Theorizing Bioarchaeology Pamela L. Geller, 2021-06-30 Bioarchaeology has relied on Darwinian perspectives and biocultural models to communicate information about the lives of past peoples This book demonstrates how further theoretical expansion a thoughtful engagement with critical social theorizing can contribute insightful and more ethical outcomes To do so it focuses on social theoretical concepts of pertinence to bioarchaeological studies habitus the normal intersectionality necropolitics and bioethos These concepts can deepen study of plasticity disease gender violence and race and ethnicity as well as advance the field's decolonization efforts This book also works to overcome the challenges presented by dense social theorizing which has paid little attention to real bodies It historicizes explains and adapts concepts as well as discusses archaeological historic and contemporary case studies from around the world *Theorizing Bioarchaeology* is intended for individuals who may have initially dismissed social theorizing as postmodern but now acknowledge this characterization as oversimplified It is for readers who foster curiosity about bioarchaeology's contradictions and common sense The ideas contained in these pages may also be of use to students who know that it is naive at best and myopic at worst to presume data derived from bodies speak for themselves

Living Across and Through Skins Shannon Sullivan, 2001 Explores the dynamic relationship between bodies and the world around them What if we lived across and through our skins as much as we do within them According to Shannon Sullivan the notion of bodies in transaction with their social political cultural and physical surroundings is not new Early in the 20th century John Dewey elaborated human existence as a set of patterns of behavior or actions shaped by the environment Underscoring the continued relevance of his thought Sullivan brings Dewey into conversation with Continental philosophers Nietzsche and Merleau Ponty and feminist philosophers Butler and Harding to expand thinking about the body Emphasizing topics such as the role of habit the discursivity of bodies communication and meaning personal and cultural structures of gender the improvement of bodily experience and understandings of truth and objectivity *Living Across and Through Skins* acknowledges the importance of the body's experience without placing it in opposition to psychological cultural and social aspects of human life By focusing on what

bodies do rather than what they are Sullivan prompts a closer look at concrete physical transactions that might be changed to improve human experiences of the world

The Learning Project Lincoln Stoller, PhD, CHt, 2019-01-05 Ever since your schooling began you have been frustrated by its failure to inspire or demonstrate its importance It did not tell you what was most important and what it told you certainly was not You heard about genocide the assassination of JFK the World Wars and others since You have asked about these and other things and you've been told what but not why Every year you

expected truth to be revealed but it never was The question of why is never answered Your classmates progressed from intimidated elementary school students assaulted by teachers tests and the pledge of allegiance to compliant high school students accepting insipid explanations eroded self confidence and hostile competition By the time you reached middle school you were angry numb and indifferent At this point you started to search for wiser counsel and a deeper understanding of education the world and yourself For six decades I have been asking interesting people to answer the question of meaning growth and change I have returned to my wisest mentors classmates partners and their teachers students and children looking for answers to the question of what lies at the root of inspiration and opportunity What improves our lives In The Learning Project thirty five artists athletes tradesmen soldiers scientists and politicians teenagers adults and elders describe their passages of inner change One struggled with adolescence in a broken immigrant family Another trained to be an astronaut A third learned craftsmanship from a grandfather who lived during the Civil War These rites of passage echo a mythology that goes back thousands of years In them are the secrets to growing your humanity This is not the sanitized version reduced to self help aphorisms or buzzwords for business schools These are not pigeonholed people or bedtime stories They are fully textured authentic rites of passage unfiltered and unfolded by layers Lives like yours confusing complex uncertain and in the process of finding root This is the story of your own transcendence and the transformation of us all
