Home: A Very Short Introduction Michael Allen Fox, 2016-12-01 Thoughts and feelings about home traditionally provided people of all cultures with a firm sense of where they belonged and why But with the world rapidly changing many of our basic notions are becoming problematic Both internationally and within countries populations are constantly on the move seeking better opportunities and living conditions or an escape from violence and war In spite of or perhaps even because of these trends ideas about home continue to shape the way people everywhere frame an understanding of their lives In this *Very Short Introduction* Michael Allen Fox considers the complex meaning of home and the essential importance of place to human psychology Drawing on a wide array of international examples he discusses what dwelling is and the variety of dwellings Fox also looks at the politics of the concept of home homelessness refugeeism and migration and the future of home and argues that home remains a central organizing concept in human life

The Domestic Interior and the Self in Contemporary Photography Jane Simon, 2023-09-18 By carefully conceptualising the domestic in relation to the self and the photographic this book offers a unique contribution to both photography theory and criticism and life narrative studies Jane Simon brings together two critical practices into a new conversation arguing that artists who harness domestic photography can advance a more expansive understanding of the autobiographical Exploring the idea that self representation need not equate to self portraiture or involve the human form artists from around the globe are examined including Rinko Kawauchi Catherine Opie Dayanita Singh Moyra Davey and Elina Brotherus who maintain a personal gaze at domestic detail By treating the representation of interiors domestic objects and the very practice of photographic seeing and framing as autobiographical gestures this book reframes the relationship between interiors and exteriors public and private and insists on the importance of domestic interiors to understandings of the self and

photography The book will be of interest to scholars working in photographic history and theory art history and visual studies

Domestic Modernism, the Interwar Novel, and E.H. Young Chiara Briganti, Kathy Mezei, 2016-12-05 Domestic Modernism the Interwar Novel and E H Young provides a valuable analytical model for reading a large body of modernist works by women who have suffered not only from a lack of critical attention but from the assumption that experimental modernist techniques are the only expression of the modern In the process of documenting the publication and reception history of E H Young s novels the authors suggest a paradigm for analyzing the situation of women writers during the interwar years Their discussion of Young in the context of both canonical and noncanonical writers challenges the generic label and literary status of the domestic novel as well as facile assumptions about popular and middlebrow fiction canon formation aesthetic value and modernity The authors also make a significant contribution to discussions of the everyday and to the burgeoning field of homeculture as they show that the fictional embodiment and inscription of home by writers such as Young Virginia Woolf Elizabeth Bowen Ivy Compton Burnett Lettice Cooper E M Delafield Stella Gibbons Storm Jameson and E Arnot Robertson epitomize the long standing symbiosis between architecture and literature or more specifically between the house and the novel

A Marriage of Philosophy and Music Erich Welling, 2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in A Marriage of Philosophy and Music It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline A Marriage of Philosophy and Music

attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art

Virginia Woolf and the Nineteenth-Century Domestic Novel Emily Blair, 2012-02-16 In Virginia Woolf and the Nineteenth Century Domestic Novel Emily Blair explores how nineteenth century descriptions of femininity saturate both Woolf s fiction and her modernist manifestos Moving between the Victorian and modernist periods Blair looks at a range of nineteenth and early twentieth century sources including the literature of conduct and household management as well as autobiography essay poetry and fiction She argues for a reevaluation of Woolf s persistent yet vexed fascination with English domesticity and female creativity by juxtaposing the novels of Elizabeth Gaskell and Margaret Oliphant two popular Victorian novelists against Woolf s own novels and essays Blair then traces unacknowledged lines of influence and complex interpretations that Woolf attempted to disavow While reconsidering Woolf s analysis of women and fiction Blair simultaneously deepens our appreciation of Woolf s work and

advances our understanding of feminine aesthetics *Design for Ecological Democracy* Randolph T. Hester, Jr., 2010-09-24 Shows how to combine the forces of ecological science and participatory democracy to design urban landscapes that enable us to act as communities are resilient rather than imperiled and touch our hearts Over the last fifty years the process of community building has been lost in the process of city building City and suburban design divides us from others in our communities destroys natural habitats and fails to provide a joyful context for our lives In *Design for Ecological Democracy* Randolph Hester proposes a remedy for our urban anomie He outlines new principles for urban design that will allow us to forge connections with our fellow citizens and our natural environment He demonstrates these principles with abundantly illustrated examples drawn from forty years of design and planning practice showing how we can design cities that are ecologically resilient that enhance community and that give us pleasure Hester argues that it is only by combining the powerful forces of ecology and democracy that the needed revolution in design will take place Democracy bestows freedom ecology creates responsible freedom by explaining our interconnectedness with all creatures Hester's new design principles are founded on three fundamental issues that integrate democracy and ecology enabling form resilient form and impelling form Urban design must enable us to be communities rather than zoning segregated enclaves and to function as informed democracies A simple bench at a centrally located post office for example provides an opportunity for connection and shared experience Cities must be ecologically resilient rather than ecologically imperiled adaptable to the surrounding ecology rather than dependent on technological fixes Resilient form turns increased urban density for example into an advantage And cities should impel us by joy rather than compel us by fear good cities enrich us rather than limit us *Design for Ecological Democracy* is essential reading for designers planners environmentalists community activists and anyone else who wants to improve a local community **Frasier** Joseph J. Darowski, Kate Darowski, 2017-08-07 After America's most pompous barhound left the Cheers gang in Boston he returned to Seattle and found himself surrounded by an equally colorful cast of friends and family alike For eleven seasons radio psychiatrist Frasier Crane contended with his blue collar ex cop father Martin English caretaker Daphne coworker Roz and his younger brother Niles Looking at the world through Frasier's aristocratic witty lens the show explored themes of love loss friendship and what it might mean to live a full life Both fans and critics loved Frasier and the show's 37 primetime Emmy wins are the most ever for a comedy series In *Frasier A Cultural History* Joseph J. Darowski and Kate Darowski offer an engaging analysis of the long running award winning show offering insights into both the onscreen stories as well as the efforts behind the scenes to shape this modern classic This volume examines the series as a whole but also focuses on the show's key characters including Eddie the canine Close looks at set design class issues and gender roles are also provided along with opinionated reviews of all 264 episodes highlighting the peaks and dips in quality across more than a decade of television Despite the show's focus on an elitist intellectual and his equally snooty brother Frasier often embraced farce on a level previously unseen in American sitcoms a mix of comedic

elements that endeared it to viewers around the world *Frasier A Cultural History* will appeal to the show's many fans as well as to scholars of media television and popular culture *The Emergence of the Interior* Charles Rice, 2006-11-22 Taking a radical position counter to many previous histories and theories of the interior domesticity and the home *The Emergence of the Interior* considers how the concept and experience of the domestic interior have been formed from the beginning of the nineteenth century It considers the interior's emergence in relation to the thinking of Walter Benjamin and Sigmund Freud and through case studies in architecture's trajectories toward modernism The book argues that the interior emerged with a sense of doubleness being understood and experienced as both a spatial and an image based condition Incorporating perspectives from architecture critical history and theory and psychoanalysis *The Emergence of the Interior* will be of interest to academics and students of the history and theory of architecture and design social history and cultural studies
