Destructive Emotions Daniel Goleman, 2004-03-30 Why do seemingly rational intelligent people commit acts of cruelty and violence What are the root causes of destructive behavior How can we control the emotions that drive these impulses Can we learn to live at peace with ourselves and others Imagine sitting with the Dalai Lama in his private meeting room with a small group of world class scientists and philosophers The talk is lively and fascinating as these leading minds grapple with age old questions of compelling contemporary urgency Daniel Goleman the internationally bestselling author of Emotional Intelligence provides the illuminating commentary and reports on the breakthrough research this historic gathering inspired Destructive Emotions Buddhist philosophy tells us that all personal unhappiness and interpersonal conflict lie in the three poisons craving anger and delusion It also provides antidotes of astonishing psychological sophistication which are now being confirmed by modern neuroscience With new high tech devices scientists can peer inside the brain centers that calm the inner storms of rage and fear They also can demonstrate that awareness training strategies such as meditation strengthen emotional stability and greatly enhance our positive moods The distinguished panel members report these recent findings and debate an exhilarating range of other topics What role do destructive emotions play in human evolution Are they hardwired in our bodies Are they universal or does culture determine how we feel How can we nurture the compassion that is also our birthright We learn how practices that reduce negativity have also been shown to bolster the immune system Here too is an enlightened proposal for a school based program of social and emotional learning that can help our children increase self awareness manage their anger and become more empathetic Throughout these provocative ideas are brought to life by the play of personalities by the Dalai Lama s probing questions and by his surprising sense of humor Although there are no easy answers the dialogues which are part of a series sponsored by the Mind and Life Institute chart an ultimately hopeful course They are sure to spark discussion among educators religious and political leaders parents and all people who seek peace for themselves and the world The Mind and Life Institute sponsors cross cultural dialogues that bring together the Dalai Lama and other Buddhist scholars with Western scientists and philosophers Mind and Life VIII on which this book is based took place in Dharamsala India in March 2000

WHO IS THE DEVIL YOU KNOW Is it your lying cheating ex husband Your sadistic high school gym teacher Your boss who loves to humiliate people in meetings The colleague who stole your idea and passed it off as her own In the pages of *The Sociopath Next Door* you will realize that your ex was not just misunderstood He's a sociopath And your boss teacher and colleague They may be sociopaths too We are accustomed to think of sociopaths as violent criminals but in *The Sociopath Next Door* Harvard psychologist Martha Stout reveals that a shocking 4 percent of ordinary people 1 in 25 has an often undetected mental disorder the chief symptom of which is that that person possesses no conscience He or she has no ability whatsoever to feel shame guilt or remorse One in 25 everyday people therefore is secretly a sociopath They could be your colleague your neighbour even family And they can do literally anything at all and feel absolutely no guilt How do we recognize the remorseless One of their chief characteristics is a kind of glow or charisma that makes sociopaths more charming or interesting than the other people around them They're more spontaneous more intense more complex or even sexier than everyone else making them tricky to identify and leaving us easily seduced Fundamentally sociopaths are different because they cannot love Sociopaths learn early on to show sham emotion but underneath they are indifferent to others suffering They live to dominate and thrill to win The fact is we all almost certainly know at least one or more sociopaths already Part of the urgency in reading *The Sociopath Next Door* is the moment when we suddenly recognize that someone we know someone we worked for or were involved with or voted for is a sociopath But what do we do with that knowledge To arm us against the sociopath Dr Stout teaches us to question authority suspect flattery and beware the pity play Above all she writes when a sociopath is beckoning do not join the game It is the ruthless versus the rest of us and The

Sociopath Next Door will show you how to recognize and defeat the devil you know **Compassionate Conversations** Diane Musho Hamilton, Gabriel Kaigen Wilson, Kimberly Myosai Loh, 2020-05-19 The definitive guide to learning effective skills for engaging in open and honest conversations about divisive issues from three professional mediators When a conversation takes a turn into the sometimes uncomfortable and often contentious topics of race religion gender sexuality and politics it can be difficult to know what to say or how to respond to someone you disagree with Compassionate Conversations empowers us to transform these conversations into opportunities to bridge divides and mend relationships by providing the basic set of conflict resolution skills we need to be successful including listening reframing and dealing with strong emotions Addressing the long history of injury and pain for marginalized groups the authors explore topics like social privilege power dynamics and political correctness allowing us to be more mindful in our conversations Each chapter contains practices and reflection questions to help readers feel more prepared to talk through polarizing issues ultimately encouraging us to take risks to understand and recognize our deep commonalities to be willing to make mistakes and to become more intimate with expressing our truths as well as listening to those of others Phenomenology of Life - From the Animal Soul to the Human Mind Anna-Teresa Tymieniecka, 2007-08-14 The challenge presented by the recent tendencies to naturalize phenomenology on the basis of the progress in biological and neurological sciences calls for an investigation of the traditional mind body problem The progress in phenomenological investigation is up to answering that challenge by placing the issues at stake upon a novel platform that is the ontopoiesis of life **Symptoms of Unknown Origin** Clifton K. Brown, 2009-04 Supplication captures a universal cross cultural approach to spirituality Authored by Dr Patricia Brown The Supplicate Order defines supplication as an expression for the laws and principles that guide a spiritual aspirant toward communion with the sacred mysteries progressing toward an expanded perception of life and grateful reception of blessings positive creativity healing

and wisdom It shows how humanity bridges the manifest explicate order and the unmanifest implicate order Offering a fresh perspective on supplication The Supplicate Order carries four messages that pertain to spiritual aspirants at any level Don't abandon yourself to self loathing or to another person's or group's absolute power over you Start with what you know to do don't be too eager to get exotic or far removed from your resonant spiritual persuasion Never think you know everything Don't give up Brown explains how key universal principles verify the human capacity to bring forth gifts of the spirit while psychological health and development determine invocatory efforts and receptive capacities The Supplicate Order integrates global spiritual wisdom and psychological knowledge with the trends of new science highlighting the human invocation of the sacred

Collier, Stephanie Bachmann Mattei, 2023-04-01 Do you want to learn how to express yourself honestly and compassionately How to live in choice rather than submit or rebel These are two of the key distinctions that Marshall B Rosenberg the creator of Nonviolent Communication developed and taught as ways to reveal the consciousness behind his visionary practice This book invites you into a systematic exploration of these key distinctions Each chapter provides real life examples from around the world alongside contributions from brain science research and awareness of power dynamics and systemic conditioning Key by key chapter by chapter you'll collect understandings and practices that will help you see every action and relationship anew Nonviolent Communication is often introduced as a model with four components observation feeling need and request This is just the beginning At its heart lies a reverence for life based on awareness of interdependence wholeness and power with With this consciousness Nonviolent Communication reaches beyond interpersonal conversations into the realms of spirituality social change and life serving community Use this book as your key to moving toward the spirit of true connection
