The Disappearing Spoon...and other true tales from the Periodic Table Sam Kean, 2011-04-14 Why did Gandhi hate iodine I 53 Why did the Japanese kill Godzilla with missiles made of cadmium Cd 48 How did radium Ra 88 nearly ruin Marie Curie s reputation And why did tellurium Te 52 lead to the most bizarre gold rush in history The periodic table is one of our crowning scientific achievements but it s also a treasure trove of passion adventure betrayal and obsession The fascinating tales in The Disappearing Spoon follow carbon neon silicon gold and every single element on the table as they play out their parts in human history finance mythology conflict the arts medicine and the lives of the frequently mad scientists who discovered them Why did a little lithium Li 3 help cure poet Robert Lowell of his madness And how did gallium Ga 31 become the go to element for laboratory pranksters The Disappearing Spoon has the answers fusing science with the classic lore of invention investigation discovery and alchemy from the big bang through to the end of time

Summary of Sam Kean's The Disappearing Spoon Everest Media, 2022-07-23T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The periodic table is a chart of the elements and it is available to everyone It is organized and honed but it is still a jumble of long numbers abbreviations and computer error messages 2 The table is made up of different materials in different areas The coordinates of an element determine nearly everything scientifically interesting about it The noble gases are a set of elements in column eighteen at the far right hand side of the table 3 Helium is an example of an element that cannot be broken down or altered by normal chemical means It took scientists 2 200 years to realize what elements really are because most are too changeable 4 The reactivity of the noble gases is rare The most energetic and reactive gases are found in the halogen column to the west and they form an alliance of interests with the alkali metals
