Reforming Theological Anthropology F. LeRon Shults, 2003-02-20 With the profound changes in today's intellectual and scientific landscape traditional ways of speaking about human nature sin and the image of God have lost their explanatory power In this volume F LeRon Shults explores the challenges to and opportunities for rethinking current religious views of humankind in contemporary Western culture From philosophy to theology from physics to psychology we find a turn to the categories of relationality Shults briefly traces this history from Aristotle to Levinas showing its impact on the Christian doctrine of anthropology and he argues that the biblical understanding of humanity has much to contribute to today's dialogue on persons and on human becoming in relation to God and others Shults's work stands as a potent effort to reform theological anthropology in a way that restores its relevance to contemporary interpretations of the world and our place in it

A Holy Haunting Sam D. Kim, 2023-04-11 What if we've been looking at faith all wrong What if the rise of spiritual consciousness is not a mere byproduct of cultural factors but an echo resounding from eternity Atheists like Richard Dawkins often mock prayer equating it to calling upon a fairy in the sky This misunderstanding of prayer's purpose pervades western society criticizing those that practice traditional faith as old fashioned or out of touch In *A Holy Haunting* Dr Sam D Kim interacts with this perception of faith and challenges readers to look at faith another way The rise of modernism was both a blessing and curse for the church while modernists articulated belief in a succinct and coherent fashion they reduced the mystery and wonder of faith to nothing more than blind belief According to Dr Sam D Kim faith is not a set of beliefs but a central aspect of human existence defining who they are in the deepest ontological sense Unlike many who discredit the power of the spiritual or immaterial Dr Kim sees human consciousness the soul as evidence of humanity being forged in the corridors of eternity before the primordial universe and the Big Bang A roadmap of discovery for skeptics and believers alike *A Holy Haunting* befriends the doubter challenges the churchgoer and gives fresh perspective to the seeker

The Evolution of a Vow Judith Schaefer, 2009 For centuries the vow of obedience has been at the heart of religious life With the renewal efforts of Vatican II the vow has been dramatically restructured but not theologically re-envisioned *The Evolution of a Vow* Obedience as Decision Making in Communion addresses the changes in

the vow and proposes a renewed theology that supports the living out of obedience in the twenty first century Obedience in communion as a theological proposal invites vowed religious to create a pattern of limitless listening that everywhere seeks the call of God to communion Against the horizon of communion obedience becomes the singular thread of grace by which vowed religious become who they are called to be Zur Genese historischer Denkformen Bodo von Borries,Hans Pandel,2017-01-27 On Becoming a Leadership Coach C. Wahl,C. Scriber,B. Bloomfield,2017-06-30 This book focuses on coaching leaders in the context of the organizational systems within which they lead drawing on the curriculum of the Georgetown University Leadership Coaching Certificate Program one of the premier coach training programs in the world and the only one with this particular focus **Professionalizing Leadership** Barbara Kellerman,2018-02-02 Over the last 40 years the leadership industry has grown exponentially Yet leadership education training and development still fall far short Moreover leaders are demeaned degraded and derided as they never were before Why The problem is leadership has stayed stuck It has remained an occupation instead of becoming a profession Unlike medicine and law leadership has no core curriculum considered essential It has no widely agreed on metric or criteria for qualification And it has no professional association to oversee the conduct of its members or assure minimum standards Professionalizing Leadership looks to a past in which learning to lead was the most important of eruditions It looks to a present in which learning to lead is as effortless as ubiquitous And it looks to a future in which learning to be a leader might look different altogether it might resemble the far more rigorous process of learning to be a doctor or a lawyer As it stands now the military is the only major American institution that gets it right It assumes leadership is a profession that requires those who practice it to be taught in accordance with high professional standards Barbara Kellerman draws on the military experience specifically to develop a template for learning how to lead generally Leadership in the first quarter of the present century is different from what it was even in the last quarter of the past century which is why leadership taught casually and carelessly should no longer suffice Professionalizing Leadership addresses precisely the problem of how to prepare leaders in accordance with professional norms It provides the template necessary for transforming leadership from dubious occupation to respectable profession **Patterns in Practice** Susan K Nichols,2016-07-01 This comprehensive anthology features 47 selected articles from the Journal of Museum Education plus ten new introductory essays by leaders in museum education and related fields The articles and essays explore some of the fundamental issues concerning the role of education in museums today from serving diverse communities to motivating visitors in an informal learning setting The book is divided into five sections which 1 trace the evolution of the museum education profession 2 explore the field s theoretical base 3 consider methods of research used 4 provide examples of how theory is translated into practice and 5 summarize issues relating to professional development Sponsored by the Museum Education Roundtable **Theory of College Student Development** Naijian Zhang,Phyllis McCluskey-Titus,Tony W. Cawthon,2022-07-25 The purpose of Theory of College Student Development is to

provide readers with new theoretical knowledge or a reminder of the foundational and evolving theories that professionals can utilize for understanding and making sense of students behavior Its primary focus is on the integration of knowledge skills and application of such theories in such a way as to emphasize utility and application A unique component is its emphasis on professional competence professional identity and theoretical application Unlike previously published case study books designed to reach student development theory this text utilizes a single case that allows readers to see how a range of theories are applicable to this one case Theories presented for application include both foundational and evolving theoretical perspectives The twelve chapters have been written by both faculty and practitioners Each coeditor and chapter author brings unique perspectives and lens of viewing theory and application representing their experiences talents and expertise It features authors who represent the best of the best and these authors challenged us to be more innovative as we reimagine the evolution of student development theory The editors had two specific audiences in mind faculty and higher education practitioners With over two hundred graduate preparation programs in the United States most offering a student development theory course this book will help graduate faculty both new and seasoned with a mechanism for teaching theory in a fun relevant and innovative way

Dancing in the Wild Spaces of Love James H. Olthuis, 2022-06-08 In the twenty first century amid globalized violence rising demagogues and the climate emergency contemporary philosophers and theologians have begun to debate a fundamental question Is our reality the result of the overflowing ever present creativity of Love or the symptom of a traumatic rupture at the heart of all things Drawing on decades of research in postmodern philosophy and experience as a psychotherapist James H Olthuis wades into this discussion to propose a radical ontology of Love without metaphysics In dialogue with philosophers like John D Caputo Slavoj i ek Luce Irigaray and others Olthuis explores issues from divine sovereignty and the problem of evil to trauma and social ethics Experience in therapeutic work informs these investigations rooting them in journeys with individuals on the path to healing Olthuis makes the bold claim that while trauma pain and suffering are significant parts of our human lives nevertheless Love is with us to the very end Creation is a gift that comes
