No More Dreaded Mondays Dan Miller, 2008-01-15 Is Your Job Making You Stupid Adam Smith author of The Wealth of Nations once wrote that a person who spends his life performing the same repetitive tasks generally becomes as stupid and ignorant as it is possible for a human creature to become Wow Now that's not a pretty picture Unfortunately much of our work today consists of those boring repetitive tasks But maybe you're one of the many who have gotten caught up in thinking work is just something you do to support your weekends Work is that necessary evil a means to an end or just a curse from God You probably take your role of providing for yourself and those depending on you seriously But you don't expect to enjoy your work you just do what has to be done Only now you're seeing that even loyalty and dependability bring no guarantees Lately you've seen coworkers who have been let go after years of faithful service Perhaps your entire industry has been shaken by outsourcing or changing technology Maybe you're tired of the long commute and being tied to your desk when you know you could make your own hours and still be productive You may have ideas stirring that you think could create new income and time freedom But here comes another Monday Maybe feeling trapped is just the reality of the way things are Doesn't everyone dread Mondays Doesn't every responsible person just bury their dreams and passions in exchange for getting a paycheck Absolutely not All of us no matter how old we are or what kind of work we're doing can learn to bring the same excitement to our jobs that we bring to whatever we love to do on our days off I believe that each one of us can pursue work that is a reflection of our best selves a true fulfillment of our callings No More Mondays will show you that meaningful work really is within your grasp And once you've opened the door and seen all the exciting career opportunities that await you whether you decide to revolutionize your current job or launch a new career altogether you'll find you can't go back to the old way of working From No More Mondays For everyone who dreads going to work on Monday mornings inspiring advice on how to find fulfilling work in an uncertain age Do you hate Mondays If so what's keeping you at your current job If you said a steady paycheck and the promise of a

secure retirement then you're in for a big disappointment. In today's volatile economy, there is nothing safe about punching the clock for a job you hate. As beloved talk show host and bestselling author Dan Miller reveals, the only way to find true security is by following your calling and then finding or creating work that matches that calling and passion. No More Mondays's practical inspirational advice speaks to people looking for guidance on how to launch a new career or business, those who want to stay in their current jobs and give the old 9 to 5 model a twenty-first century makeover, and managers desperate to understand the way people want to work today. For all of them, Dan Miller's message is loud and clear: If you're one of those people who dread going to work on Mondays, do something about it.
