Weiss, 2012-05-01 From author and psychotherapist Dr Brian Weiss comes the classic New York Times bestseller on the true case of the past life therapy that changed the lives of both the prominent psychiatrist and young patient involved now featuring a new afterword by the author As a traditional psychotherapist Dr Brian Weiss was astonished and skeptical when one of his patients began recalling past life traumas that seemed to hold the key to her recurring nightmares and anxiety attacks His skepticism was eroded however when she began to channel messages from the space between lives which contained remarkable revelations about Dr Weiss family and his dead son Using past life therapy he was able to cure the patient and embark on a new more meaningful phase of his own career With more than one million copies in print *Many Lives Many Masters* is one of the breakthrough texts in alternative psychotherapy and remains as provocative and timeless as it was when first published *The Science of Spirit* Luis Portela, 2020-12-18 Throughout the 20th century and into the new millennium humanity has made enormous advancements in science and technology Spiritual enlightenment however has gone relatively neglected as fascination with material progress tends to keep us focused on the physical world giving less importance to universal values to being to spiritual life Parapsychological research has produced significant findings over the last few decades and science has the obligation to continue exploring this area seeking to contribute to the spiritual enlightenment of humanity This book examines evidence of traditional psychic phenomena promoting a more comprehensive understanding of them and offering new perspective to see ourselves as particles of universal energy interconnected with all others **The New Metaphysicals** Courtney Bender, 2010-07-15 American spirituality with its focus on individual meaning experience and exploration is usually thought to be a product of the postmodern era But as *The New Metaphysicals* makes clear contemporary American spirituality has historic roots in the nineteenth century and a great deal in common with traditional religious movements To explore this world Courtney Bender combines research into the history of the movement with fieldwork in Cambridge Massachusetts a key site of alternative religious inquiry from Emerson and William James to today Through her ethnographic analysis Bender

discovers that a focus on the new on progress and on the way spiritual beliefs intersect with science obscures the historical roots of spirituality from its practitioners and those who study it alike and shape an enduring set of modern religious possibilities in the process

tune their unique note into the celestial harmony of creation's symphony. It is time for our soul to awaken to its true potential and collectively create a more loving reality. This book is a guidebook on how to do that. It will help you understand how important and perfect your soul's journey through time has been. It will help your mind relax and melt into harmony with all the dimensions of our consciousness. Remembering Awake will help you open the prisons your limbic system has placed you in and dissolve some of the amnesia that keeps you from remembering that only one unconditionally loving soul is here playing Earth. Through this profound awakening you will set your mind and soul free to love all its encounters and feel a peace within that you never dreamed existed. Dr. Julie Foster's mind was trapped in slumber for the first fifty years of her life. In 2020 her hands turned on and she began to feel the energetic entanglements in her patients and humanity that are the root cause of our diseases. She learned that the prescriptions she wrote as a medical doctor were just bandages which quieted symptoms. This epiphany opened her mind and gave her the desire to find a way to help her patients cure rather than conceal their diseases. Through an open heart she remembered we all have a God particle that creates our human suit and can be one with all energy in existence. She learned to surrender and let God heal God by connecting to the God particle in those who came to her for healing. We are the world teacher. Every fragment of our soul has wisdom to share. This book will help you awaken so you can feel blessed by the loving wisdom you have exchanged with others' souls through choosing to play Earth. Julie ends many blogs with I love you. We got this. By the end of the book you will embody the cosmic vibration of those words and share it in your interactions with other amazing versions of your soul. It is time to discover the joy of remembering who you truly are by loving open. Julie's loving stories on how we heal will guide you to this reality.
