca Easter Island and the Cham tons more **The Secret Chamber of Osiris** Scott Creighton,2014-12-15 Reveals the true purpose behind the pyramids of Giza and the location of the secret vault of Egyptian treasures hidden on the Giza plateau Details how the first 16 pyramids represent the allegorical dismembered body of Osiris and the legendary missing part is a secret underground chamber Explains how the pyramids were built as recovery vaults and with the secret chamber contained everything needed to rebuild civilization after the Deluge Examines the technology used to build the pyramids and fly the stones into place After nearly 200 years of the pyramid as tomb theory a growing body of evidence suggests the first 16 pyramids of ancient Egypt were not royal tombs but nearly indestructible recovery vaults designed to revive civilization after an anticipated major catastrophe the Deluge of Thoth Scott Creighton examines the prophecy of catastrophe and the ancient Egyptians massive undertaking to ensure the survival of their civilization He explains how the pyramids acted as easily located storehouses for seeds tools and civilizing knowledge yet they would have been too visible to house the precious treasures necessary to restore the rich culture of ancient Egypt For this the ancients created a secret chamber whose existence was hidden in myth and whose location was encoded in the Giza pyramids Creighton shows how collectively the first 16 pyramids represent the allegorical

dismembered body of Osiris the Egyptian god of agriculture and rebirth and as in the myth of Osiris one part is missing or hidden a secret chamber under the sands of the Giza plateau Creighton reveals how the 3 great pyramids of Giza point to the secret location and how they were built with technology akin to modern hot air balloons used to fly the stones into place as cited in Egyptian legends and shown in ancient art Offering a new understanding of this remarkable civilization the author concludes with a startling revelation shortly after he revealed the location of the secret chamber of Osiris a location never before explored it became the site of a major excavation by the Egyptian authorities the results of which have yet to be made public

Creating the Soul Body Robert E. Cox,2008-04-18 Outlines the principles and mechanics of the soul body the spiritual vehicle that enables individual consciousness to survive the body's death Shows that the ancient Vedic Egyptian Hebraic and Pythagorean traditions shared and understood this spiritual practice Reveals modern science as only now awakening to this ancient sacred science Ancient peoples the world over understood that individual consciousness is rooted in a universal field of consciousness and is therefore eternal surviving the passing of the physical body They engaged in spiritual practices to make that transition maximally auspicious These practices can be described as a kind of alchemy in which base elements are discarded and higher levels of consciousness are realized The result is the creation of a vehicle a soul body that carries consciousness beyond physical death These spiritual preparations are symbolized in the Vedic Egyptian and Hebraic traditions as a divine stairway or ladder a step by step path of ascent in which the practitioner raises consciousness by degrees until it comes to rest in the bosom of the infinite thereby becoming immortal This spiritual process explains the reincarnation of the Dalai Lama for example whose reincarnation is confirmed in infancy through physical and spiritual signs indicating that the consciousness has been carried from one lifetime to the next In **Creating the Soul Body** Robert Cox maps the spiritual journey of consciousness behind this sacred science of immortality and reveals the practice of creating a soul body in detail He also shows that this ancient spiritual science resembles advanced theories of modern science such as wave and particle theory and the unified field theory and reveals that modern science is only now awakening to this ancient science of immortality

Sacred Symbols of the Dogon Laird Scranton, 2007-10-12

Dogon cosmology provides a new Rosetta stone for reinterpreting Egyptian hieroglyphs Provides a new understanding of Egyptian hieroglyphs as scientific symbols based on Dogon cosmological drawings Use parallels between Dogon and Egyptian word meanings to identify relationships between Dogon myths and modern science

In The Science of the Dogon Laird Scranton demonstrated that the cosmological structure described in the myths and drawings of the Dogon runs parallel to modern science atomic theory quantum theory and string theory their drawings often taking the same form as accurate scientific diagrams that relate to the formation of matter

Scranton also pointed to the close resemblance between the keywords and component elements of Dogon cosmology and those of ancient Egypt and the implication that ancient cosmology may also be about actual science

Sacred Symbols of the Dogon uses these parallels as the starting point for a new interpretation of the Egyptian hieroglyphic language By substituting Dogon cosmological drawings for equivalent glyph shapes in Egyptian words a new way of reading and interpreting the Egyptian hieroglyphs emerges

Scranton shows how each hieroglyph constitutes an entire concept and that their meanings are scientific in nature Using the Dogon symbols as a Rosetta stone he reveals references within the ancient Egyptian language that define the full range of scientific components of matter from massless waves to the completed atom even suggesting direct correlations to a fully realized unified field theory

Malkowski, 2007-10-03 How ancient Egyptians understood quantum theory Investigates the history of how modern religion and the Age of Science were inspired by the sacred science of the ancients Examines how quantum theory explains that the cosmos arises from consciousness Reveals the unanimity between Schwaller de Lubicz s sacred science and the science of a cosmos governed by quantum mechanics Since the dawn of the Age of Science humankind has been engaged in a methodical quest to understand the cosmos With the development of quantum mechanics the notion that everything is solid matter is being replaced with the idea that information or thought may be the true source of physical reality Such scientific inquiry has led to a growing interest in the brain s unique and mysterious ability to create perception possibly through quantum interactions Consciousness is now being considered as much a fundamental part of reality as the three dimensions we are so familiar with Although this direction in scientific thought is seen as a new approach the secret wisdom of the ancients presented just such a view thousands of years ago Building on Ren A Schwaller de Lubicz s systematic study of Luxor s Temple of Amun Mut Khonsu during the 1940s and 50s Edward Malkowski shows that the ancient Egyptians worldview was not based on superstition or the invention of myth but was the result of direct observation using critical faculties attuned to the quantum manifestation of the universe This understanding of reality as a product of human consciousness provided the inspiration for the sacred science of the ancients precisely the philosophy modern science is embracing today In the
