This is the seventh edition of the leading work on transnational and comparative commercial financial and trade law covering a wide range of complex topics in the modern law of international commerce and finance. As a guide for students and practitioners it has proven to be unrivalled. The work is divided into three volumes each of which can be used independently or as part of the complete work. Volume 1 in the first chapter covers the roots and foundations of private law, the different origins, structure and orientation of civil and common law, the forces behind the emergence of a new transnational commercial and financial legal order, its meaning, concepts and operation, the theoretical basis of the transnationalisation of the law in the professional sphere in that order, its methodology and the autonomous sources of the new law merchant or modern *lex mercatoria*, its international finance driven impulses and its relationship to domestic and transnational public policy and public order requirements. The second chapter covers the transnationalisation of dispute resolution in that order, especially international arbitration and contains a critical analysis of the main challenges to its success, continuing credibility and effectiveness. All three volumes may be purchased separately or as part of a single set.

**Dalhuisen on Transnational and Comparative Commercial, Financial and Trade Law Volume 2** Jan H Dalhuisen, 2022-04-07 remains a must read for practitioners and academics interested in more than the substantive law of trans border commercial activity. *King's Law Journal* Volume 2 of this new edition covers the transnationalisation of dispute resolution, especially arbitration and contains a critical analysis of the main challenges to its success, continuing credibility and effectiveness. The volume distinguishes between commercial financial and foreign investment arbitration and concentrates on the status, role and reasoning of international arbitrators, their limited powers, especially in matters of public policy and in property matters, the threat of judicialisation and the need to connect with mediation and a settlement ethos. The complete set in this magisterial work is made up of 6 volumes. Used independently, each volume allows the reader to delve into a particular topic. Alternatively, all volumes can be read together for a comprehensive overview of transnational comparative commercial financial and trade law.
