African indigenous knowledge systems Africa has been an importer of knowledge from the west since time immemorial and this book contributes to the body of knowledge on autism spectrum disorder ASD from the African perspective As a result decoloniality and Inclusive Education have gained traction within the academic discourse with University of South Africa UNISA hosting decoloniality annual conference and a summer school to stimulate academic discussions and debates with a focus on African indigenous knowledge systems and theoretical lenses as opposed to the western epistemologies The book also demystifies some of the misconceptions that children with ASD are a curse and punishment from God or gods Among others Ubuntu seems to be the dominant theoretical framework underpinning some of the research studies reported in this book

Achieving Gender Justice through Education Arpan Tulsyan,2025-03-05 This book delves into the uncharted territories of how gender dynamics subtly shape educational experiences in Indian schools While traditional educational reforms focus on increasing enrolment and making textbooks more inclusive this book highlights the overlooked yet powerful influence of hidden curriculum the implicit lessons that subtly shape students views on gender caste class and religion Positioned in feminist cultural reproduction perspective and informed by capability approach this book explores education as an object of demand a conduit for diffusion of ideas and a site for gender activism It provides a critical analysis of how schools can be transformed into spaces of empowerment negotiation and resistance for all students Drawing on immersive research that challenges ordinary interactions and processes it expands our understanding of what constitutes curriculum and knowledge Particularly useful for educationists educators policymakers academics curriculum developers teacher training institutes gender studies departments and university centres offering educational studies courses this book offers a captivating read for anyone interested in examining their own educational experiences

Intersections of Identity and Sexual Violence on Campus Jessica C. Harris,Chris Linder,2023-07-03 While sexual violence has been present and prevalent on campus for decades the work of recent college student activists has made it an issue of major societal and institutional concern This book makes an important contribution to and provides a foundation for better contextualizing and understanding sexual violence Each chapter in this edited volume focuses on populations that are not often centered in the discourse of campus sexual violence and accounts for individuals intersecting identities and how they interlock with larger systems of domination Challenging dominant ideologies concerning assumptions of white women as the only victims survivors the racialization of aggressors and the deleterious rape myths present in both research and practice this book draws attention to the complexities of sexual violence on the college campus by highlighting populations that are frequently invisible in research reporting and practice The book places sexual violence on campus in a historical context centering the experiences of populations relegated to the margins and highlighting the relationship between racism classism homophobia transphobia and other forms of domination to sexual violence The final chapters of the book explore how critical models of intervention and prevention and a critical analysis of existing institutional policies may be implemented across college

campuses to better address sexual violence for multiple populations and identities in higher education This book will expand educators understanding of sexual violence to inform more effective policies procedures practice and research that reaches beyond preventing sexual violence and addresses the dominant systems from which sexual violence stems in an attempt to eradicate not just prevent the act and the issue DEVELOPMENTAL PSYCHOLOGY.
