**How Firms Cope with Crime and Violence** Michael Goldberg, Kwang W. Kim, Maria Ariano, 2014-01-23 Crime and violence inflict high and rising costs on the private sector equivalent to several points of GDP loss In light manufacturing international purchasers quickly shift know how and capital to less violent destinations and behind the statistics are human costs lost jobs working capital spent on security contraband fraud and corruption *Making It* Ellen T. Meiser, 2024-10-11 The restaurant industry is one of the few places in America where workers from lower class backgrounds can rise to positions of power and prestige But what determines who succeeds or fails in this pressure cooker environment Through extensive interviews and fieldwork sociologist Ellen Meiser discovers how status in the kitchen is tied to knowledge interpersonal skills and emotional labor New Private Law Theory Stefan Grundmann, Hans-W. Micklitz, Moritz Renner, 2021-03-18 New Private Law Theory is pluralist comparative application oriented transnational and reflects critical approaches *István Szabó* Susan Rubin Suleiman, 2024-01-25 István Szabó is one of the few Hungarian filmmakers to have earned a major international reputation over the past half century This thoughtful and original book is the first examination of Szabó's contribution to contemporary thought engaging the troubled history of Europe in the 20th and 21st centuries István Szabó's importance as a filmmaker lies not only in his attention to film's formal elements but in his deep and ongoing engagement with some of the most urgent ethical and existential questions of our time With detailed analyses of István Szabó's major films from his 1960s works to his Academy Award for Best Foreign Film winner *Mephisto* and on through Szabó's last film in 2020 *Final Report* Susan Rubin Suleiman focuses on four important questions pertaining to existential choice to leave home or to stay in a communist country To collaborate or not with an authoritarian regime To affirm or to deny one's Jewishness in the face of antisemitism To seek or to give up on community in the face of individual or national conflicts Above all Suleiman addresses the single most important philosophical question that haunts Szabó's work as it does that of many other Central European intellectuals and filmmakers of our time That is how do individuals attempt through the life choices they make or that are foisted on them to create a viable self in extreme historical situations over which they have no control

**The State Must Be Our Master of Fire** Dennis C. Galvan, 2004-06-17 Publisher Description The Code of Capital Katharina Pistor, 2020-11-03 Capital is the defining feature of modern economies yet most people have no idea where it actually comes from What is it exactly that transforms mere wealth into an asset that automatically creates more wealth The Code of Capital explains how capital is created behind closed doors in the offices of private attorneys and why this little known fact is one of the biggest reasons for the widening wealth gap between the holders of capital and everybody else In this revealing book Katharina Pistor argues that the law selectively codes certain assets endowing them with the capacity to protect and produce private wealth With the right legal coding any object claim or idea can be turned into capital and lawyers are the keepers of the code Pistor describes how they pick and choose among different legal systems and legal

devices for the ones that best serve their clients needs and how techniques that were first perfected centuries ago to code landholdings as capital are being used today to code stocks bonds ideas and even expectations assets that exist only in law A powerful new way of thinking about one of the most pernicious problems of our time The Code of Capital explores the different ways that debt complex financial products and other assets are coded to give financial advantage to their holders This provocative book paints a troubling portrait of the pervasive global nature of the code the people who shape it and the governments that enforce it Provided by publisher **The Accidental Proletariat** Walter D. Connor,2014-07-14 Walter Connor shows how the seven decades since Stalin launched the First Five Year plan have changed Soviet workers from a disorganized mass of unskilled ex peasants into something very much like a class not the working class intended by Lenin and Stalin but a new and powerful accidental proletariat produced by forces partly beyond the state s control Does this new proletariat threaten glasnost and perestroika To address that question Connor examines the growth of the new class and its role in the crisis ridden politics of Gorbachev s USSR In this book as in his earlier works Connor focuses on the interplay of social and political forces Do workers support economic reform he asks or oppose it Are they beneficiaries or victims of Gorbachev s policies Can a Soviet state already under severe ethnic and economic strains accommodate an emergent working class politics Connor probes these issues in a work that is essential reading for students of Russian politics government officials faced with the uncertainties of a new Russia and people seeking to do business in any economy previously isolated behind geographical military and institutional barriers Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Migrants at Work** Cathryn Costello,Mark Freedland,2014-10-30 There is a highly significant and under considered intersection and interaction between migration law and labour law Labour lawyers have tended to regard migration law as generally speaking outside their purview and migration lawyers have somewhat similarly tended to neglect labour law The culmination of a collaborative project on Migrants at Work funded by the John Fell Fund the Society of Legal Scholars and the Research Centre at St John s College Oxford this volume brings together distinguished legal and migration scholars to examine the impact of migration law on labour rights and how the regulation of migration increasingly impacts upon employment and labour relations Examining and clarifying the interactions between migration migration law and labour law contributors to the volume identify the many ways that migration law as currently designed divides the objectives of labour law privileging concerns about the labour supply and demand over worker protective concerns In addition migration law creates particular forms of status which affect employment relations thereby dividing the subjects of labour law Chapters

cover the labour laws of the UK Australia Ireland Israel Italy Germany Sweden and the US References are also made to discrete practices in Brazil France Greece New Zealand Mexico Poland and South Africa These countries all host migrants and have developed systems of migration law reflecting very different trajectories Some are traditional countries of immigration and settlement migration while others have traditionally been countries of emigration but now import many workers There are nonetheless common features in their immigration law which have a profound impact on labour law for instance in their shared contemporary shift to using temporary labour migration programmes Further chapters examine EU and international law on migration labour rights human rights and human trafficking and smuggling developing cross jurisdictional and multi level perspectives Written by leading scholars of labour law migration law and migration studies this book provides a diverse and multidisciplinary approach to this field of legal interaction of interest to academics policymakers legal practitioners trade unions and migrants groups alike State of Ambiguity Steven Palmer, José Antonio

Piqueras, Amparo Sánchez Cobos, 2014-04-25 Cuba's first republican era 1902-1959 is principally understood in terms of its failures and discontinuities typically depicted as an illegitimate period in the nation's history its first three decades and the overthrow of Machado at best a prologue to the real revolution of 1959 *State of Ambiguity* brings together scholars from North America Cuba and Spain to challenge this narrative presenting republican Cuba instead as a time of meaningful engagement socially politically and symbolically Addressing a wide range of topics civic clubs and folkloric societies science public health and agrarian policies popular culture national memory and the intersection of race and labor the contributors explore how a broad spectrum of Cubans embraced a political and civic culture of national self realization Together the essays in *State of Ambiguity* recast the first republic as a time of deep continuity in processes of liberal state and nation building that were periodically disrupted but also reinvigorated by foreign intervention and profound uncertainty

Contributors Imilcy Balboa Navarro Alejandra Bronfman Maikel Fari as Borrego Reinaldo Funes Monzote Marial Iglesias Utset Steven Palmer Jos Antonio Piqueras Arenas Ricardo Quiza Moreno Amparo Sánchez Cobos Rebecca J Scott Robert Whitney *Property* Hanoch Dagan, 2011-03-18 *Property Values and Institutions* by Hanoch Dagan offers an original understanding of property different from the dominant voices in the field yet loyal to the practice of property It rejects the misleading dominant binarism in which property is either one monistic form structured around Blackstone's in famous formula of sole and despotic dominion or a formless bundle of rights Instead it conceptualizes property as an umbrella for a set of institutions bearing a mutual family resemblance It resists the prevailing tendency to discuss property through the prism of only one particular value notably efficiency Dagan argues that property can and should serve a pluralistic set of liberal values These property values include not only autonomy and utility which are emphasized by many contemporary scholars but also labor personhood community and distributive justice Dagan claims that property law at least at its best tailors different configurations of entitlements to different property institutions with each such institution designed to match

the specific balance between property values best suited to its characteristic social setting Dagan develops this theoretical account and applies it to key doctrinal contexts In particular he analyzes the normative underpinnings of the doctrines regulating the interactions between landowners and governments both eminent domain and regulatory takings doctrines and those regulating the governance of property owned by multiple owners such as co ownership marital property and the law of common interest communities

**Secession from a Member State and Withdrawal from the European Union** Carlos Closa,2017-09-07 The first book to jointly analyse withdrawal of a member state from the EU i e Brexit and territorial secession

**Exile, Statelessness, and Migration** Seyla Benhabib,2018-09-11 An examination of the intertwined lives and writings of a group of prominent twentieth century Jewish thinkers who experienced exile and migration Exile Statelessness and Migration explores the intertwined lives careers and writings of a group of prominent Jewish intellectuals during the mid twentieth century in particular Theodor Adorno Hannah Arendt Walter Benjamin Isaiah Berlin Albert Hirschman and Judith Shklar as well as Hans Kelsen Emmanuel Levinas Gershom Scholem and Leo Strauss Informed by their Jewish identity and experiences of being outsiders these thinkers produced one of the most brilliant and effervescent intellectual movements of modernity Political philosopher Seyla Benhabib s starting point is that these thinkers faced migration statelessness and exile because of their Jewish origins even if they did not take positions on specifically Jewish issues personally The sense of belonging and not belonging of being eternally half other led them to confront essential questions What does it mean for the individual to be an equal citizen and to wish to retain one s ethnic cultural and religious differences or perhaps even to rid oneself of these differences altogether in modernity Benhabib isolates four themes in their works dilemmas of belonging and difference exile political voice and loyalty legality and legitimacy and pluralism and the problem of judgment Surveying the work of influential intellectuals Exile Statelessness and Migration recovers the valuable plurality of their Jewish voices and develops their universal insights in the face of the crises of this new century

*The Political* Stefano Bartolini,2018-02-19 Politics is a noun that points to a field or sphere of human activity and interaction Political is an adjective that usually associates with other names to qualify and specify them Political behaviour political institutions political participation and political groups denote special kinds of behaviour institutions participation and groups whose specialty resides in their being political What does this specification refer to This is the question that this book aims to answer The book unpacks the politics understood as the production and distribution of behavioural compliance as opposed to the view of politics as a distribution of values an aggregation of preferences or a solution to social dilemmas Starting from a motivational definition of elementary political action the endeavour proceeds to a differentiation of compliance instigations in different social fields of interaction characterised by various levels of confinement of the actors and of monopolisation of command

**The Virtues of Exit** Jennet Kirkpatrick,2017-10-03 Successful democracies rely on an active citizenry They require citizens to participate by voting serving on juries and running for office But what happens when those citizens purposefully opt out of politics Exit the

act of leaving is often thought of as purely instinctual a part of the human fight or flight response or alternatively motivated by an antiparticipatory self centered impulse However in this eye opening book Jennet Kirkpatrick argues that the concept of exit deserves closer scrutiny She names and examines several examples of political withdrawal from Thoreau decamping to Walden to slaves fleeing to the North before the Civil War In doing so Kirkpatrick not only explores what happens when people make the decision to remove themselves but also expands our understanding of exit as a political act illustrating how political systems change in the aftermath of actual or threatened departure Moreover she reframes the decision to refuse to play along whether as a fugitive slave a dissident who is exiled but whose influence remains or a government in exile as one that shapes political discourse historically and today Living Undivided Chuck Mingo,2024-01-09 As the church and as a country we ve often neglected and avoided addressing the impact and ongoing reality of racism We ve been more focused on order than justice more concerned with social media posturing than solidarity more committed to judgment than repentance But God s people are called to more We need to lead the way to true racial healing solidarity and justice Through enlightening history and eye opening personal stories Living Undivided will equip and empower you with the biblical transformative tools you need to move from just hoping and wishing for racial justice to actionable change that makes a difference in your life and the lives of churches neighborhoods and cities **Trump and Iran** Nader Entessar,Kaveh L. Afrasiabi,2019-11-20 With the advent of the Trump Administration relations between Iran and the United States have become increasingly conflictual to the point that a future war between the two countries is a realistic possibility President Trump has unilaterally withdrawn the US from the historic Iran nuclear accord and has re imposed the nuclear related sanctions which had been removed as a result of that accord Reflecting a new determined US effort to curb Iran s hegemonic behavior throughout the Middle East Trump s Iran policy has all the markings of a sharp discontinuity in the Iran containment strategy of the previous six US administrations The regime change policy spearheaded by a hawkish cabinet with a long history of antipathy toward the Iranian government has become the most salient feature of US policy toward Iran under President Trump This turn in US foreign policy has important consequences not just for Iran but also for Iran s neighbors and prospects of long term stability in the Persian Gulf and beyond This book seeks to examine the fluid dynamic of US Iran relations in the Trump era by providing a social scientific understanding of the pattern of hostility and antagonism between Washington and Tehran and the resulting spiraling conflict that may lead to a disastrous war in the region **Rude Republic** Glenn C. Altschuler,Stuart M. Blumin,2021-05-11 What did politics and public affairs mean to those generations of Americans who first experienced democratic self rule Taking their cue from vibrant political campaigns and very high voter turnouts historians have depicted the nineteenth century as an era of intense and widespread political enthusiasm But rarely have these historians examined popular political engagement directly or within the broader contexts of day to day life In this bold and in depth look at Americans and their politics Glenn Altschuler and Stuart Blumin argue for a more complex understanding of

the space occupied by politics in nineteenth century American society and culture Mining such sources as diaries letters autobiographies novels cartoons contested election voter testimony to state legislative committees and the partisan newspapers of representative American communities ranging from Massachusetts and Georgia to Texas and California the authors explore a wide range of political actions and attitudes They consider the enthusiastic commitment celebrated by historians together with various forms of skepticism conflicted engagement detachment and hostility that rarely have been recognized as part of the American political landscape Rude Republic sets the political parties and their noisy and attractive campaign spectacles as well as the massive turnout of voters on election day within the communal social structure and calendar the local human landscape of farms roads and county towns and the organizational capacities of emerging nineteenth century institutions Political action and engagement are set too within the tide of events the construction of the mass based party system the gathering crisis over slavery and disunion and the gradual expansion of government and of cities in the post Civil War era By placing the question of popular engagement within these broader social cultural and historical contexts the authors bring new understanding to the complex trajectory of American democracy The New Politics of European Civil Society Ulrike Liebert,Hans-Jörg Trenz,2011 This multi disciplinary book captures the evolving practices of European civil society that stretch across the local national European and global realm It consolidates existing research and reviews its conceptual normative and empirical analytical foundations **Laboring for Freedom** Daniel Jacoby,1998 This text offers interpretation of American labor history that makes workers unquenchable thirst for freedom its central theme In doing so it breaks free from standard treatises in which the issues of class conflict and American exceptionalism have been dominant This interdisciplinary narrative fleshes out the conditions under which workers have lived and labored The author contends that labor protests against these conditions flow from an American tradition invoking the primacy of inalienable rights and that these protests clash with the equally American traditions asserting a nearly absolute liberty of individual contract **Revolution and Counterrevolution in Poland, 1980-1989** Andrzej Paczkowski,2015 Examines the 1980 Solidarity revolution in Poland the government s subsequent establishment of martial law in response in 1981 and the eventual transition to democracy in 1989
