**Annual Review of Gerontology and Geriatrics, Volume 7, 1987** K. Warner Schaie, PhD, 1987-11-15 This volume of the ARGG is devoted to the behavioral sciences with particular attention given to topics in experimental and applied psychology With the rapid rate of research in this field of aging the contributors address a number of important basic and applied topics that are underrepresented in other literature [A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942](#) ,1942 **American Book Publishing Record** ,1980 *The National Union Catalog, Pre-1956 Imprints* ,1968 *Roth Memory Course; a Simple and Scientific Method of Improving the Memory and Increasing Mental Power* David Morris Roth, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1918 edition Excerpt or papers to the amusement of the audience and the discomfiture of the speaker Many good talks are spoiled in this way I urge every one to memorize his points if he has the time and you will see that my method requires very little time The effect of any talk without the use of written notes is so much more striking that I advise all my students to practice keeping points in mind by the use of the pigeonholes or the A B C method explained in this lesson Usually we have plenty of advance notice and time in which to prepare a mental Outline An Easy Dependable Way I have evolved an easy quick and dependable way by which such outlines may be fixed in mind This method has solved the only problem that was still vexing men who were known as orators for their thoughts would now and then escape them in an embarrassing way I have been asked frequently to assist students in memorizing a talk just about the time they were to deliver it The time was too short for them to learn the HAT HEN HAM series of mental pigeonholes as taught in Lesson Two Hence the A B C Method which any one can learn and apply in from five to thirty minutes This method is so simple that it is grasped easily and requires almost no preparation The A B C Memory Code Every one knows his A B C's The alphabet presents a Ready Made Outline It is necessary merely to take advantage of this outline I have used the alphabet and selected words that sound like the letters These words suggest familiar objects and ideas which are pictured easily These words have been selected with a great deal of care You can learn them in ten minutes because the sound of every letter of the alphabet suggests the word to represent that letter \_And every word in turn **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
