Chaff and Grain Vivek Sood, 2023-02-18 A PIONEERING WORK ON A highly topical subject Chaff and Grain Guilt Innocence and the Dilemmas of Justice by Vivek Sood goes into the malfunctions of the criminal justice system in India The Supreme Court has gone to the extent of saying that in our criminal justice system the judge presiding over a trial decides on the basis of his sixth sense as to what must have happened during the incident and then lays his trust in God and good luck for coming to the right conclusion In this hard hitting take on the criminal justice process Sood delves into how the innocent end up as undertrials the misuse of the power of arrest by the police unjustified denial of bail manipulated investigations and fake encounters Apart from making out a case for imperative reforms in another important suggestion Sood has redefined hate speech and sedition cases relating to which have been in the news These are offences that legislators and policymakers can look at afresh he says The book also examines the investigations into some of the most controversial cases to hit the headlines in the past two decades Aarushi Talwar Jessica Lal Priyadarshini Mattoo the Telgi fake stamp paper scam and the Nirbhaya rape making it a riveting read

The book covers several high profile cases cracked by him in recent years including the arrest and deportation of Aftab Ansari, the main accused in the shooting at the American Center in Kolkata, the nabbing of Jagtar Singh Tara, the man behind Punjab CM Beant Singh's assassination, and the arrest of Romesh Sharma, a Dawood henchman masquerading as a politician based in Delhi.

Burning Bright Maryam Awaisu, 2014-11-13. *Burning Bright* is not a story about statistics but of an over-achieving young lady who is determined not to let sickle cell anemia stand in her way. Without notice, difficulties that Nadia Habeeb did not foresee complicate her health and love life, changing everything immensely. With the walls of life itself closing in on her, will she stand conqueror this time? If she does, what will be her fate back home in Nigeria with a closed-off heart and physical challenge? This is a story of a family struggling to maintain faith and hope in the face of severe emotional challenges, social upheaval, medical necessity, and the paradox of humanity. Set within the complexities of Nigerian culture, it is the story of young people trying to make their way in a world they didn't make. It is also a story of pain and redemption of love lost and found, generational conflict, and the emergence of true faith.

Greek, Indian and Arabic Logic Dov M. Gabbay, John Woods, 2004-02-06. *Greek, Indian and Arabic Logic* marks the initial appearance of the multi-volume *Handbook of the History of Logic*. Additional volumes will be published when ready rather than in strict chronological order. Soon to appear are *The Rise of Modern Logic: From Leibniz to Frege*. Also in preparation are *Logic: From Russell to Gödel*, *Logic and the Modalities in the Twentieth Century*, and *The Many-Valued and Non-Monotonic Turn in Logic*. Further volumes will follow, including *Mediaeval and Renaissance Logic* and *Logic: A History of its Central Ideas*. In designing the *Handbook of the History of Logic*, the Editors have taken the view that the history of logic holds more than an antiquarian interest and that a knowledge of logic's rich and sophisticated development is in various respects relevant to the research programmes of the present day. Ancient logic is no exception. The present volume attests to the distant origins of some of modern logic's most important features such as can be found in the claim by the authors of the chapter on Aristotle's early logic that from its infancy the theory of the syllogism is an example of an intuitionistic, non-monotonic, relevantly paraconsistent logic. Similarly, in addition to its comparative earliness, what is striking about the best of the Megarian and Stoic traditions is their sophistication and originality. Logic is an indispensably important pivot of the Western intellectual tradition. But as the chapters on Indian and Arabic logic make clear, logic's parentage extends more widely than any direct line from the Greek city-states. It is hardly surprising, therefore, that for centuries logic has been an unfettered international enterprise whose research programmes reach to every corner of the learned world. Like its companion volumes, *Greek, Indian and Arabic Logic* is the result of a design that gives to its distinguished authors as much space as would be needed to produce highly authoritative chapters rich in detail and interpretative reach. The aim of the Editors is to have placed before the relevant intellectual communities a

research tool of indispensable value Together with the other volumes Greek Indian and Arabic Logic will be essential reading for everyone with a curiosity about logic s long development especially researchers graduate and senior undergraduate students in logic in all its forms argumentation theory AI and computer science cognitive psychology and neuroscience linguistics forensics philosophy and the history of philosophy and the history of ideas

Dominic Longo,2017-07-11 Spiritual Grammar identifies a genre of religious literature that until now has not been recognized as such In this surprising and theoretically nuanced study F Dominic Longo reveals how grammatical structures of language addressed in two medieval texts published nearly four centuries apart from distinct religious traditions offer a metaphor for how the self is embedded in spiritual reality Reading The Grammar of Hearts Nahw al qul b by the great Sufi shaykh and Islamic scholar Abd al Karīm al Qushayrī d 1074 and Moralized Grammar Donatus moralizatus by Christian theologian Jean Gerson d 1429 Longo reveals how both authors use the rules of language and syntax to advance their pastoral goals Indeed grammar provides the two masters with a fresh way of explaining spiritual reality to their pupils and to discipline the souls of their readers in the hopes that their writings would make others adept in the grammar of the heart
