Ethiopian Driving Penalties And Rule In Amharic:

Prosecution of Core Crimes in Ethiopia Tadesse Simie Metekia, 2021-03-08 Tadesse Simie Metekia's *Prosecution of Core Crimes in Ethiopia* offers an in-depth analysis of core crimes trials in Ethiopia within the broader frame of international criminal law. This book is a result of an unprecedented data collection, a meticulous exploration of relevant national and international norms and case laws as well as a full engagement with the existing literature on the domestic application of international criminal law. A comparative examination of the actual trials and the manner in which Ethiopia set prosecutions of core crimes in motion. Metekia's book is a significant achievement in terms of furthering academic knowledge and of contributing to the wider policy debates on international criminal justice and on the role of states in prosecuting atrocities.

Fisher, 1969 **Youth on the Move** Asnake Kefale, Fana Gebresenbet, 2021-09-30 At a time when policies are increasingly against it, international migration has become the subject of great public and academic attention. This book departs from the dominant approach of studying international migration at macro level and from the perspective of destination countries. The contributors here seek to do more than scratch the surface of the migration process by foregrounding the voices and views of Ethiopian youth, potential migrants and returnees and of their sending communities. The volume focuses on the perspective and agency of these young people, both potential migrants and returnees, to better understand migration decision-making experiences and outcomes. It brings together rarely documented cases of young men and women from several communities across Ethiopia migrating to the Gulf and South Africa. Explaining the agency of local actors, prospective migrants, brokers and sending families. *Youth on the Move* illuminates the pervasive, persistent failure of state attempts to regulate migration. Moreover, it examines the financing of migration and the sharing of remittances within a culturally situated moral economy. While accounts centred on economics and political violence are important, the contributors demonstrate compellingly that these factors alone cannot provide a full understanding of migration's complexity nor of its social realities. *Press Digest*, 2003 *Running to the Fire* Ken Isaacs, Robert Noland, 2025-09-09 Offering an emotionally moving insider view to the most devastating global disasters of the past 35 years, international relief leader testifies of what God can do in the worst of circumstances, showing how you can be a Good Samaritan in Jesus' name, whether across the street or on the other side of the
