Environmental Education Matthew Etherington, 2023-08-03 This book has a single motif and a dual purpose Its motif is the portrayal of influential authors within an environmental framework and worldview The design is presented in different ways in which environmental understandings might be understood The purposes are to engender in the reader a broad knowledge of some of the ideas and problems inherent in a discussion of nature and the environment and to stimulate the reader to go further into the sources of their tradition and worldview in search of meaning and insights that are uniquely relevant to their philosophy

Changing Conceptions, Changing Practices Angela Glotfelter, Caitlin Martin, Mandy Olejnik, Ann Updike, Elizabeth Wardle, 2022-12-28 Changing Conceptions Changing Practices demonstrates that it is possible for groups of faculty members to change teaching and learning in radical ways across their programs despite the current emphasis on efficiency and accountability Relating the experiences of faculty from disciplines as diverse as art history economics psychology and philosophy this book offers a theory and research based heuristic for helping faculty transform their courses and programs as well as practical examples of the heuristic in action The authors draw on the threshold concepts framework research in writing studies and theories of learning leadership and change to deftly explore why faculty are often stymied in their efforts to design meaningful curricula for deep learning and how carefully scaffolded professional development for faculty teams can help make such change possible This book is a powerful demonstration of how faculty members can be empowered when professional development leaders draw on a range of scholarship that is not typically connected In today's climate courses programs and institutions are often assessed by and rewarded for proxy metrics that have little to do with learning with grave consequences for students The stakes have never been higher particularly for public higher education Faculty members need opportunities to work together using their own expertise and to enact meaningful learning opportunities for students Professional developers have an important role to play in such change efforts WAC scholars and practitioners leaders of professional development and centers for teaching excellence program administrators and curriculum committees from all disciplines and faculty innovators from many fields will find not only hope but also a blueprint for action in Changing Conceptions Changing Practices Contributors Juan Carlos Albarr n Jos Amador Annie Dell Aria Kate de Medeiros Keith Fennen Jordan A Fenton Carrie E Hall Elena Jackson Albarr n

Rhetoric and Discourse in Supreme Court Oral Arguments Ryan A. Malphurs, 2013 While legal scholars psychologists and political scientists commonly voice their skepticism over the influence oral arguments have on the Court's voting pattern this book offers a contrarian position focused on close scrutiny of the justices' communication within oral arguments Malphurs examines the rhetoric discourse and subsequent decision making within the oral arguments for significant Supreme Court cases visiting their potential power and danger and revealing the rich dynamic nature of the justices' interactions among themselves and the advocates In addition to offering advancements in scholars' understanding of

oral arguments this study introduces Sensemaking as an alternative to rational decision making in Supreme Court arguments suggesting a new model of judicial decision making to account for the communication within oral arguments that underscores a glaring irony surrounding the bulk of related research the willingness of scholars to criticize oral arguments but their unwillingness to study this communication With the growing accessibility of the Court's oral arguments and the inevitable introduction of television cameras in the courtroom this book offers new theoretical and methodological perspectives at a time when scholars across the fields of communication law psychology and political science will direct even greater attention and scrutiny toward the Supreme Court
