Summary of the Robin Hood Case Analysis

During the second year of his insurrection against the sheriff of Nottingham, Robin Hood began to experience several difficulties that posed a threat to the very existence of his band of merry men. The revolt had erupted out of robin's conflict with the sheriff and his administration. However, he alone could do nothing and so he sought allies. Robin Hood spent the first year forging the group into a disciplined band, united in enmity against the sheriff and willing to serve outside the law.

Robin was the C. E. O of the band, making all important decisions and delegating specific task to his lieutenants. The fame of Robin Hood and his merry men spread quickly and recruits were pouring in from every corner of England. The increasing size of the band became the core of Robin's problems as it created many other problems. The band was becoming harder to manage, vigilance and discipline were on the decline, it was beginning to exceed the food capacity of the forest, travellers were now avoiding the forest and the cost of buying food was draining the band's financial reserves.

Robin began to wonder how long the merry men could continue operating with their initial business model and organizational structure. The sheriff was growing stronger and becoming more organized and Robin needed to act swiftly to eliminate the band's weaknesses. His dilemma however, was how would he efficiently and effectively do so. The facts presented clearly suggest that Robin Hood needs to change his strategy and organizational structure in order to come out on top of this situation and turn the tide of events back in his favor.

To formulate an effective plan of action, we conducted a SWOT analysis on the band, suggesting alternative solutions and weighing the pros and cons of each alternative to be able to find the best possible solution to the problems. The band's strengths lied in strong charismatic leadership, high level of skilled man power, dedication of the band members, the unique skills of the lieutenants, support of the farmers and the town's people and constant surveillance of the sheriff and his men.

Despite the band's many strengths, the band had a number of weaknesses including the large size of the band hampering efficient management and his unfamiliarity with many of his band members. There were several opportunities available to the band which offered possible solutions. Robin had always entertained the idea of killing the sheriff but that would only satisfy him personally. It wouldn't solve the situation. His other options were joining the Barons conspiracy to return King Richard in return for future amnesty, reduce man power to eliminate expenses and to move to another area in search of revenue and resources.

Robin had also considered implementing a fixed transit tax, but came up against strong resistance from his lieutenants. The band also had to keep trac

The Ethics of Parenthood Norvin Richards, 2010-07-06 In The Ethics of Parenthood Norvin Richards explores the moral relationship between parents and children from slightly before the cradle to slightly before the grave Richards maintains that biological parents do ordinarily have a right to raise their children not as a property right but as an instance of our general right to continue whatever we have begun The contention is that creating a child is a first act of parenthood hence it ordinarily carries a right to continue as parent to that child Implications are drawn for a wide range of cases including those of Baby Jessica and Baby Richard prenatal abandonment babies switched at birth and sent home with the wrong parents and families separated by war or natural disaster A second contention is that children have a claim of their own to have their autonomy respected and that this claim is stronger the better the grounds for believing that what the child's actions express is a self of the child's own A final

set of chapters concern parents and their grown children Views are offered about what duties parents have at this stage of life about what is required in order to treat grown children as adults and about what obligations grown children have to their parents In the final chapter Richards discusses the contention that parents sometimes have an obligation to die rather than permit their children to make the sacrifices needed to keep them alive arguing that a leading view about this undervalues both love and autonomy

Select students and teachers worked the room at a fundraising event for a New York City public high school Amy Brown calls College Preparatory Academy It was their job to convince wealthy attendants that College Prep with its largely minority and disadvantaged student body and its unusually high rate of graduation and college acceptance was a worthy investment To this end students and teachers tried to seem needy and deserving hoping to make supporters feel generous important and not threatened How much Brown asks does competition for financing in urban public schools depend on marketing and

perpetuating poverty in order to thrive And are the actors in this drama deliberately playing up stereotypes of race and class A Good Investment offers a firsthand look behind the scenes of the philanthropic approach to funding public education a process in which social change in education policy and practice is aligned with social entrepreneurship The appearance of success equity or justice in education Brown argues might actually serve to maintain stark inequalities and inhibit democracy Her book shows that models of corporate or philanthropic charity in education can in fact reinforce the race and class hierarchies that they purport to alleviate As their voices reveal the teachers and students on the receiving end of such a system can be critically conscious and ambivalent participants in a school s racialized marketing and image management Timely and provocative this nuanced work exposes the unintended consequences of an education marketplace where charity masquerades as justice **The Agricultural Education Magazine** ,1955 **American Doctoral Dissertations** ,2001
