Multilateralism in the Indo-Pacific Swaran Singh, Reena Marwah, 2022-08-05 This book focuses on emerging new multilateralism in the Indo Pacific and offers a useful analysis of various existing and evolving formulations and alignments in the region. The book problematises the evolution, relevance and changing contours of emerging economic and security architectures and connects these to various unilateral and multilateral initiatives that undergird the overall transformation in these economic and strategic multilaterals in this region. The chapters offer a comprehensive overview of organisations and institutions and the contributors provide their historical background and contemporary focus with implications for the future. Consequently, the book provides a balanced assessment of evolving trends elucidated by both its theoretical debates and empirical analyses. It assesses the outline and influence of non traditional threats that have received only stand alone and not integrated examination involving issues as climate change, piracy, smuggling and terrorist activity triggering a whole gamut of humanitarian and disaster relief strategies. Comprehensive in analysis and approach, the book will be of interest to scholars of Political Science, Foreign Policy, Security Studies, International Relations, International Political Economy and Area Studies including Asian, East Asian or Indo Pacific Studies. [Principles of International Politics](#) Bruce Bueno de Mesquita, 2013-01-14 Renowned scholar Bruce Bueno de Mesquita, who set the standard for the scientific approach to international relations and transformed the field, has returned with a reformulated fifth edition based on extensive reviewer feedback and guided by an emphasis on questions about the causes and consequences of war, peace and world order. More than ever before, the strategic perspective in international relations is examined with complete clarity, precision and accessibility. What hasn't changed is Bueno de Mesquita's commitment to covering the fundamentals of IR. The foundational topics and examination are all there: the major theories of war, the domestic sources of international politics, an exploration of the democratic peace, the problems of terrorism, the role of foreign aid, democratization, international political economy, globalization, international organizations, international law and the global environment. The first part of the book, *Foundations*, offers highly accessible coverage of key concepts, introducing students to different ways to think about the national interest and showing them how to use game theory and the strategic perspective, selectorate theory to better understand what happens in all aspects of international affairs. This section uses debate over North Korea's nuclear weapons development as an ongoing example to build concepts and build confidence in the student's grasp of basic modeling ideas. Also covered is a basic, intuitive introduction to game theory and other evidence and logic based tools for analyzing international relations. Part II, *War*, next provides a more thorough evaluation of how domestic political incentives and the domestic institutions of governance shape choices about conflict initiation, escalation and termination. It also surveys major theories of war and conflict, working through hypotheses derived from constructivism, neo-realism, liberalism and selectorate theory and evaluating them against the evidence to see what actually works and what doesn't. Chapters in Part III, *Peace*, build on the

logic of collective action to help students see why it is so difficult to get national governments to do what is right even when they can agree on what is right with chapters covering the effectiveness of international organizations and international law as well as a thorough evaluation of environmental issues human rights enforcement and the domestic and the international political economy of trade Part IV World Order emphasizes efforts to promote the spread of democracy and economic prosperity It also addresses how to understand and deal with terrorism Whether examining terrorism the spread of democracy or the alleviation of poverty chapters in this section carefully examine which strategies work which do not and why The Arab Spring provides a useful ongoing example of the strengths and weaknesses of foreign aid policy and military intervention policies No other introductory text delivers such an easily understood contemporary explanation of international politics while truly enabling students to learn how to mobilize the key concepts and models themselves thus develop a new method for thinking about world affairs More than ever before Principles provides a comprehensive evaluation of all aspects of international affairs systematically compares the accuracy of competing approaches to international relations and walks students through the simple intuitive models and games that capture the essence of the strategic selectorate viewpoint

Global Financial Networked Governance Peter Knaack, 2022-12-30 *Global Financial Networked Governance* provides a careful analysis of the Financial Stability Board FSB and the standard setters under its umbrella to show how such government networks harness the power of public reputation to herd their members into compliance The FSB s track record in coordinating global financial regulatory reform is uneven Some items on its agenda have seen the rapid evolution of globally coordinated regulatory standards and their implementation by all member states sometimes even ahead of the stipulated timelines In contrast other initiatives have stalled at different stages of the policymaking process global coordination is lacking deadlines have been missed and it is currently unclear when the post crisis financial reform project will come to completion if ever In this book the author asks the question why has the FSB succeeded in some areas of its global financial regulatory coordination work and not in others The book traces the global policymaking process in three major issue areas banking regulation Basel III over the counter OTC derivatives and ending too big to fail Through a combination of careful process tracing and rigorous testing against alternative explanations it challenges the existing literature by revealing that the institutional pathway of policymaking is the main predictor of FSB progress It shows that government networks on their own have succeeded in implementing globally coherent safety standards In contrast legislation and legislators in key G20 countries have limited the power and effectiveness of the FSB The author analyzes the causes and effects of this phenomenon and suggests a novel institutional solution to the effectiveness legitimacy dilemma that global governance forums face combining the advantages of functional specialization and electoral accountability This book will be of great interest to graduate students academics working at the intersection of economics political science and international law students of the FSB in particular and policymakers in global economic governance

We Count, We Matter Christopher Steed, 2018-02-05 This book examines the meaning of Brexit the election of Trump and the rising tide of populist revolt on the right amidst the collapse of the left Exploring the reaction against the establishment or the system the author contends that we are witnessing a new divide between those who wish to see an interconnected world and those who seek distance as transport and technology shrink the world we witness a backlash that

favours protectionism and opposes immigration Distance is the new frontier for some remote players are rejected in favour of identities closer to home This divide plays out in relation to the notion of face as individuals react to faceless organisations and processes such as globalisation and automation responding to a sense of alienation on social media and developing a conception of themselves as networked individuals Thus we move towards a type of society characterised not by honour and dishonour or right and wrong but by voice and choice A fascinating and very accessible analysis of the divisions and transformations that have come to dominate the contemporary landscape this book will appeal to political leaders and social scientists with interests in globalisation social movements and social theory

Security and Defence Policy in the European Union
Jolyon Howorth, 2014-06-10 The Common Security and Defence Policy CSDP has come a long way since its inception as the European Security and Defence Identity under NATO Yet more than a decade after emerging as an autonomous entity with its own capacity for civilian crisis management and military action the European Union's CSDP is still very much a work in progress This fully revised and updated new edition provides the most comprehensive account available of the CSDP and the debates surrounding it Written by a leading authority in the field the second edition draws on the author's own extensive research in the area including hundreds of interviews with key actors and takes account of developments since the reforms of the Lisbon Treaty A brand new chapter assesses international relations theory and European integration theory as tools to understand the CSDP and critically engages with theoretical approaches that view security and defence policy as the exclusive domain of sovereign nation states The book concludes with an analysis of future hurdles for the European Union as it responds to new and often unpredictable crises across the globe

The Routledge Handbook of Lexicography Pedro A. Fuertes-Olivera, 2017-10-02 The Routledge Handbook of Lexicography provides a comprehensive overview of the major approaches to lexicography and their applications within the field This Handbook features key case studies and cutting edge contributions from an international range of practitioners teachers and researchers Analysing the theory and practice of compiling dictionaries within the digital era the 47 chapters address the core issues of The foundations of lexicography and

its interactions with other disciplines including Corpus Linguistics and Information Science Types of dictionaries for purposes such as translation and teaching Innovative specialised dictionaries such as the Oenolex wine dictionary and the Online Dictionary of New Zealand Sign Language Lexicography and world languages including Arabic Hindi Russian Chinese and Indonesian The future of lexicography including the use of the Internet user participation and dictionary portals The Routledge Handbook of Lexicography is essential reading for researchers and students working in this area *The China Paradox* Paul G. Clifford, 2021-12-06 In *The China Paradox* At the Front Line of Economic Transformation Harvard University based historian of modern China and business strategist Dr Paul G Clifford documents the twists and turns of China's dramatic and unforeseen rise over the last four decades He sheds light on the delicate and fragile balance of forces at the heart of the success of China's hybrid model explaining how the ruling Communist Party boldly led the nation's economic reforms as the surest way to preserve its grip on political power Five years after this book was first published much has changed within China and in its relationship with the world This second edition provides extensive fresh new material It explains how China has raised its game moving from a catch up mode to technological innovation in some areas while still languishing in technology dependence in other respects Earlier China had shown signs that its driving spirit was faltering with its sails flapping Under Xi Jinping renewed energy has been injected But at the same time Xi and his party have strongly reinforced their control across society and the economy posing the question of whether Xi's New Era in fact marks a retreat from the reforms This second edition contains two new chapters One profiles Huawei a national champion in advanced technology Another focuses on China's frictions with the world which have been fueled by a perception that its technology progress threatens US global dominance coupled with China's human rights record In addition against a background of the challenges faced by Alibaba and other firms there is analysis of this watershed in China's private sector's autonomy There is also extensive new insight into Xi Jinping's rule As it celebrates its 100th anniversary in 2021 the Chinese Communist Party displays strong optimism over its continued governance of China But that should not mask the longer term risks to China's development and stability if its hybrid model continues to unravel as reforms are abandoned in favor of heightened autocracy

Understanding Globalisation Nirmal Jindal, Kamal Kumar, 2023-11-10 The book examines contemporary globalisation which signifies a growing interconnectedness between people and societies across the world through increasing flows of people goods services finance and ideas across the borders The concept of globalisation and its meaning is discussed through insights from scholars such as David Held Anthony Giddens David Harvey Arjun Appadurai Ulrich Beck Manuel Castells Saskia Sassen and many other scholars to explain divergent perspectives of globalisation The book also studies threats like nuclear weapons proliferation global terrorism environmental security issues global justice poverty migration and global shifts It aims to generate readers interest in understanding globalisation and analysing the changing dynamics of world politics by studying it from diverse viewpoints The emergence of COVID 19 and resurgence of great power politics has given

rise to the debate of de globalisation and return of a new kind of cold war In this context this volume will also help readers to understand globalisation in the present changing world order The book will be useful to the students of political science international relations and other interdisciplinary social sciences subjects like political economy and global international politics

An Alternative Approach to Liquidity Risk Management of Islamic Banks Muhammed Habib Dolgun, Abbas Mirakhor,2021-01-18 Despite noticeable growth in Islamic banking and finance literature in recent years very few published books in this area deal with supervisory and regulatory issues in Islamic banking theoretically or empirically and none with the critical issue of risks involved in liquidity management of Islamic banks This unique book is the first of its kind in dealing with challenges these financial institutions face in the absence of interest rate mechanism and debt based financial instruments The book examines critically

issues involve in managing the risk of liquidity management for these types of institutions including those stemming from Basel requirements It then offers an alternative regulatory framework more appropriately suited for such banks without compromising safety and security The book s unique features and innovative dimensions diagnostically differentiate between Islamic banks and conventional banks as related to liquidity management risks It proposes a risk sharing regulatory framework that once implemented would mitigate risks posed by balance sheet mismatches The book aims to assist regulators supervisors Islamic finance practitioners academicians and other relevant stakeholders

Danger Zone: The Coming Conflict with China Michael Beckley, Hal Brands, 2022-08-16 A provocative and urgent analysis of the U S China rivalry It has become conventional wisdom that America and China are running a superpower marathon that may last a century Yet Hal Brands and Michael Beckley pose a counterintuitive question What if the sharpest phase of that competition is more like a decade long sprint The Sino American contest is driven by clashing geopolitical interests and a stark ideological dispute over whether authoritarianism or democracy will dominate the 21st century But both history and China s current trajectory suggest that this rivalry will reach its moment of maximum danger in the 2020s China is at a perilous moment strong enough to violently challenge the existing order yet losing confidence that time is on its side Numerous examples from antiquity to the present show that rising powers become most aggressive when their fortunes fade their difficulties multiply and they realize they must achieve their ambitions now or miss the chance to do so forever China has already started down this path Witness its aggression toward Taiwan its record breaking military buildup and its efforts to dominate the critical technologies that will shape the world s future Over the long run the Chinese challenge will most likely prove more manageable than many pessimists currently believe but during the 2020s the pace of Sino American conflict will accelerate and the prospect of war will be frighteningly real America Brands and Beckley argue will still need a sustainable approach to winning a protracted global competition But first it needs a near term strategy for navigating the danger zone ahead
