have decided to maintain the successful format of the International Yearbook of Nephrology 1989 Thus each annual issue will be divided into sections each section will have a different primary focus every year depending upon what area is of greatest interest at the time In other words the Yearbook will remain different from the numerous books which appear every year covering all aspects of nephrology In the Yearbooks you will find topics usually unavailable in nephrology textbooks In this issue we have improved the printing quality of the book with a more uniform format throughout the volume despite the use of camera ready manuscripts for direct photo offset reproduction a procedure mandatory for a rapid publication
