

## **DEDICATION**

I dedicate my dissertation work to my family and many friends. A special feeling of gratitude to my loving parents, William and Louise Johnson whose words of encouragement and push for tenacity ring in my ears. My sisters Katie, Linda and Rhonda have never left my side and are very special.

I also dedicate this dissertation to my many friends and church family who have supported me throughout the process. I will always appreciate all they have done, especially Suquesta Myers for helping me develop my technology skills, LaTanja Riley-Hedgepeth for the many hours of proofreading, and Ramona Taylor for helping me to master the leader dots.

I dedicate this work and give special thanks to my best friend Nelson L. Jennings and my wonderful daughter Cimone for being there for me throughout the entire doctorate program. Both of you have been my best cheerleaders.

*Writing up your Research for a Dissertation or Thesis* Dan Remenyi, Frank Bannister, 2022-01-01 In some circles there is an attitude that academic research consists of two distinct activities The first of these is the execution of the research activities themselves and the second is writing it up in such a way that it may be presented either for a degree or for publication in a scholarly journal This is an archaic attitude towards conducting academic research in the 21st century The writing up of research is an integral part of the research itself which should begin at the outset of the research activity It is increasingly appreciated that the writing of ideas is a major contributor to their proper understanding Leaving the writing until the end does not only lead to an accumulation of tiresome work but actually detracts from the learning available to the researcher through the research experience This book addresses these issues as well as explaining what the requirements are to produce a readily acceptable research dissertation Readers of this book have my best wishes in achieving their objectives through their work with academic research
