Download for free the highlights of our first book How to Invest in USA Real Estate This book is the result of our first hand experience in the field which we wish we had when we set out in search of our first homes to buy to put to income There are many opportunities in real estate in America However there are also risks that you need to be aware of and somewhat calculate before buying a home in the USA Often these risks are ignored if you rely solely and exclusively on real estate agencies From the need to clearly understand the dynamics of this mode of investment and then to be able to control it directly was born the course Income Houses in the USA and then the book you are about to read Our strength is that in addition to being real estate consultants we do things for ourselves first The Investing in the United States project was born out of our need to diversify what we had managed to build over years of work We didn t want to create a second job for ourselves We wanted to make money work for us without using financial instruments that were difficult to control and always remaining in the real estate sector Studying taking courses with the N A R and the F I A I P back in 2005 and experimenting first hand we realized that we had to buy houses in the U S that in addition to having an excellent rental income could also have a prospect of revaluation in the medium to long term Since we were all married with children living and working in Italy the essential condition was to be able to work remotely so that we did not have to deal directly with the management of the house and the tenant Our goal was to build an extra income not dependent on our work To understand a kind of pension We wanted to invest in a country with a strong economy a lively real estate market and above all that had strong protection of property A country that in addition to protecting tenants also protects homeowners A country where houses can give much higher net returns than in Italy A country with few but clear and precise rules We found all this in the United States Initially we bought houses through organized structures It all seemed fantastic but we realized that something wasn t right So we took the plane to touch the American reality and we decided to invest time and money in training and direct experience in the field We wanted to invest part of our resources to generate monthly income without our direct intervention but always having control over the investment made I confess that sometimes we got burned but every mistake we made us grow to find the

best way to achieve our goal which if you're reading this is also your goal. With this book we've laid out the road to your goal of real estate investing in the USA.
