Do you really die? T. S. VISWANATHAN, 2015-09-01 The fundamental purpose for me to write this book is to answer the age old question do you really die Is death final or not Does the soul exists and transmigrates if then where when why and how What could be the purpose for this human birth Are we really born and do we exist Or is it just an

illusion Even amongst the human race why the differences I undertook a research in various ancient Sanskrit texts and other scriptures This I analyzed with modern scientific findings especially of Neuro scientists and cardiac specialists in their fields of Near death and Out of body experiences and astonishingly I found that what had been stated in ancient texts well adhered to modern scientific findings There is some energy inside our body called soul and it does not appear to die I find this soul body Universe etc to be within the illusory world Within this framework of illusion the other findings take place like soul migrates soul does not die soul is not the body consciousness and soul are one soul enters other bodies when this body perishes soul seeks evolution soul enters liberation and final settlement At the boundary I would say everything is illusion and nothing what we see may be real These findings I had presented in this book and trust readers would find it useful

Invisible Footprints in Time? Irwin Wislesky, 2020-02-01 Maxine Samuels is a research scientist who is driven to answer a single burning question why has humanity s spiritual connection to a higher power practically disappeared Furthermore what will happen if this connection can t be restored As she examines her world for an answer she realizes that power fear greed corruption and shame have been used throughout history to control people and to prevent them from connecting to the oneness of the world This is the cause of all the conflict anger war and strife we observe and will eventually lead to the demise of humanity However she strongly believes that a flicker of spirituality still exists She hopes to fan it into flame before it goes out and humanity is lost in the dark Maxine is certain that the keys to the future lie in the past She engineers a means to time travel by combining modern science with spirituality and then travels back to places where humanity lost its way She hopes to use this knowledge to nudge civilization back into spiritual alignment in the present The deeper she delves into these mysteries the more she begins to wonder if it s possible to travel to the past without leaving any footprints and she realizes she may be in danger of irreversibly altering the very future that she is trying to save At the same time she realizes that others may already be traveling to the past but with a desire to change things for their own benefit
