Kraybill, 2017-09-12 In this unique educational history Donald B Kraybill traces the sociocultural transformation of Eastern Mennonite University from a fledgling separatist school founded by white rural Germanic Mennonites into a world engaged institution populated by many faith traditions cultures and nationalities The founding of Eastern Mennonite School later Eastern Mennonite University in 1917 came at a pivotal time for the Mennonite community Industrialization and scientific discovery were rapidly changing the world and the increasing availability of secular education offered tempting alternatives that threatened the Mennonite way of life In response the Eastern Mennonites founded a school that would uphold the principles of plainness and simplicity where youth could learn the Bible and develop skills that would help advance the church In the latter half of the twentieth century the university s identity evolved from separatism to social engagement in the face of churning moral tides and accelerating
