Government and Public Services John Brown, Pat Gaudin, Wendy Moran, 2013-07-03 In the UK's current climate of budget cuts and policy changes local government officials need to be aware of best practice in both broadcasting their services and responding to crises in their communities. Meanwhile changes in the media from the rise of social media to web access for older consumers present new challenges for local councils about how to best convey their key messages and protect their brand. Full of expert advice, tools and case studies from a variety of sources, *PR and Communication in Local Government and Public Services* is a practical reference guide to delivering professional public relations for both communications and the delivery of local services. It offers a detailed analysis of the issues that are unique to this challenging and fast-moving environment whilst reinforcing the importance of effective and meaningful communication to both local democracy and the planning and delivery of quality services. *PR and Communication in Local Government and Public Services* is also supported by a range of online resources including case studies, appendices and a bonus chapter on local authority publicity. About the PR in Practice series: Published in collaboration with the Chartered Institute of Public Relations (CIPR), the PR in Practice series comprises accessible practical introductions to day-to-day issues of public relations practice and management. The series' action-oriented approach keeps knowledge and skills up to date. [Dictionary of Media and Communication Studies](#) James Watson, Anne Hill, 2015-10-22 The *Dictionary of Media and Communication Studies* has provided students and the general public alike with a gateway into the study of intercultural communication, public relations and marketing communications since 1984. In this 9th edition, James Watson and Anne Hill provide a detailed compendium of the different facets of personal, group, mass media and internet communication that continues to be a vital source of information for all those interested in how communication affects our lives. They cover new applications and developments such as the incorporation of Neuroscience techniques in advertising and marketing. Other updates include Cyber bullying, Twitter scandals, conduct in media organizations, on-line lobbying, global protesting, petitioning and gender issues relating to social media in general. While new entries explore the profound shifts that have taken place in the world of communication in recent years, the purpose of this new edition is not necessarily to keep abreast of every new media event but to reflect the trends that influence and prompt such events such as the Leveson Inquiry and Report and phone hacking via mobile phones. Politics seems to be playing out more on Twitter than in *The Times*. This volume seeks to make its twenty-first century readers more media literate as well as more critical consumers of modern news. *Entwicklung durch Interaktion* Astrid Spatzier, 2017-05-09 Neben einer historiografischen Analyse illustriert Astrid Spatzier in einer empirischen Berufsfeldstudie Rahmenbedingungen und deren Einfluss auf Verständnis und Handlungsweisen von Praktikerinnen und Praktikern. Die Bezugnahme auf den Symbolischen Interaktionismus verspricht dabei eine Verschränkung von Mikro-, Meso- und Makro-Perspektiven, in dem die Handlungsebene in Abhängigkeit von organisationalen und gesellschaftlichen Bedingungen betrachtet wird. Zudem zeigt die Autorin Entwicklungsmöglichkeiten für Public Relations und Organisationskommunikation.

Propaganda and Nation Building Kevin Hora, 2017-04-28 This book examines the origins of Ireland in its first independent incarnation the Irish Free State 1922-1937 It explores how contemporary public relations and propaganda techniques were used to construct an identity for this new state a state which after enduring seven years of insurrection and civil war became one of the most stable democracies in Europe This stability the book argues was constructed not solely through policies enacted by governments but through the construction of a Gaelic Catholic and Celtic national identity By shifting the perspective to how nation building was communicated it weaves an interdisciplinary narrative that initiates a new understanding of nation building providing insights of increasing relevance in current world events Avoiding a simplistic cause and effect history of public relations the book examines the uses and effects of early public relations from a political and societal perspective and suggests that while governments were only modestly successful in their varied propaganda efforts cumulatively they facilitated a transition from violence to peace This will be of interest to researchers and advanced students with an interest in public relations propaganda studies nation building and Irish studies
